# Antiwar Youth Return A Year Wiser

By JOSEPH E. MOHBAT

WASHINGTON (AP) — Those "kids" are at it again, doing their Vietnam thing, and it may be that President Richard M. Nixon will witness this month the most massive concerted blast of popular dissent ever directed at an American president.

The President said it wouldn't affect him any, thereby tripling their enthusiasm for the task.

They're a year older now, these young ones who worked for Bobby Kennedy and were thwarted by a bullet, who slaved for Gene McCarthy and were beaten back by orthodoxy.

They're a year wiser, a year better organized, and they've saved their mailing lists and marked well who their friends were in 1968, the year they refuse to forget.

And they are fired by a conviction that, unlike 1968, the weight of public opinion is on their side when they say it's time for Nixon to bring the troops home. All the troops. Now.

They are the Vietnam Moratorium Committee and its thousands of supporters recruited across the land for the first day of moratorium—Wednesday, the 15th of October 1969.

If all goes well, they hope history will record that day as a watershed in participatory democracy, a turning point in their country's philosophy of world leadership. They want it to be the day the people stood up and made something happen.

If it works, they will give much credit to Nixon himself, who at 12:10 p.m. Friday, Sept. 27, defied them by declaring at his news conference: "Under no circumstances whatever will I be affected by it."

The mail and money pouring into the shabby Washington headquarters of the committee have nearly tripled since that presidential statement.

"We couldn't believe he'd say that," said David Hawk, 26-year-old co-coordinator of the moratorium, speaking in barely concealed exultation. "But we couldn't have asked for more. The people didn't like that."

He waved a pale hand around the cluttered, frenetic office. Girls in long hair and short skirts, young men in long hair and short beards, sitting on cardboard cartons, opened stacks of envelopes. Their work table was piled with currency and checks—for amounts ranging from $1 to $500.

"My God, we're out of Buttons!" someone wailed from a back room, as requests poured in for the blue badges with the white dove and "Work for Peace October 15."

Hawk, a Cornell graduate and All-America swimmer now awaiting trial for refusing draft induction, emphasized that "Oct. 15 is not just a day of activity, an event in itself, but the beginning of an escalating process."

The committee intends to follow up the first moratorium day with two days in November and three days in December.

It began as a campus movement, and after a summer of feverish organization, the com-

# Storybook Mets Sweep Series From The Braves

## Take National Title In A 7-4 Victory

NEW YORK (AP) — The incredible New York Mets, baseball's rag tag clowns for seven long years, made it all the way to the top today by winning the National League pennant with a third straight playoff victory 7-4 over the stunned Atlanta Braves.

Wayne "Red" Garrett, an Atlanta farmhand drafted by the Mets for $25,000 last December, delivered the killing blow, a two-run homer in the fifth inning that put the Mets ahead for keeps. Garrett had hit only one homer all year and batted but .218.

Nolan Ryan, the fireballing 22-year-old right-hander who commuted between the Mets and a Texas Army camp all summer, bailed out starter Gary Gentry with a brilliant effort in the last seven innings.

**ROARING CROWD**

A roaring standing room crowd of 53,193 at Shea Stadium chanted "We want more" in the Mets' eithth and counted down each out in the ninth as Ryan closed strong.

When Garrett threw to Ed Kranepool to retire Tony Gonzalez for the final clinching out, thousands of youngsters swarmed onto the field, fire crackers thundered in the stands and the bases quickly disappeared. Instant banners proclaiming "Mets' Champs" sprouted out of nowhere.

Several hundred youngsters clustered in front of the Met dugout shouting "We're No. 1" and gesturing with their fists in the air. A special corps of policemen kept the frantic fans out of the dugout as torn paper spewed down from the stands and a mini "Woodstock Pop Festival" set in on the infield.

**WIN IT ALL**

The club that never had finished better than ninth and then only reached that pinnacle twice in seven previous years, had won it all in the National League after making up 9½ games on the Chicago Cubs to win the East Division and then routing the Western champion Braves in three straight.

Manager Gil Hodges' amazing Mets now go on into the World Series starting Saturday afternoon in the home park of the American League champions.

But even a World Series victory will have a hard time topping this celebration. Some thought it was even wilder than the night they clinched the East title on Sept. 24.

**WORTH IT**

Victory was sweet for the fans who were deprived of their two National League franchises when the Dodgers and Giants moved West to California in 1958. It took eight long years but the bubbling champagne was worth the effort.

The Mets, derided as Punch and Judy hitters who had to get by on their fine pitching, wound up with a .327 club batting average and scored 27 runs on 37 hits in the three games. On the other hand their three starting pitchers, Tom Seaver, Jerry Koosman and Gary Gentry all were roughed up, while the Braves scored 15 runs.

Gentry, trying to top his 23rd birthday celebration with a pennant, gave way to Ryan in the third inning trailing 2-0.

Hodges removed Gentry after Gonzalez singled, Hank Aaron

## Tremor Shakes In Santa Rosa

SANTA ROSA (UPI)—Jittery Santa Rosa was shaken by a mild earthquake today, centered in the same area where a major quake last week caused millions of dollars in damages.

No damage was reported from the latest temblor, described by Santa Rosa Police Lt. Charles Nader as "a little shake."

The University of California Seismograph Station at Berkeley said the tremor was recorded at 3.75 on the Richter earthquake scale and occurred at 7:28 a.m.

Its center, a spokesman said, was "near Santa Rosa, in the same general area" of last Wednesday night's severe quakes, which registered up to 5.6 on the scale.

Following last week's quakes, seismologists predicted that there would probably be a series of aftershocks decreasing in intensity.

"It was just a little shake," Lt. Nader said. "We have no report of any damages, but we did get quite a few calls."

Mayor Jack Ryerson has asked federal disaster designation for Santa Rosa as a result of the two shocks last week which broke windows and badly damaged or destroyed more than 200 homes.

Damage has been estimated at between $2 million and $5 million.

## Foghorn Puts Folks In Tizzy

An electric version of the Chinese water torture, a new forghorn that blasts four times a minute, has East San Rafael residents in a tizzy.

The Coast Guard, in an economy move, automated the foghorn on East Brother Island off Richmond last Wednesday, and the horn has blown continuously ever since — and is slated to keep blowing until a six-month test of its effectiveness is concluded on April 1.

**Its effectiveness in enraging residents across the water in Marin was noticeable by Thursday, when telephoned complaints began to hit the Coast Guard. Oliver F. deGraff, navigation supervisor for the Twelfth Coast Guard District, said today that he had gotten about 10 calls so far, and promised "we certainly will do something."**

But he acknowledged he did not know yet what could be done about the problem, although he noted the residents "could get used to it, or even forget about it."

Possible solutions cited by deGraaf included putting back the four men who manned the station's foghorn and light, installing a fog detector to turn it on whenever needed.

Fog detectors, which are triggered by an increase in moisture, are only about 80 per cent reliable, he noted. One could be installed for a trial in a couple of weeks, he said.

Another possibility would be to have the foghorn operated by a caretaker if the historic island is taken over by the East Bay Regional Park District, he said. The station was manned by the Coast Guard from 1874 until last week.

The island is in the strait connecting San Pablo and San Francisco bays.

DeGraaf said the foghorn was being operated continuously because "it's just as cheap as turning it off and on." It is the only automated foghorn in the bay, he added.

The electric foghorn replaced a two-tone diaphone using compressed air. The diaphone had a range of about four miles, but

## Jobless Rate Highest In Two Years

WASHINGTON (AP) — Unemployment in September made its biggest leap in nine years and rose to its highest rate in two years, the Labor Department announced today.

The over-all unemployment rose from 3.5 per cent in August to 4 per cent in September, the largest increase since September-October 1960.

The Bureau of Labor Statistics noted that unemployment normally drops from August to September as young workers return to school—but it failed to drop this year. Unemployment was up 365,000 over the month, with two-fifth of the increase among workers in the 20 to 24 age group.

Total employment in nonfarm categories was 70.8 million in September, an increase of 300,000 over the previous months. With seasonal adjustment, payroll employment was unchanged over the month but would have shown a modest increase except for the effect of the early changeover in auto models.

Although unemployment for nonwhites remained double that of whites, nearly all of the September increase in unemployment took place among the white workers whose rate climbed from 3.2 to 3.6 per cent.

The rate for blue collar workers moved from 3.8 to 4.4 per cent, reflecting increased joblessness in blue collar categories.

A spokesman for the bureau said the nation's level of employment is at it highest in history and that the unemployment boost signifies a slowdown in the rate of employment growth —mostly in the construction and government fields.

Over the year, unemployment has risen by 350,000, reflecting an increase of 150,000 for adult women and 100,000 each for adult men and teen-agers.

The actual number of unemployed persons in September totaled about three million. The 4 per cent unemployment rate was the highest since Oct. 1967, when it reached 4.2 per cent. The trend this year began with a 3.3 per cent average in the first quarter climbing to 3.5 in the second and 3.7 in the third.

The bureau said one explanation for the sharp increase might be that the September survey was taken early in the month, perhaps before a large number of young persons had yet re-entered school.

## Sonoma Election Will Decide Officers' Pay

Sonoma State College student directors have set an election for Friday to determine if student government officers should receive pay and have also accepted a compromise plan on the communications code.

Looking to the campus-wide vote, student directors accepted the compromise code so that publication funds could be released and the student newspaper published in time to report the election.

While students will ballot on whether the student body president and other officers should be paid, no amount will be specified on the ballot, leaving the student directors to set pay.

In the past, the student president received $1,000 per year while other officers received $500 and $400. New state college regulations require that referendums be held in cases where students allot student funds.

After the student directors accepted the communications code as suggested by College Presi-

dent Ambrose R. Nichols Jr., the funds for publications and the closed circuit television system were released.

Under the compromise plan, the code stipulates that the newspaper should endeavor to serve the total college community, but that it may be aimed primarily at students. The student directors had maintained that student funds support the paper and that it should reflect only student views and interests.

The student directors had also requested that a representative of the Hidden Talent Program for disadvantaged students be placed on the communications commission to insure minority race representation.

In conforming with Dr. Nichols's views, the commission will instead provide membership for the Black Students Union and the Mexican-American Student Confederation. Nichols

## Hideaway Light Doors Called Meat Cleavers

WASHINGTON (AP) — Some of the hydraulic doors on hideaway auto headlights are built like a "butcher's cleaver" and cause many pedestrian injuries each year, Senate investigators were told today.

Dr. William Haddon, former head of the Bureau of Traffic Safety in the Transportation Department, singled out the headlights along with auto bumpers as factors that not only increase auto accident injuries but are partly responsible for skyrocketing auto repair costs.

Haddon, who is now director of the Insurance Institute for Highway Safety, testified as the Senate subcommittee on antitrust and monopoly reopened hearings into the high cost of auto repairs.

## Rogers Sets Third United Nations Visit

WASHINGTON (AP) — Secretary of State William P. Rogers, who conferred with President Richard M. Nixon today, will return to New York Wednesday night for his third round of talks at the U.N. General Assembly session.

The State Department said Rogers expected to return to Washington Friday night.

## Retired General Is Linked To Massive Private Firearms Sale

WASHINGTON (AP) — Maj. Gen. Carl C. Turner used his position as the Army's provost marshal general to obtain hundreds of firearms from the police departments of Chicago and Kansas City and sold many of them privately, a Senate investigator testified today.

Philip R. Manuel, a staff investigator for the Senate's investigations subcommittee, said Turner told the departments he wanted the weapons for Army training and for display in the military police museum.

Manuel said many of these handguns, shotguns and rifles and others, which he said Turner obtained from Fort Bliss, Tex., were sold by the general to a North Carolina gun dealer.

Turner, who is now retired from the Army, has been mentioned frequently in testimony involving allegations he covered up evidence against Sgt. Maj. William O. Wooldridge, once sergeant major of the Army. Turner is expected to testify tomorrow.

In the second week before the Senate investigating subcommittee, Army witnesses are expected to detail more about the double life they said was led by Wooldridge.

Manuel testified that Turner signed for some of the weapons two weeks after he had officially retired from the Army in 1968 ending four years as provost marshal general.

The investigator said he was told some of the guns sold by Turner were destined for delivery to a group of revolutionaries on the island of Haiti in the Caribbean.

He gave no further elaboration.

Manuel said Turner obtained a total of 400 firearms from the Chicago Police Department, 96 weapons from Kansas City and a shipment of 200 from Ft. Bliss.

Manuel said Turner came in contact with Chicago police in April and May of 1968 as commander of the U.S. regular Army troops which were sent to the city during rioting following the assassination of Dr. Martin Luther King Jr.

"While in Chicago," the investigator said, "Gen. Turner obtained permission in his capacity as provost marshal general to inspect and obtain whatever weapons he wanted from all of the arms collected and confiscated by the Chicago Police Department."

"He obtained from the department on four separate occasions a total of approximately 400 weapons including handguns of all types . . . both of foreign and domestic origin," Manuel said.

He said many of the guns were found to have been sold to the Pine State Gun Shop of Fayetteville, N.C. The owner of the shop, Manuel said, is currently awaiting trial in U.S. district court for alleged violations of the Gun Control Act of 1968.

The investigator said the general did turn some of the guns into the Army.

Permits are not required for barbecue fires, reported the Marin County Fire Department.

## 25 New Auto Tags Are Issued

The Corte Madera office of the Department of Motor Vehicles issued 25 of the new blue and gold state license plates today as the new auto tags were distributed throughout California.

Thomas Foudy, assistant manager of the Corte Madera office said the office has received many calls from persons who believe the new plates will be put on all vehicles. The new plates will be issued only to motorists who buy new cars or who are from out of state and register their vehicles in California for the first time.

After March 1 other California vehicle owners will be able to trade in their old yellow and black plates for the new ones for $3.

## Court Holds First Session: 28 Minutes

WASHINGTON (AP) — The Supreme Court opened its 1969-70 term today with a new chief justice, a sedate ceremony —and a vacant seat.

The new chief, Warren E. Burger, presided over the uneventful 28-minute session. Its serenity contraster sharpy with the still unsettled dispute in the Senate over the nomination of Judge Clement F. Haynsworth Jr. to succeed Abe Fortas on the high court.

## Praises Bomb

TOKYO (AP) — North Vietnam said today Communist China's two neclear tests conducted last month were "a new blow at imperialism, headed by U.S. imperialism."

Hanoi's official newspaper Nhan Dan-People-extended its "heartiest congratulations" to the Communist Chinese in an article lauding Peking's "successful hydrogen and nuclear bomb tests" conducted on Sept. 23 and 29.

## Terrorist Roundup

SAO PAULO, Brazil (AP) — Authorities in Sao Paulo have announced the arrest of 19 more terrorists in a 10-day crackdown by the army, navy, air force and police. They said three took part in the kidnapping of U.S. Ambassador C. Burke Elbrick in Rio de Janeiro.

Two other persons arrested in Rio recently are also believed to be part of the gang that pulled Elbrick from his car and held him for 78 hours before releasing him on Sept. 7. The Brazilian government freed 15 prisoners demanded by the kidnappers for his safe return.

Sources said more than 1,000 persons have been arrested or detained in the search for Elbrick's abductors.

## Home For Subs

HONG KONG (AP) — Communist China has built a "nuclear bomb proof" submarine base under a mountain and topped it off with an airfield for 100 jet fighter-bombers, it was report here today.

A refugee who arrived from China's Kwantun Province adjoining Hong Kong said he pieced together this description of the base from workers who helped construct it:

Four tunnels have been driven deep into four adjoining mountains below sea level. These are connected to the ocean by tunneled canals deep enough to permit nonsubmerged submarines to pass into four holding pools, each of which can accomodate 10 submarines.

## Bomb Kills One

TEL AVIV (AP) — A bomb packed in a box of fruit and placed beneath a parked truck exploded in a crowded market in the town of Afula today, killing a man in the truck cab and injuring 23 others, police said.

Several of the injured, including women, children and Arabs, were reported in serious condition.

Police rounded up about 100 Arabs for questioning.

## Rejects Offer

ATHENS (AP) — Aristotle Onassis has rejected an offer of $100,000 for his wife to star in an American television special "A Tour of Greece," a representative of producer Roger Gimbel said today.

Gimbel planned to film the one-hour color program for release in April 1970, coincident with the start of the tourist season. He sstimated that the program would have increased Greece's tourist revenue approximately $70 million.

Gimbel has made similar specials with Princess Grace of Monaco and Sophia Loren, conducting a tour of Rome. Mrs. Onassis, while she was the wife of President Kennedy, starred in a TV tour of the White House.

# 72 Bases, Towns Shelled

SAIGON (AP) — The Viet Cong and North Vietnamese made their heaviest rocket and mortar attacks in more than a month over the weekend, shelling 72 allied bases and towns, the U.S. Command said today.

Thirty-one of the 72 attacks reported between 8 a.m. Saturday and 8 a.m. today caused casualties or damage, headquarters said. Fifteen of the attacks were against U.S. units or installations.

The U.S. Command said 10 Americans were wounded.

Incomplete reports said six Vietnamese were killed and about 35 were wounded.

The attacks were the heaviest since Sept. 12-13, when a total of 86 shellings were reported.

Official sources said the enemy level of activity has been higher in recent weeks than during previous lull periods this year, although the number of American battlefield deaths is down. But they added that significant enemy ground attacks are still very few.

"Small unit contacts are staying up well above the 40s," said one source. "Last week they averaged 49 a day and the week before 55 a day. During previous lull periods in August they were down around an average of 40 a day."

American forces killed 53 enemy troops in four clashes northwest of Saigon with no U.S. losses, headquarters said.

But American infantrymen were dealt a setback shortly before midnight yesterday when North Vietnamese troops attacked them 75 miles south-southeast of Da Nang. Four Americans were killed and 15 wounded under a heavy mortar and rifle fire. Enemy losses were not known.

South Vietnamese troops reported killing 30 Viet Cong in two fights in the Mekong Delta. Government casualties were reported light.

# Mosque Fire Confession Told Court

JERUSALEM (AP) — A police superintendent told a Jerusalem court today that a young Australian mystic had confessed setting fire to the Al Aksah Mosque in Old Jerusalem to clear the site for the rebuilding there of Solomon's Temple.

Supt. David Ofer said Michael Denis Rohan, 28, told the police in a statement after his arrest:

"About a week after I arrived in Jerusalem I discovered a Scripture that said that one person will be called by God to build the temple and therefore I decided God wanted me to build this temple. Therefore if I am the chosen one to do this, I will have to prove it by destroying the mosque. if this was God's will, then he would allow me to do it."

### LAST REMNANT

The Al Aksah Mosque was built on the site of Solomon's Temple, and the Wailing Wall nearby is the last remnant of the temple. The site is also Islam's third holiest shrine because Moslems believe that the Prophet Mohammed ascended into heaven from there.

Rohan is a member of a Christian sect which believes that the Messiah cannot come until Solomon's Temple is rebuilt on its original site. A sheep shearer by trade, the young man came to Israel in March.

Sitting in a bulletproof glass enclosure like the one that protected Nazi war criminal Adolf Eichmann, Rohan went on trial today on four charges of arson and desecration of a holy place. His Israeli lawyer told the three-judge court Rohan "does not confess to the charge and he does not confess to the facts" outlined in the charges.

### ISRAELI LOW

Under Israeli law, a defendant does not plead guilty or not guilty. He can admit or deny all or some of the alleged facts, or he can refuse to reply at all.

If convicted on all the charges, Rohan could be sentenced to 44 years in prison.

Roman slaves were not allowed to wear hats or cover their heads.

# Cuban Lands MIG Near Nixon Jet

HOMESTEAD AIR FORCE BASE, Fla. (AP) — A Russian-made MIG17 fighter plane piloted by a defecting Cuban officer landed yesterday near President Richard M. Nixon's Air Force One jetliner.

As Nixon relaxed 30 miles away at his Key Biscayne retreat, the pilot set the Korean War vintage plane down on the base's only runway at 12:25 p.m. EDT.

Air Force One stood on an apron being readied for the President's return to Washington.

The little jet was picked up by radar 90 miles east of Key West, a Defense Department spokesman said. Military sources declined to say whether U.S. planes were sent to intercept it or whether its cannon and machine guns were loaded.

The Cuban defector asked and was granted asylum. His name was not disclosed.

The U.S. State and Defense departments said in Washington that the Czechoslovakian Embassy was asked to inform Cuban authorities that the plane would be made available for return to Cuba. The United States and Cuba have broken diplomatic relations.

The dull gray plane was searched by military officials and placed under police guard in a hangar on the base. It bore the number 232, a Cuban flag, and carried red stars on its wings and tail.

# Life Reveals Brutal Pendleton Treatment

NEW YORK (AP) — Some prisoners in the Marine Corps brig at Camp Pendleton in San Diego County are sometimes "kicked, beaten, stomped and karate-chopped for refusing to obey a direct order" and the guards who mete out such treatment go unpunished, says Life Magazine.

A congressional subcommittee is probing allegations of overcrowding and brutality at the brig. The corps replaced the brig commander, Maj. W.A. Voight, last Sunday. Maj. Robert E. Finney, his replacement, was given a free hand to improve conditions.

"Guards have handcuffed prisoners to the chain-link ceiling of their cells and left them hanging there for hours," the Life article said yesterday.

Reporter Jack Fincher says his report is based on signed letters from prisoners. He says the truthfulness of the letters is "clearly open to doubt," but he also has corroborative statements from Navy Lt. Mire Stine, a former brig chaplain, and Dr. Lawrence McNamee, now in private practice in Cleveland.

"The hard-nosed Marine ethic," along with overcrowding, untrained guards and understaffing are responsible for the alleged mistreatment, Stine and McNamee say in the article.

"The guards would just say, 'This is how we keep them in line, chaptain,' " Stine says.

The article also says:

"Guards have taped prisoners' heads like mummies to keep them quiet" and once a prisoner nearly suffocated.

Two hundred men once refused to turn out for reveile in a protest over grievances and were forced to run until they were exhausted. Those who dropped were "kicked and beaten so badly that many had to be hospitalized."

Camp Pendleton has conducted its own secret investigation of conditions and "one officer compared the Pendleton brig to the Civil War hell-hole of Andersonville."

Louisiana has three deep-water ports, New Orleans, Baton Rouge and Lake Charles.

It pays to belong.

DIANE LINKLETTER
'Murder' by LSD

## Linkletter's Daughter In Fatal Plunge

HOLLYWOOD (UPI) — The death of Diane Linkletter, 20, youngest child of television personality Art Linkletter "wasn't suicide . . . it was murder, she was murdered by the people who manufacture and sell LSD," says Linkletter.

Linkletter said yesterday Diane jumped to her death from the window of her sixth-floor apartment Saturday while under the influence of the hallucinatory drug.

In an exclusive interview in the Los Angeles Times, Linkletter, 57, said he had to tell what happened to his youngest child. He wanted other young persons to know her story.

**TELLS OF TRIP**

"You add LSD to a girl who is somewhat emotional and dramatic and it can be disastrous. She told me about taking it, about her bum trip. She felt she was being driven out of her mind by LSD," the entertainer said.

Sheriff's deputies said Miss Linkletter plunged from a window of her apartment in West Hollywood. A friend, Edward Durston, 27, West Hollywood, was with her when she lunged through the casement of a kitchen window. Deputies said he grabbed for her but was too late.

Durston told detectives that the night before Miss Linkletter was "extremely emotional, extremely despondent and very irrational at times, in fact most of the time" in the hours before her death.

**HOLLYWOOD CROWD**

Linkletter said Diane, an aspiring singer who would have been 21 Oct. 31, moved with a Hollywood crowd that used LSD but she couldn't handle it. She had a bad trip on the drug and she feared it was destroying her mind, he added. "She tried it," Linkletter said, "The LSD that people shove into their bodies—it's like diving into a pool when you don't have any idea of the depth. They don't know if it's deep and clear or shallow and dangerous."

Linkletter and his wife, Lois, were notified of the death in Colorado and returned here Sunday.

On July 15 John Zweyer, 33, husband of Linkletter's oldest daughter, Dawn, 29, shot himself in the head. He reportedly was depressed over his insurance business.

## Feud Continues On Capitol Work

WASHINGTON (AP) — The American Institute of Architects, condemning "wild assertions," say the Capitol's historic west front is in no imminent danger of collapse and can be restored relatively inexpensively.

The AIA statement came as a rebuttal to backers of a House-approved plan to tear down the old sandstone walls and—at an estimated $45 million cost—recreate them in marble and granite 88 feet further out.

## Stereo, Tapes Stolen

A stereo and several tapes valued at $175 were stolen from a vehicle owned by Debbie J. Smith, 18, of 28 Laurel Grove Avenue, Kentfield, Marin County sheriff's deputies reported yesterday, who said the items were taken while the car was parked in front of the owner's home.

# Huhphrey Flays Nixon On Inflation

ATLANTIC CITY, N.J. (AP) — Former Vice President Hubert H. Humphrey said today that President Richard M. Nixon has virtually abdicated his responsibility to fight inflationary wage and price hikes.

and, said the man who lost the presidential election to Nixon, White House policies aimed at slowing the economy to cool inflation threaten a drastic increase in unemployment.

"That's the old tried and tested Republican medicine guaranteed to produce a cure worse than the disease," Humphrey said in a speech for some 1,000 AFL-CIO convention delegates.

Humphrey, speaking to the labor group that was the main bulwark of his Democratic bid for the presidency, said Nixon is favoring bankers, corporations and his Southern political allies at the expense of the rest of the nation.

"Inflation, interest rates, civil rights, education, conservation, consumer protection, antitrust —you name it and the Nixon-Agnew administration has remembered its friends and forgotten the rest of us," Humphrey said.

"What we have witnessed in the past eight months is a virtual abdication of the President's responsibility—yes, even his duty—to take the lead in fighting inflation, in both prices and wages," he said.

Living costs have climbed this year at an annual rate of about 6 per cent, the steepest since 1951.

Humphrey said Democratic Presidents John F. Kennedy and Lyndon B. Johnson forced big industries to back down on price hikes, but that Nixon has been silent while the steel, auto and other industries raised prices.

"And I'll bet you remember that these presidents also demanded from labor greater restraint in wage increases," Humphrey said of Kennedy and Johnson.

Johnson had a major run-in with the AFL-CIO in 1966 and 1967 over attempts to impose a White House guideline limiting wage hikes to 3.2 per cent a year. Johnson lost the fight and wages were rising at an annual rate of about 6 per cent in the last year of his administration. Wages are climbing at a rate of 7 per cent this year.

## Three Firemen Hurt In Blaze

SAN FRANCISCO (UPI)—Three firemen were injured yesterday when a roof of a restaurant collapsed as they battled a three-alarm fire in the Mission District.

The three were released after treatment at a hospital, according to a fire department spokesman. Damage was estimated at $100,000 in the blaze, which took two hours to control.

Chief William Murray said grease in the kitchen of Dick's restaurant caught fire and the flames spread quickly, destroying the one-story building housing the restaurant and a tavern and damaging the rear of an adjacent two-story building.

had said the Hidden Talent Program was not primarily a minority program and should not be singled out for membership.

In the compromise plan, Dr. Nichols agreed that the student boy body president could remain on the communications commission as an ex-officio member with no voting rights. The president had first opposed the seating of the student president as a means of keeping the newspaper free from student government control.

The students acknowledged that Nichols would have the power to veto any future changes in the communications code. The student directors said the state college trustees had given the power to college presidents and that it must be recognized.

Letters may be mailed to Orr at Post Office Box 1828, Sacramento.

doubled and Rico Carty had slammed a foul liner to left.

Aaron's two-run homer in the first had given Atlanta its 2-0 bulge.

Hodges made the big move, calling for Ryan who took over with a 1-2 count on Carty and struck him out. After walking Orlando Cepeda intentionally to load the bases, Ryan struck out Clete Boyer and got Bob Didier on a fly ball.

Young Ryan, warming to the task, allowed only three hits in his seven-inning winning stint, struck out seven and walked only two.

Cepeda's two-run homer, following a walk to Carty in the fifth, momentarily gave the Braves a lead but the slugging Mets were not to be denied. When the day was done they had 14 hits, including four doubles and homers by Tommie Agee and Ken Boswell, each of whom had three hits, and the winning blast by Garrett.

operated at a much lower frequency of 98 to 130 cycles per second. The new horn has a rated range of about 1.5 miles, but a frequency of 500 cycles per second, deGraaf explained.

The diaphone sounded one three-second blast each 30 seconds, but only when turned on by station operators.

The foghorn sounds a two-second blast, then is silent for two seconds, sounds another two-second blast, and is silent for 24 seconds before repeating the endless cycle.

The diaphone sounded in all directions, but the horn is aimed north toward San Pablo Bay Channel.

**"We did not foresee that we would get complaints," deGraaf said, adding the complaints "probably are very legitimate."**

# A Complete Withdrawal Call Growing

WASHINGTON (UPI) —Nearly a quarter of the members of the House joined today in urging President Richard M. Nixon to bring home all American combat forces from Vietnam "at the earliest possible moment."

A resolution, carefully worded to support President Nixon, both on his already announced withdrawal of 60,000 men and his "expressed determination" to pull out the rest, was signed by 108 members—64 Republicans and 44 Democrats. (See another story, page 5.)

Additional sponsors were sought by the principal backers of the statement with hopes of carrying it "all the way" to an expression of the full House.

The statement reads:

"Resolved, that it is the sense of the House of Representatives that the substantial reductions in United States ground combat forces in Vietnam already directed are in the national interest and that the President be supported in his expressed determination to withdraw our remaining such forces at the earliest possible date."

A principal sponsor, Rep. Paul Findlay, R-Ill., described it as "the most specific statement on Vietnam by a group of congressmen since the (1965) Gulf of Tonkin resolution" which President Lyndon B. Johnson cited as support for the big U.S. intervention in Vietnam.

Added to the picture during the weekend were a hint from Senate GOP leader Hugh Scott of unspecified new developments in the war, and plans from Sen. J. William Fulbright for a public, and probably televised, hearing on the war.

# Beret Assassin Role Denounced

WASHINGTON (AP) — An Army colonel who twice commanded Green Berets in South Vietnam emphatically denies that assassination is part of the Special Forces' assignment in the war.

"The suggestion that assassination plays any part in the mission of the Army Special Forces is absolutely false and utterly absurd," Col. Fred Ladd said in an interview.

Ladd, who headed the 5th Special Forces in Vietnam in 1962-63 and again in 1967-68, said assassination and terrorism are neither taught nor advocated in Green Beret training at Ft. Bragg, N.C.

"No soldier has a license to murder anybody," he said.

Ladd's comments came in the wake of a growing assumption in some quarters that the Green Beret murder case indicates the elite Special Forces are engaged in something more than training and organizing mountain tribesmen to fight the Viet Cong.

Ladd declined to discuss whatever details he knows about the case of the eight Special Forces men who once faced charges of murder and conspiracy in the alleged slaying of a South Vietnamese double agent.

But as other officers have lately, Ladd called attention to the fact that Col. Robert Rheault, a successor to Ladd in Vietnam until being accused in the case, was the only career Green Beret in the group of eight originally charged.

The rest were intelligence officers assigned to the Special Forces. Only one of them had served a previous tour in the Special Forces.

A refusal by the CIA last week to let its agents testify in scheduled courts-martial led the Army to drop charges against the men.

Army Secretary Stnaley R. Resor said the CIA was "not directly involved" but it has been established from various sources that the agency discussed the "disposition" of the South Vietnamese with the Green Berets.

Ladd, now serving in the office of the deputy chief of staff of the Army, acknowledged that Special Forces have intelligence personnel but said their mission is not "clandestine" intelligence work such as behind enemy lines operations.

# Thieu's New Timetable For Pullout

SAIGON (AP) — President Nguyen Van Thieu said today the Vietnamese people "are determined to replace the bulk of the U.S. fighting units in 1970." But he added that all American troops cannot be withdrawn as long as North Vietnamese forces remain in South Vietnam.

In a major policy speech to a joint session of South Vietnam's National Assembly and Senate, Thieu also said he thought that allied forces should remain in Vietnam as long as aggression threatens Southeast Asia.

As Thieu spoke in Saigon, another 1,700 U.S. Marines from the 3rd Division boarded a troopship in Da Nang to sail for the United States, part of the 35,000 American troops being withdrawn before Dec. 15. Their departure leaves 484,000 American troops in Vietnam.

"We, the Vietnamese people, are determined to replace the bulk of the U.S. fighting units in 1970," the president said in the official English translation of his speech.

"The most important thing is that the Free World and, first of all, the U.S. ally, should not let Vietnam fall into the Communists' hands . . ."

# Morale Now Prime Resignation Factor

WASHINGTON (AP) — An Army officer headed for a second tour as a battalion commander in Vietnam asked bitterly, "Why should I send men out to be killed?"

This veteran soldier spoke of disallusionment, of pointlessness to a war he sees as going nowhere.

"If we were trying to win, it would be different," he said. "But we're just hanging on."

This infantryman's frustrations and doubts were echoed by other military professionals, all in private conversations. None would be quoted by name.

An admiral whose job gives him a wide-angle view of the military establishment said morale has overtaken money as the No. 1 problem in retaining younger officers.

The erosion of morale seems to be a compound of factors—a war that is essentially a holding action, repeated separations from families and resulting marital turbulence, the surge of antimilitary sentiment in Congress and the country.

The depths of this erosion cannot be measured, but it may be significant that officer resignations have been rising.

Air Force resignations were up nearly 50 per cent in fiscal 1969 over fiscal 1968. In the Army, officer resignations jumped about 14 per cent. The climb was smaller in the Marine Corps and Navy figures showed level, but the Navy is worrying about losing aviators and submariners.

"Many of my contemporaries with 15 and 16 years of service are packing it in," reported one decorated Army lieutenant colonel.

"Pride of profession has kept them going, but that pride is taking a terrible battering these days.

The services cannot afford a serious drain of younger officers particularly those who have gained experience and seasoning in the field and on staffs.

The problem is growing, too, so far as attracting junior officers is concerned, with a general forecast that the antimilitary climate will affect college ROTC noticeably this year.

He recalled how, on a recent tour of ROTC units, one cadet told him: "General, you don't know how rough it is to wear a uniform on campus."

Gen. Leonard F. Chapman Jr., commandant of the Marine Corps, recently voiced the resentment which is evident throughout the military at being tagged "hawks."

# Scott Sees A Possible Break In Peace Search

WASHINGTON (AP) — President Richard M. Nixon's chief spokesman in the Senate, Republican Leader Hugh Scott, has indicated a breakthrough may be in the offing in the search for peace in Vietnam.

Although he provided no details, Scott answered "yes, it is possible" when asked yesterday if the both sides might be approaching a de facto cease fire.

The Pennsylvanian gave the same answer when asked if Nixon "might be on the verge of something right now."

"I cannot tell you where there will be solid news, but there are some things happening," Scott said.

He was interviewed on the CBS radio-television program "Face the Nation."

But in a separate interview, Vice President Spiro T. Agnew said he knew of nothing that was about to be revealed by the Nixon administration on the Vietnam situation. He also backed up Nixon's refusal to be swayed by antiwar protests.

The President "cannot respond to the exhortation if he is convinced that that exhortation is based on illogics, simply because there are large numbers of people, because large numbers of people in a country of 200 million are still a small percentage of the citizens," he said.

Agnew said the United States has made many unsuccessful efforts to bring about peace.

"I can't point to anything specific," Agnew said. "I can only say the President is moving in all ways possible to reach an amicable solution to this terrible conflict."

He was interviewed on ABC's program "Issues and Answers."

Agnew's and Scott's comments came as Congress appeared to be preparing for increased debate on Vietnam policy.

Chief protagonist for stepping up the public debate is Sen. J. W. Fulbright, D-Ark., whose Foreign Relations Committee has scheduled five days of hearings on a bill to get all U.S. troops out of Vietnam by Dec. 1, 1970.

Scott has called for a moratorium on criticism about administration Vietnam policy.

If war opponents "could be quiet for about 60 days, the President may well have some things to show the American people," Scott said.

## Church Gets $2,400 For Commune

The Sausalito Presbyterian Church has received a limited $2,400 grant to initiate an experiment in communal living by young "street people," Terry Henry, the church's night minister, said today.

Henry said, however, that the church so far has been unable to find a house suitable for the project, which is an outgrowth of a project started by the church last spring to help the "street people." (Details of the program were described in a church page feature of Independent-Journal on Sept. 27.)

The commune — or halfway house — would be a home for a small cadre of regulars and also is intended to serve as an emergency crash pad for transients who need a temporary place to stay.

The 14 or 15 youths who will form the core of the commune — many of who lived in the church during the summer — stayed at the San Francicso Theological Seminary in San Anselmo last week. Henry is a student at the seminary. Seminary classes started today, however, and "the people are back on the street," Henry said.

The Sausalito church has received a $1,200 grant from the church's synod strategy board and another $1,200 from its board of national missions which will permit the experiment to run through at least the middle of December. The church had asked for $12,600 to put the experiment on a year-round basis.

Henry said the church is looking for a four or five bedroom house with two baths and can pay up to $400 monthly in rent. To get the experiment launched, Henry said, the church is willing to rent a house on a monthly basis while he looks for a house for a longer term.

## Session Is Set On Finances

A preliminary report on the finances of the Fairfax School District will be made by a special citizens committee at a meeting of the district board at 7:45 p.m. tomorrow in the district office.

The board will also discuss a reading specialist program, hear a report from trustee Jane S. Durr on a meeting last Thursday of women trustees in the Tamalpais High School district and receive an enrollment report.

## Slide Repairs To Be Studied

Bids on repairing the slide on Forrest Avenue will be discussed by the Fairfax City Council at an adjourned meeting at 8 p.m. today in the Fairfax Women's Clubhouse.

The city received three bids Thursday on removing the slide and repairing the street, the lowest of bids, $77,200 from Maggiora and Ghilotti of Corte Madera, $30,000 more than the engineer's estimate.

Although a portion of the slide lies in San Anselmo, that city has not yet offered to pay any portion of the cost of the slide removal.

Other items to come before the council include: bids for cleaning lots 90 and 96 on Forrest Avenue, an agreement for street lights on Bolinas Avenue, and the annual pickup service for debris Oct. 27 through 31.

## Applications For Job Open

Persons interested in the job of community relations worker for the Marin County Department of Public Social Services must file applications by Oct. 24. An examination for the position will be given Nov. 15.

Job requirements include a college degree or equivalent, plus one year of experience, professional or voluntary, in dealing with the problems of low-income neighborhoods. Additional experience may be substituted for college training. Monthly salary range is $849 to $1,033.

Full information and application forms can be obtained from Merit System Examining Agency, 1217 H Street, Sacramento, or the Marin County personnel or social services departments.

## Marin City Election Tomorrow

Six Marin City residents have filed for the five seats on the Marin City Council to be elected in day-long balloting tomorrow at the Economic Opportunity Council office in the Manzanita Center.

Candidates for the nine-member council, to be elected at large, are Ronald Foster, Terrie Harris, Ruth Hodges, Royce McLemore, C. J. Williams and Peggy Ann Bullock.

Foster has been on the council for a year and Miss Harris, Mrs. Hodges and Williams have served for five weeks. The latter three were seated on the council on Aug. 29 when four absent members were removed from the panel for missing three consecutive meetings.

Mrs. McLemore has not served on the council.

The primary concern of the council now is the use of a $50,000 development grant from the federal department of housing and urban development. The council has hired a community coordinator who is expected to raise funds for future development of the city.

The polls for the council election will be open from 10 a.m. to 7 p.m.

## Discussion Set On Architect

Hiring of a landscape architect to draw up plans and specifications for city park renovation will be discussed by the Fairfax Park and Recreation Commission at 8 p.m. tomorrow at the Women's Club.

The city council on Sept. 8 gave the commission permission to hire Ribera and Sue of Berkeley to draw the plans at a cost of $1,100, according to commissioner Eleanora Edgar.

The commission will also discuss naming a youth of at least 16 to the group, and hear a report from a committee seeking a new recreation director.

## Hub Trustees Set Transit Discussion

Pupil transportation will be discussed at tomorrow's meeting of the San Anselmo School District board.

The 7:30 p.m. meeting will be held in the multipurpose room of Isabel Cook School, 1000 Sir Francis Drake Boulevard.

**JACKIE FLEES** — Mrs. Jacqueline Onassis in scarf, white sweater and mini-skirt breezes past a New York Daily News photographer after she flipped him judo style outside a New York film house where she had been attending a screening of the Swedish film, "I Am Curious (Yellow)." (AP Wirephoto)

# Jackie Onassis Uses Judo On Photographer Outside Theater

NEW YORK (UPI)—Jacqueline Onassis, irked when news photographers tried to snap her picture at the sexually-explicit Swedish film "I Am Curious (Yellow), stomped out of the theater yesterday and flipped a lensman over her thigh to the ground in a neat judo maneuver.

The photographer, Mel Finkelstein of the New York Daily News, landed on his knees after being tossed by the slim, former first lady, but managed to snap a picture of her walking away.

"That girl can handle herself," he said.

The incident was the former Mrs. John F. Kennedy's second scrape with photographers within a few days.

Last week, Ron Galella, a freelancer who spotted Mrs. Onassis and her son, John F. Kennedy Jr., bicycling around Central Park, was arrested for "harassment" on the complaint of one of her security men.

Galella claimed it was he who was harassed—roughed up by two private guards—but he got the pictures. His case now awaits a court hearing.

Finklestein and other photographers arrived at the Cinema Rendezvous yesterday soon after Mrs. Onassis and her husband Aristottle arrived in separate cars at 4:15 p.m. The newsmen had been tipped about the famous couple's presence by the theater manager, who declined to give his name.

When Mrs. Onassis left her seat during the controversial movie to go to the lounge, she noticed the photographers waiting in the lobby. She asked the manager to make them leave and, as Finkelstein said, "We were already leaving. We decided we would work at a discreet distance."

But, Finkelstein said, Mrs. Onassis followed them out of the lobby. Walking six feet out of her way, he said, she made for him and hit him with what he called the "judo trick."

"She grabbed my right wrist, put her other hand on my left elbow, put out her left leg, and flipped me over her thigh." Mrs. Onassis who wore a tight, short skirt, a form-fitting sweater and a kerchief that covered most of her face, left the theater immediately. Her husband, the Greek shipping magnate, stayed for the rest of the film, whose explicit sex scenes have led to its confiscation in some areas.

# Prison Hunger Strike An 'Off, On' Thing

San Quentin Prison's "off and on" hunger strike by black inmates continued today but prison officials are convinced "the majority are at least doing a little nibbling."

Associate Warden James W. L. Park reported a note was found which had apparently circulated among striking prisoners to urge them to "eat your peanut butter sandwiches and fake on the pig. Please don't let the pigs see you eating."

Park said 62 sent back breakfasts this morning. Yesterday, 63 refused breakfast; 28 lunch, and 57 dinner.

The hunger strike, in the prison's disciplinary section, was organized Wednesday by a group calling itself "Panther Power to the Vanguard."

It was called to reinforce 10 demands submitted by the inmates, ranging from release of the 88 blacks in the disciplinary unit to hiring black doctors, nurses and a black warden. Inmates also asked for black parole board members.

Park noted the prison had been recruiting minorities a long time before the demand by the strikers.

## Man, 22, Talked Out Of Jumping

SAN FRANCISCO (UPI)—Two employees talked a 22-year-old San Jose man out of leaping off the Golden Gate Bridge Saturday night.

John Reinhard and Mike Rubke said they were driving along the bridge at 10:46 in their tow truck when they saw the man climb over the rail just north of the north tower. They ran to him and talked him into climbing back.

The man, identified as David R. Pierce, was taken to San Francisco General Hospital for observation. He said he had been having marital difficulties.

## Judge John Bussey, 65, Dies Of Cancer

SAN FRANCISCO (AP) — Judge John Wesley Bussey, the first Negro to serve on the municipal court and superior court benches here, died yesterday from cancer. He was 65.

Born on a farm near Columbus, Ga., he was a graduate of the University of California and took his law degree from Harvard University.

## 240 Pigeons In Final Race For Young Birds

About 240 Marin racing pigeons again proved yesterday that they can make better time through the Redwood Empire than a motorist.

The event was the close of the young bird season by the North Road Invitational Pigeon Club of Marin, with about 80 birds entered by Marin owners in each of three races from Oregon to the owners' homes in Marin.

The first race, from Klamath Falls, a distance of 300 miles, was won by Eugene Wester of Fairfax, with a blue check cock at a speed of 45 miles an hour.

The second race, also from Klamath Falls, was won by Edward Abreu of San Rafael, with a blue hen at a speed of 35 miles an hour.

The third race, from Junction Station, a distance of 350 miles, also was won by a bird belonging to Wester, at a speed of 39 miles an hour.

## Four Wheels Stolen

# 1941 Fire Pumper To Go On Auction Block

Anybody want a fire truck that can pump 200 gallons per minute? Or powerful sedans with California Highway Patrol specifications?

These and other vehicles will go on the county auction block at the Civic Center in Santa Venetia Saturday at 10 a.m.

The county will auction off 45 vehicles in the lower parking lost west of the administration building. Doug Edelen, county purchasing officer, announced that the vehicles are surpluses from the county garage, county fire department, North Marin Water District and the cities of Tiburon and San Anselmo.

Auctioneer will be William Douglass, a professional auto auctioneer from Fresno, who will get 5 per cent of the gross as his fee.

Edelen said that successful bidders must deposit 25 per cent of the price in either cash or cashier's check on the day of the auction, and pick up the item and pay the balance by 5 p.m. Oct. 14.

Most of the vehicles are sedans, including seven sheriff's cars with patrol specifications. The fire pumper is a 1941 International truck, declared a surplus by the county fire department. Others include a half-ton pickup truck and a station wagon.

## Trustees Accused Of 'Jiving' Not Giving

Due to a typographical error, the Independent-Journal Friday quoted him as saying "giving."

PROTEST LEADERS — Sam Brown (left) and David Hawk, co-ordinators of the Vietnam Moratorium Committee, stand in the center of the Washington headquarters as they pose for this fisheye lens view of the office at work. The first of six moratorium days is Oct. 15. (AP Wirephoto)

# Antiwar Youth Map Plans

Continued from page 1

mittee feels sure now of well-organized support on some 600 campuses in every state of the union.

But now the movement has spread beyond campuses. Committees of lawyers, doctors, clergymen, businessmen and housewives are springing up, says Hawk, to spread the word throughout the citizenry at large.

The committee is urging businessmen to offer employees the day off, and to shut down if possible—a "moratorium on business-as-usual to allow concerned citizens to spend that day participating in antiwar programs in their local community."

Besides bringing pressure to bear on Nixon for a troop withdrawal, Hawk said, a key objective of Oct. 15 is to prepare for "an enlarged and lengthened moratorium for November."

The committee started out with minimal funds from Kennedy and McCarthy supporters. Now it is receiving as many as 1,000 envelopes a day—most bearing gifts. The money pays for buttons, bumper stickers, office rent, painting, and minimum subsistence salaries for the dozen or so regular moratorium staff members.

So busy is the office that nobody has stopped to count the money, or the volunteers who wander in daily to help with the mail and telephone calls.

"The volunteers began pouring in a week or so ago," said Peggy Shaker, the 21-year-old director of volunteer work. She is a slim, olive-skinned worker from Niles, Ohio, who was graduated from college in June and spent the summer looking in vain for a job with a liberal in Congress.

"So many of these kids worked for Bobby Kennedy and McCarthy," she said. "And you know that for many of them this is the last real hope to grab on to. We just bring them in and sit them down and they do the really crappy work and never complain."

The atmosphere in the overheated rooms is hectic and serious. But the mood is cheerful and friendly.

Hawk, like his fellow coordinator Sam Brown, the Harvard theology dropout who ran the McCarthy youth drive last year, and other staff members, patiently endures repeated visits and identical questions from newsmen, along with the hot lights of television film crews and the TV equipment that clutters the offices.

A freckle-faced girl walks shyly in, her skirt at knee length, her hair in a conservative bob.

"My name is Edna," she told Peggy Shaker.

"Do you want to work now or sign up for later?" Miss Shaker asked.

"I go to D.C. Teachers and we're not organized for the moratorium and I want to organize it."

"Okay. In there. If you can't find anyone to help you come back here."

A uniformed man enters, pushing a dolly laden with heavy cartons.

"The decals!" shouts a decal person.

"The bumper stickers!" yells a bumper sticker person.

"The buttons!" exults the girl recently bereft of buttons.

They are leaflets, and everyone is just as glad.

On Oct. 15, the plan is to hand out leaflets at supermarkets connecting the war and the high price of groceries. Workers leaving their plants will get leaflets tying the war to the income tax surcharge and the inflation that is diminishing the value of their paychecks.

"We're beginning to get a pattern of our activity schedules for that day," Hawk explains. "It's up to the local people to set it up, although we suggest kinds of activities and things like wearing black armbands."

## Bruce's Plan Will Get A Public Airing

Marin County Administrator Alan Bruce's recommendation that various county commissions and committees be merged or eliminated will receive a public airing before the board of supervisors tomorrow at 10:30 a.m.

The supervisors' all-day session will start at 9 a.m. on the third floor of the Civic Center.

Other items on the supervisors' agenda include a cooperative city-county approach to the courthouse square problem, a clarification of responsibility in the treatment of victims of attack, and a wrangle over payment of salary to Dr. Clyde G. Miller, suspended Community Mental Health Services director, for the time he spent at conferences in England last August.

The afternoon agenda includes a request from film companies for renewal of permission to take commercial films on county roads, and the Novato Chamber of Commerce request for a freeway exchange at the entrance to Gnoss Field.

### Window Vandalism

Vandals fired three air rifle pellets through a plate glass window in the home of John T. Harris, of 1053 Las Gallinas Avenue, Terra Linda, Marin County sheriff's deputies reported yesterday. Value of the 4-foot by 8-foot window was undetermined.

## Reagan On Invited List As Speaker

I-J Special Report

SAN FRANCISCO — The student body government at San Francisco State College, in an effort to draw controversial speakers who have consistently shied away from the angry campus, has invited Gov. Ronald Reagan, San Francisco Mayor Joseph Alioto, State Supt. of Public Instruction Dr. Max Rafferty, and other public figures to give talks on campus.

Associated Students president Harry Lehman of Novato said he is also trying to obtain better facilities for the speakers in the "Controversy 69" series.

"It just isn't right to invite someone to appear and then present him to an audience standing on wet grass as was the case with the Speakers Platform series in the past," Lehman explainted.

William Harkness, new dean of student activities, and Fenton McKenna, dean of the School of Creative Arts, will be working with Lehman to secure indoor facilities for the visiting speakers.

Invitations have also been sent to Sen. Alan Cranston, Assemblyman Jesse Unruh, grape strike leader Caesar Chavez, and Lt. Gov. Ed Reinecke. So far, according to Lehman, the only note of acceptance has come from Reinecke.

The Panama Canal was opened in 1914.

## Robbers Busy At Movies, Market

The Marin Motor Movies and Stop and Go Market were held up by armed robbers Friday and Saturday, San Rafael police reported today.

Stop and Go employee Jerry C. Orth reported that two youths about 18-years-old, one with bushy black hair and a mustache and the other with long blond hair, entered the market at 2222 Fourth Street about 8:20 p.m. Friday and asked for cigarettes.

When Orth opened the cash register the black-haired one drew a revolver with a shaking hand and demanded the money. About $275 was taken and the pair fled the store.

Claudia K. Moissant, ticket seller at the drive-in movie at 25 Bellam Boulevard, reported that she was in the ticket booth at 8:15 p.m. Saturday when a red-haired man in his late thirties came into her booth with a revolver and paper bag in his hand and demanded the cash. She gave him about $130, and he ran from the booth and fled in a beige foreign station wagon with a luggage rack on the roof.

She told police that the car had been parked on Bellam Road near the movie entrance for about an hour while the gunman apparently watched the booth.

### Nudes Return To Stinson Once Again

The pleasant weekend weather brought the nudes to Stinson Beach again yesterday.

Sheila L. Royle, 22, of 278 Linden Lane, Mill Valley, and Marilyn J. Howell, 20, of Emeryville, were booked into Marin County Jail last night for investigation of being nude in a state park.

The two young women were arrested on the beach at 5:40 p.m. by park rangers. Each was released on $310 bail to appear in Municipal Court Wednesday at 2 p.m.

## Priorities On Highway Work To Be Studied

Prioirites for highway work in Marin County will be the subject of two meetings scheduled in Marin County.

The first will be a meeting of the highway committee of the Marin County Chamber of Commerce and Visitors Bureau scheduled for 4 p.m. Oct. 15 at the Ross Valley Savings and Loan Association Community Room in San Anselmo, according to manager Carroll A. Snyker.

Then the state Chamber of Commerce will hold its Marin County meeting on Oct. 27, the hour and place to be announced later.

Highway projects to be discussed include: Highway 101 at Terra Linda; at Ignacio Boulevard and from Novato city limits north to the Sonoma County line; Route 251 from Route 17 to Highway 101; Route 17 from Highway 101 to Point Reyes Station; Route 1 from Highway 101 to Point Reyes Station, and Route 37 from Novato to Route 17 near Nicasio.

## Playing Field Pact On Agenda

The Novato Unified School District board will award a contract for the construction of the playing field at San Jose Junior High School when it meets at 8 p.m. today in the school administration building.

The work is to be done under a grant from the federal government to aid construction in school districts which have a high concentration of students who are children of servicemen. The $58,312 grant for the junior high school and a $168,500 grant for the completion of the shop at San Marin High School, were made last March.

The board will also accept a gift of $1,000 from the San Ramon Parent-Faculty Club, appoint members to a multiethnic study committee and receive a report on library development at San Marin High.

## Boy, 6, Runs Into Auto; Breaks A Leg

A 6-year-old boy was hospitalized and three other people injured in three separate accidents in Novato yesterday, according to police.

Scott Baird, son of Army Capt. and Mr. William W. Baird of 521 Stone Drive, Novato, was treated at Hamilton Air Force Base Hospital for a broken left leg, and transferred to Letterman General Hospital in San Francisco where he was reported in good condition today.

The boy ran into the side of a Marin County sheriff's car driven by Deputy Sheriff James J. Hickey, 32, of San Francisco on Stone Drive 500 feet west of Terry Circle at 5:35 p.m., according to police.

A/1C Patrick A. Morgan, 20, and A/1C Robert J. Lipowski, 21, both of the barracks at Hamilton, were treated at the base hospital for multiple cuts and bruises on their faces arms, legs and bodies. Morgan was driving a motorcycle with Lipowski as a passenger when they overturned on Topaz Drive and Circle Lane in Habia at 7 p.m. yesterday, police reported.

Richard A. Hanes, 23, of 737 Going Lane, Novato, was to see his own doctor for broken teeth after his car hit the rear end of a stopped car at 7:50 p.m. yesterday on Highway 101 south of Diablo Avenue, police reported. The driver of the other car, Fred A. Bartsoff, 50, of 44 Raposa Vista, was unhurt, according to police.

### Spray Pool Contract On Novato Agenda

Progress on getting a contract for the spray pool at Pioneer Memorial Park will be discussed by the Novato Parks and Recreation Advisory Commission when it meets at 8 p.m. today in the Novato Community House.

The commission will also review its park priorities and hear the director's monthly report.

# Dr. Harry Emerson Fosdick, Liberal Theologian, Succumbs

NEW YORK (AP)—Dr. Harry Emerson Fosdick, whose liberal voice was a pillar of American Protestantism for a half-century, is dead at 91.

Dr. Fosdick died yesterday in Lawrence Hospital in Bronxville, where he was taken two weeks ago with a heart condition.

As a preacher in the pulpit and a teacher at Union Theological Seminary, Dr. Fosdick was a leading spokesman for modernism and a target of fundamentalists, who often called him a heretic.

Dr. Fosdick retired in 1946 as pastor of the interdenominational Riverside church, but wrote and spoke publicly well into his 80s.

Millions listened to his "National Vespers" radio program each Sunday afternoon from 1927 to 1946 and read such books as "The Modern Use of the Bible" and "The Meaning of Prayer."

His challenge to the fundamentalists made Dr. Fosdick a public figure.

In a 1922 sermon, "Shall the Fundamentalists Win?" he challenged fundamentalists for trying "to drive out of the evangelical churches men and women of liberal opinions."

"Nothing in all the world is so much worth thinking of as God, Christ, the Bible, sin and salvation, the divine purposes of humankind, life everlasting. But you cannot challenge the dedicated thinking of this generation to those sublime themes upon any such terms as are laid down by an intolerant church," Dr. Fosdick said.

DR. HARRY EMERSON FOSDICK
Voice silenced at 91

His sermon also questioned the doctrine of virgin birth, the inspiration of the Scriptures, the atonement of Jesus and the second coming of Christ.

Fundamentalism's champion, William Jennings Bryan, replied that Fosdick "believes that eyes came from light playing on a body and that ears came from the beating on the body of sound waves. He can believe these things and yet he cannot believe in miracles."

Dr. Fosdick, an ordained Baptist minister, was preaching then at New York's First Presbyterian Church. The General Assembly of the New York Presbytery asked him to conform to doctrine. He refused and offered his resignation but his congregation refused to accept it.

A year later the assembly asked him to become a Presbyterian minister and he stepped down from the pulpit, moving to Park Avenue Baptist Church.

He then became founding pastor of Riverside church, where John D. Rockefeller Jr. donated the tower and the 72-bell carillon, overlooking the Hudson River near Columbia University.

Riverside became a home for liberal theology. When Dr. Fosdick retired at age 68, he said in his farewell sermon, "A more harmonious, united, fraternal fellowship I never saw, with no one ever thinking from which of the various sectarianisms anybody has come."

Despite his large following, Dr. Fosdick considered personal counseling the most effective form of preaching.

"My preaching at its best has itself beeen personal counseling on a group scale," he once said. Another time, he said, "To be a Christian still means an intimate personal, dedicated response to his ancient invitation, 'Follow me.'"

Dr. Fosdick believed in social activism and was a pacifist, opposing U.S. entry into World War II.

He established a community center near Morningside Heights after leaving Riverside Church.

Born in Buffalo, N.Y., on May 24, 1878, Fosdick attended Colgate University and Union Theological Seminary. He was ordained in 1903 and married Florence Allen Whitney a year later. She died in 1964 at the age of 84.

He is survived by two daughters, Mrs. Eleanor Fosdick Downs, a Bronxville doctor, and Dorothy Fosdick of Washington; a brother, Raymond B. Fosdick, former president of the Rockefeller Foundation; a half-sister, Mrs. Ruth Fosdick Jones of Portland, Maine; two grand daughters, and a great-granddaughter.

The family said a private service would be held at their home this week, with a memorial service later at Riverside Church.

## Hayakawa Hits Faculty Power Role

PITTSBURGH (UPI)—Dr. S. I. Hayakawa, president of San Francisco State College, lashed out yesterday at "alienated intellectuals" on college faculties who derive "a sense of power from egging on student rebels."

Hayakawa of Mill Valley said there were "a significant number" of college faculty members at San Francisco State who sought to gain power by demanding a black studies program at the school.

"The demand for black studies was partly sincere," said Hayakawa, "but it was partly a power play on the part of radical militants—both white and black—to gain control.

"The goal of black studies should be first to call scholarly attention to the history of 22 million people which has thus far been ignored. But militant blacks are all too likely to use black studies not for scholarly inquiry, but for propagandistic purposes—to promote one or another point of view."

Hayakawa said his administration had successfully combated the problem and the black studies department at San Francisco State is now "just an orderly part of the academic program."

Dr. Hayakawa was in Pittsburgh to speak at today's United Fund luncheon.

## Graham Ends Anaheim Crusade

ANAHEIM (UPI)—Evangelist Billy Graham yesterday said America was so close to a national judgment that "it is more patriotic to come to God at this moment than anything I can think of."

Speaking at the final meeting of his 10-day Southern California crusade, Graham said "the only thing holding back God's judgment of America are those that believe in Him.

"Many people are counting on the fact that God, if there is a God, is not the God revealed in the Bible. But it makes no difference how our concepts may change. God hasn't changed. And God is not only a God of love, he is also a God of justice."

# Double Agent's Widow Gets $6,472 Gratuity

SAIGON (AP) — The U.S. government has paid $6,472 to the wife of the reported Vietnamese double agent in the Green Beret murder case, but the U.S. Command described the payment as a "missing person gratuity."

A spokesman said the woman, Phan Kim Lien, accepted the payment Saturday. He added: "The amount of the settlement was mutually agreed upon and represents what is determined to be adequate compensation."

Asked how the amount was arrived at, he said the number of children in the family and other factors were taken into consideration.

The spokesman said the wo an's husband, Thai Khan Chuyen, "has been missing since June 20 while on duty with the U.S. Special Forces, Detachment B41, Moc Hoa, Republic of Vietnam."

"There is no evidence that he is dead," the spokesman said. "He is considered to be missing."

After the U.S. Command announced the murder charges against the Green Berets, Chuyen's wife filed a claim with the U.S. Embassy Aug. 23 accusing the Green Berets of killing her husband and asking for full information about the case. When the charges were dropped, she made a tearful visit to the embassy to protest.

Reports said her husband had been exposed as a double agent and was slain June 20 near the Special Forces headquarters at Nha Trang. The body reportedly was put into a weighted bag and dumped into the South China Sea. So far as is known, the body has not been recovered.

Saigon newspapers are still devoting considerable space to the story.

Yesterday, the papers reported two more cases of missing men in which the families charged that American forces were involved, but U.S. information officers said they knew nothing about either case.

## Pope Opens Meeting On Crucial Dialogue

VATICAN CITY (AP) — Pope Paul VI convoked Roman Catholic thinkers from around the world today for the start of a crucial period of debate within the troubled church.

The first meeting of a commission of 30 leading theologians was the opening event in what promises to be the most lively series of encounters here since the end of the Second Vatican Ecumenical Council four years ago.

On Saturday the Pope convenes his second world synod of bishops, which will run for about two weeks. Dissident priests from eight European countries will hold an unauthorized parallel meeting to discuss key issues including priestly celibacy.

A central issue in all three meetings will be the authority the Pope himself wields over the world's half-billion Catholics.

This authority has been challenged repeatedly since the pontiff, who turned 72 last month, rejected artificial means of birth control in the controversial encyclical "Humanae Vitae"—"Of Human Life"—last year.

The theologians' commission is an outgrowth of the first world bishops' synod in 1967. That historic synod recommended a permanent body to advise the Pope on matters of doctrine and theology in the light of new research.

The theologians selected by the Pope last April as representatives of many schools of thought, will gather in a church building on the fringe of Rome for two days of secret discussions.

## San Pedro Road Ramps To Open

Traffic flow should improve tomorrow on Highway 101 north of San Rafael when two new off-ramps at San Pedro Road are opened permanently to traffic.

According to the California Division of Highways, the ramps will eliminate some freeway congestion and improve access to both directions of San Pedro Road.

Although pavement on the ramps has been completed for some time, permanent opening was delayed until signs, lights and other safety devices were installed. During the recent Renaissance Pleasure Faire, they were open during daylight hours.

## Sen. Long Is For Keeping Oil Allowance

WASHINGTON (AP) — Sen. Russell B. Long predicts his Senate Finance Committee will reject efforts to cut the oil depletion allowance—a controversial tax provision which has enhanced Long's income from oil royalties.

The finance committee headed by the Louisiana Democrat, now is considering a House-passed tax reform bill which reduces the depletion allowance from 27.5 per cent to 20 per cent.

"I am not going to vote to reduce it, and simply a matter of counting noses would cause me to think that the committee is not going to . . ." Long said in an interview televised Sunday.

A new element was injected into the tax reform debate by disclosure Long has collected in the last five-and-one-half years more than $300,000 in oil royalties which have been free of federal income taxes because of the present 27.5 per cent depletion allowance.

Louisiana Mineral Board records show Long has gotten $1,196,915 in royalties on four state leases since January 1964. Under present tax law, 27.5 per cent of gross income from oil, gas and other minerals is exempt from federal income taxes.

Applying the 27.5 per cent figure to Long's known royalty payments means the senator had income of at least $329,152 which was sheltered from the bite of federal income taxes.

Long, who has been identified with the oil industry since he came to the Senate two decades ago, said in an Associated Press interview that "Most of my income is from oil and gas."

"I don't regard it as any conflict of interest," he said. "A long time ago I became convinced that if you have financial interests completely parallel to your state, then you have no problem.

"My state produces more oil and gas per acre than any other state in the Union. If I didn't represent the oil and gas industry, I wouldn't represent the state of Louisiana."

Vice President Spiro T. Agnew, appearing yesterday on ABC's "Issues and Answers," was asked about Long's tax-free oil royalties. He responded:

"I think first you have got to look at the time span over which this amount of money has been received by the senator and I think, if I recall, it has been a period of many years. This is not $300,000 in one year or anything of that sort.

"Secondly, I am very sympathetic to the Senator's defense when he says that his state is dependent to a great extent upon the life and the vitality of the oil industry, so that in representing the oil industry he is not representing himself, he is representing his state."

Agnew added, in answer to another question, that he doesn't view the depletion allowance as "a tax loophole to the extent many do . . ."

The depletion allowance came up, too, when Long appeared on Metromedia's "Evans-Novak Report," taped last week for broadcast yesterday. There was this exchange:

Q. . . .Do you favor reduction to 20 per cent?

A. I have said every time since I was reelected in 1950 that I was not going to vote to reduce the depletion allowance . . . and I would be a renegade and I would be untrue to the commitments I made to the people who voted for me to be their senator if I did not keep that.

# In this age of planned obsolescence, is there a place for a car so unconventional that it may well last for decades?

# Mercedes-Benz thinks so.

*At $4,780*, the 220 Diesel may be the world's greatest economy car. Read why.*

Mercedes-Benz lavishes such attention on *engineering* that some people say Mercedes-Benz motor cars are too sophisticated.

And, by conventional standards, they *are*.

But Mercedes-Benz engineers step to the music of a different drummer. They insist on building margins of performance and safety into their machines to meet the *unexpected*, as well as the expected. And they stubbornly refuse to design anything just good enough to "get by" for a time—and no better.

That, in essence, is what distinguishes a Mercedes-Benz, what sets it apart from the crowd of conventional cars, bred of conventional standards.

### An amazing maverick

The automobile at right is a shining example. Mercedes-Benz sells 15 remarkable gasoline-powered models in the U.S.—plus *this* one, perhaps the most remarkable of all.

It is the legendary *Diesel*.

This maverick is so defiantly unconventional that it can probably cut your fuel bills in half, eliminate many of your usual repair bills—and is likely to be serving you faithfully when most of today's sleek new dreamboats have been chopped up for scrap.

### Not for everyone

To appreciate the Diesel, you first have to understand the idea behind it—and be able to adjust to its three foibles. It is not for every man.

The Diesel is built for people who want an *economy* car, but who decline to venture onto the highways in a featherweight, cramped machine. If you are willing to pay for the safety and comfort of a big, 3,000-pound sedan, the Diesel will reward you with fuel costs that match the flimsiest little half-pint on the road.

The three Diesel foibles:

First, you cannot hop into this car and roar off in a cloud of dust. The Diesel starts like any other car when its motor is warm. But, in the morning, you must be patient for about 30 seconds while the motor preheats for firing. (A minor nuisance which turns to *advantage* in winter, enabling you to get underway while others may still be cursing and shivering.)

Second, you must abandon any thought of fireball acceleration. The Diesel will cruise indefinitely at any posted speed limit in America. (Once, it even *won* the 8,728-mile African Rally!) But, as a dragster, it's a bust.

Third, though the Diesel sounds exactly like an ordinary car when it's moving, you'll detect a vestigial "pocketa" at idle—a slightly bizarre note in a car otherwise so grand.

If you can learn to shrug off an occasional jest about one of these eccentricities, you'll have the last laugh on everybody at the end of each month—year after year.

### Cuts fuel bills in half

The Diesel works its incredible fuel economy in two ways.

To begin with, of course, it uses lowly diesel fuel. (In a pinch, it will run on soya-bean oil.) The price of diesel fuel varies from state to state. In almost all states, it is lower than *regular* gasoline. In some states it costs only *half* as much.

The Diesel also *sips* its fuel *at a miserly rate*. In fact, the engine burns every drop so efficiently that exhaust is virtually smoke-free. A surprise to many.

Now—if you've been resigned to getting 12, 15, 18 miles a gallon from standard sedans, brace yourself.

The new Mercedes-Benz 220 Diesel easily delivers over *twenty-five* miles to the gallon—and on trips, when you get full benefit of diesel fuel's price advantage over gasoline, you can average *30, 40, even 50 miles for the cost of a gallon of regular!*

### Many repair costs vanish

More good news. The diesel engine is such a gem of simplicity that it merely *dispenses* with many parts that normally end up costing you money. It has no spark plugs. No points. No condensers. Not even a carburetor to repair or replace.

### It goes and goes and goes

Best of all, this 4-cylinder diesel injection engine is designed to give you uncommonly *reliable* service—for years.

Not only are there relatively few parts to go amiss, but the parts that *are* present have been engineered to have characteristic Mercedes-Benz stamina. There's a rugged overhead camshaft and a *five*-bearing crankshaft. Twelve of the 16 piston rings are coated with expensive molybdenum—an exotic "space age" metal that won't melt below 4,712 degrees.

The ingenious engineers, seeing that valves wore unevenly, designed them to *rotate* slightly with each stroke, vastly prolonging their life.

Mercedes-Benz does not *warrant* the Diesel to last for 10 or 20 years. Any car's life depends on how hard it is driven and how carefully it is maintained. But a lifetime measured in decades is no pipe dream, either.

*Of the 700,000 Diesels it has built since 1936, Mercedes-Benz estimates that fully 80 percent are still humming along!*

### First, a Mercedes-Benz

The engine makes this Mercedes-Benz an economy car. But the real value of the Diesel lies not so much in the things that make it different from every other Mercedes-Benz as in the things that make it the *same*.

Like every Mercedes-Benz, the Diesel is *welded* into being, not bolted. After 50,000 miles or so, you may begin to wonder if it will *ever* rattle.

The body is dunked in primer, baked, spray-painted, hand-sanded, sprayed again, then *hand*-sprayed. Even the *insides* of the hubcaps are coated. Total paint and primer rust protection: 44 pounds.

Like every Mercedes-Benz, the Diesel bristles with sophisticated, ultra-performance features that are simply unavailable on domestic sedans. *All-independent* suspension. Taut, recirculating-ball-type steering that gives you the "feel" of the road. Massive, racing-type *disc* brakes on all four wheels.

*It steers, maneuvers and stops as if your life depended on it.*

This is one reason why *Car and Driver*, with a world of cars to choose from, concludes that the current Mercedes-Benz line "represents the present pinnacle in safe car engineering."

Many cars are designed to win admiration *for* their owners. Mercedes-Benz cars are designed to win admiration *from* their owners.

Quite a distinction.

# Dear John: I Need Two Vacations Each Year

John F. McInnis, chairman,
Marin County Board of Supervisors,
Civic Center,
San Rafael, Calif.

Dear John:

Will you please be so good as to let me know what job is available in county employ that I might be qualified to fill — but not fill very well?

I am asking this not because I am dissatisfied with my present job. But you see, John, I get tired.

My employers here at the Independent-Journal give me only four weeks vacation each year. It makes no difference how good a job I do; I still get four weeks off with pay. And if I do a bad enough job, I will get off permanently — but without pay.

**I UNDERSTAND** it is different with the county. If one has a job with the county and there are a lot of complaints about the way he does it, he can get more vacation.

None of us around here was aware of this until Dr. Clyde G. Miller showed the way. As I understand it, Dr. Miller had a month's paid vacation. He went to Europe. He overstayed the month, and put in a bill for eight days' additional paid leave. Mike Mitchell, that obstinate Greek that the people of Marin keep electing auditor-controller, refused to honor the claim, and Dr. Miller withdrew it.

**BUT THEN** Dr. Miller figured out the new way to get more paid vacation. He made enough people sore at him so there would be calls for his firing.

So, you people on the board of supervisors held a hearing and suspended Dr. Miller for a month — with pay. This makes two months paid vacation he gets this year, instead of the one month and eight days he would have got if it had not been for that tightfisted Mike Mitchell.

Now, here is what I have in mind, John, and I hope as an old friend you will help me with it:

**I'D LIKE** to have some county job for which I am only partially qualified. I figure that way I could be sure to louse things up enough so there would be complaints and some prominent citizens would ask that I be fired. Then I could get an extra month's vacation.

It wouldn't need to be one of your top paying jobs. We who work for private employers don't expect to start out at $18,000 or $20,000 a year like some of the people you hire at the Civic Center do. But the way salaries are there, surely you must have something around $15,000 or $16,000. (I'd take more if it is necessary under your personnel ordinance, of course.)

**THE ONLY THING** that worries me is this: Even if you gave me a job I didn't know too much about, I might get carried away with a lot of old-fashioned ideas of doing my best and fail to louse it up enough. And if that should happen, I wouldn't even be able to get away with an extra eight days vacation, with that Mitchell on the job.

I'm willing to take that risk, though. Two months vacation a year looks mighty good. And I've never found it too hard to make a few people sore.

Please let me know what's available, John. I'd like to get going on this so I could maybe go to Hawaii about January. OK?

Regards,
THE EDITOR.

## The Skunk And 'Hair'

We think perhaps the following account of what happened in our back yard this week might have some kind of moral. But we are not quite sure what it is, so we tell it like it was and leave the moralizing to our readers.

For almost a month we have been placing dishes of dog food out in our back garden under lights for the raccoons. Sometimes a skunk comes first. While he is a handsome little fellow, we try to discourage him, for the obvious reason.

But how does one discourage a skunk? It is a delicate job. Especially from an open window scarcely six feet away. We shake our fist, yell, bang the window frame and the skunk ignores us, except to raise its tail an ominous inch higher.

It just so happened that we had a cassette of the musical, "Hair," on our tape recorder. We pushed the play button and the voices of unrestrained, uninhibited youth burst forth.

The skunk stopped eating and turned and marched away in dignity, but double-quick. We wonder if it was trying to tell us something.

AFFAIRS OF STATE

## Case Of The Unemployed Actor And The Absent Labor Market

By HENRY C. MacARTHUR

SACRAMENTO (CNS) — A somewhat peculiar "precedent" decision was issued recently by the California Unemployment Insurance Appeals Board.

The board held that in order to be eligible for benefits, a claimant must show that although he is unemployed, that he is attached to a labor market where "there is a reasonable demand for his services."

**THE CASE** was that of an 8-year-old youngster in Hollywood, who in 1968 had only one day of work as a child actor in a television commercial.

Despite the fact that he worked only one day, for which he was paid $120, he received substantial payments for re-runs or re-use of films, which the law considers wages. Thus, the claimant was eligible, as far as earnings were concerned, to collect insurance.

However, the appeals board held that one day's employment in a year did not show that claimant was attached to any labor market where there was a "reasonable demand" for his services, and denied benefits to the young actor, pointing out that his age had nothing to do with the decision.

**ROBERT W. SIGG,** chairman of the appeals board, said that residual payment for past services constitutes wages, but such residual payments do not establish an attachment to the current labor market.

If the residual payments received by the claimant are considered wages, then the state collects taxes on them from the employer for unemployment insurance benefits, and from the claimant for disability benefits.

But, under the decision, the claimant cannot collect on the insurance he and his former employers have bought and paid for.

The board also said "availability for work cannot be measured entirely by willingness to work, although willingness is an indispensible factor in determining availability." All of which adds up to the board denying benefits to an individual who was able and available to work in a job he had been on previously and earned money performing, part of which went to the state to pay for insurance against unemployment.

## WHAT OUR READERS SAY

### No Threat To Child In Sale Of Beer

It was interesting to read the article in the Independent-Journal Sept. 23, "Ross Parents Rip Beer License Plan."

Jean's Kitchen, in Ross, a small eating place trying to participate in the free enterprise system is no doubt experiencing an economic struggle. Jean's Kitchen should be highly commended for the effort and desire to carry on a business with so many odds against her.

The question is not whether Jean's Kitchen secures a beer and wine license, but rather the reasons posed by parents and trustees in opposition to the request for a license. Parents state, to quote, ". . . that the schools proximity of the alcohol would be a detrimental influence on school youngsters." Just how does beer in Jean's Kitchen become detrimental? This is certainly a vague and broad statement. We wonder if the persons opposing and raising objections do shield their children from alcoholic beverages when these people consume alcoholic beverages in their own homes. Or, is the practice of drinking in the closet more protective? Are the same children shielded from watching crime, murders, and vice on TV and films? Actually, children with good, strong character building in the home need not be concerned with any so-called outside "detrimental" effect.

To my way of thinking, any one who has the courage and desire to operate a little business rather than to be dependent upon public assistance, certainly deserves a world of praise and the full cooperation of the community at large.

### San Rafael High Ranks Among Best

Recently I have had the displeasure of reading a number of headline criticisms of San Rafael High School, it's students and faculty. It is the responsibility of all news media to tell all sides to any story, especially a local paper such as the Independent-Journal. While criticisms, both on the editorial page and off, have been trumpeted, replies have either been buried or non-existent.

I feel that it is time for a reply. Although it is true that some students on our campus don't always act in an exemplary manner, a comment that can be made on all segments of society, it is also true that there are many student such as members of athletic squads, the debate team, service clubs, dramatic productions, special interest organizations, and others that are representing San Rafael High School in an outstanding manner.

The comment that stuents are not receiving a satisfactory education because of unqualified or otherwise deficient staff is false. I have had an opportunity to talk to student leaders and faculty members from throughout the country and consistently San Rafael's educational program and faculty level ranks among the best . . .

LEE HARRIS,
Student Body President SRHS

### Athletes Support Coach's Policy

In regard to your Thursday (Sept. 25) article about Coach Bob Troppmann resigning as athletic director of Redwood High School I would like to say that I don't think the superintendent of the Tamalpais High School District, Mr. Robert D. Torrey, was right in taking away the right of a coach being able to tell a player to get his hair cut.

I am a junior at Redwood High and play both baseball and basketball and I believe that most of the guys that play for Redwood on a team agree on this. I feel that an athletic team represents the school and I would want my school represented properly. Also, it would probably hurt the team morale if the team was divided because of this issue, besides if a boy really wants to play a sport bad enough he will sacrifice his "Joe Pepitone" or "Joe Namath" look for the team. If you take away this right from a coach, who knows, maybe soon the coach won't even be able to make up his own starting lineup.

I don't believe the rule should be made uniform for all three schools because I don't believe that there is such a serious problem at Redwood regarding this issue, but I'm not aware of the situation at the other two schools, Tamalpais and Drake High . . .

## REMEMBER WHEN?

### 10 YEARS AGO

**Oct. 6, 1949**

A $50,000 reconstruction project on Ridgecrest Boulevard on Mount Tamalpais, the old toll road, was completed.

County Clerk George Jones reported that voter registration in Marin for a special November election was 36,951.

### 20 YEARS AGO

**Oct. 6, 1959**

Mario Lanza, 38-year-old American tenor who played the role of Enrico Caruso in a screen biography, died at a hospital in Rome of a heart attack.

A 14-room hillside mansion in Bel Aire built in the Civil War era, former home of John Joseph Reed, heir to a huge rancho in Southern Marin, was demolished.

## TRY AND STOP ME

By BENNETT CERF

An indulgent father treated his 8-year-old son to his first lunch at a fashionable, expensive restaurant. The boy seemed particularly fascinated with the way the waiter filled up his glass as fast as he drank.

On the way home, the father asked if the boy had a good time. "The food was great, dad," conceded the boy, "but they sure serve you a lot of water in that joint! I had a mighty tough time keeping up with it."

The late Sam Rayburn, master politician, had this bit of advice for a young friend just elected for his first public office. "Keep enough balls in the air, my boy, and your constituents just won't notice the misses." Another time, he advised, "Be bold as hell — preferably on a rising tide."

## THE DRUMMONDS

### Democratic Senators Dynamiting Peace For Partisan Purposes

By ROSCOE and GEOFFREY DRUMMOND

WASHINGTON — The leaders of the Democratic Party are playing with political dynamite in trying to force President Nixon to withdraw U.S. troops from Vietnam so rapidly as to throw away all prospect of negotiating a peace.

They may be the ones who get blown out of the water. That's not important.

What is more important is that the United States of America would be hurt — grievously hurt — by this shortsighted, reckless, perilous undermining of what the President is doing to end the war by seeking a fair peace.

**NO ONE** is suggesting that those who want peace at any price, those who want to withdraw all American forces immediately, regardless of the consequences, should still their protests.

All the President and others who are earnestly seeking disengagement and a decent peace are asking is that for a reasonable period congressional critics should stop telling Hanoi that it doesn't need to negotiate, that all it has to do is to wait and they — the congressional critics — will see that the U.S. government accepts a no-peace policy.

**THE VIETNAMESE** war has never been a partisan issue, and attempting to bring it to an end with a fair peace is not a partisan issue.

But leaders of the Democratic Party are now trying to make it so. Sen. Fred R. Harris of Oklahoma, chairman of the Democratic National Committee, disclosed this strategy in a candid remark to the press last week.

"We will," he said, "hold Nixon responsible if he turns South Vietnam over to the Communists."

But simultaneously Senator Harris and Democratic senators like Edward Kennedy, George McGovern, Eugene McCarthy, J. W. Fulbright are continuing to demand such a rapid pull-out of U.S. troops that the end result would be to give the Communists control of South Vietnam.

Thus, the national chairman of the Democratic Party is not only acting to make Vietnam a pay-dirt partisan issue but is also seeking to put President Nixon in such a box that no matter what he does he's bound to lose.

**WHAT HE'S UP TO** is now in the open.

He wants to give the Democratic Party all the dividends he can by joining in the pressure on Mr. Nixon to get American troops out of Vietnam fast.

But Harris doesn't intend that the Democratic Party should take any responsibility for an imprudent speed-up of withdrawal. He proposes that if a President gives in to the demand for imprudent speed-up he — not the advocates of speed-up — should be held to blame.

In other words, Senator Harris' neat formula is to make Mr. Nixon punishable by the voters if he doesn't yield to pressures to get out quick and also if evil consequences come from yielding to such pressures.

**SENATORS** and congressmen have special responsibility. They know that the President has the constitutional duty to conduct foreign policy and that negotiating peace is the most difficult and delicate act of foreign policy. Heckling and harassing the President is delaying the peace, not hastening it.

Have the Democrats forgotten so soon that Richard Nixon is acting to end a war which he inherited from his Democratic predecessor and which they helped to authorize?

Harris and those Democrats he is rallying to put the voice of his party behind the peace-at-any-price student-faculty protests Oct. 15 are playing with fire. It wouldn't matter, if they weren't also undermining the chances of negotiating a just peace.

## Finch Gets New Rebuff On Funds For Education

By ROBERT S. ALLEN and JOHN A. GOLDSMITH

WASHINGTON — President Nixon's good friend Robert Finch, secretary of health, education and welfare, has apparently lost another decision in President Nixon's White House — this one involving funds for education.

Once again Finch is being a good soldier about it all. He has formally adopted the White House economy position as his own.

Involved here are funds added by the House to the annual HEW appropriations bill. More than $1.1 billion dollars, above and beyond President Nixon's budget, was pumped into education programs in the $17.5 billion bill, which is now awaiting Senate action.

**AFTER THE HOUSE** acted, officials in HEW's office of education, headed by former New York State Education Commissioner James E. Allen Jr., asked Finch to seek approval for some of the funds added by the House. Finch agreed to do that.

When Finch took the matter up with the White House, however, the answer — from Dr. Arthur F. Burns, Nixon's economic adviser — was an unequivocal: No.

So Finch has formally urged the Senate to remove all of the $1.1 billion in additional education money.

**THE WHITE HOUSE** reaction underscores the difficult mandate under which Finch and Allen are trying to upgrade the nation's educational establishment.

They have been told that the White House wants to see some education programs with the "Nixon" brand. They have also been warned, however, that no additional funds can be made available for education programs in the foreseeable future.

The inference is clear: present programs must be pared down to make room for some clearly identifiable Nixon initiatives.

**ALLEN HAS NOW** announced "the Right to Read" — an initiative designed to assure that every pupil will learn to read properly in every school during the 1970s. No one can take exception to that commendable goal.

For the present, however, Allen envisions the office of education as a clearing house for reading improvement programs in states and in local school districts. Funds, if any, will be requested later — after the local reading returns are in.

Under those circumstances some educators can be excused for feeling that Allen's ballyhooed "Right to Read" has some of the public relations trappings of a ringing endorsement of motherhood and the home.

**ALLEN HAD** acquired a reputation as a strong state education boss when he worked for New York Gov. Nelson A. Rockefeller. Things have not been going his way in Washington, however.

The troubles are not all with money. One of Allen's personnel selections encountered difficulties which raised some eyebrows last week.

Allen wants Peter P. Muirhead, a long-time Office of Education official, to serve as his deputy. Muirhead's appointment was not cleared, however, when the White House okayed some other changes in the HEW staff last week.

Before his own appointment was announced, there were reports that Allen's choice was opposed by some White House aides. There is, therefore, some talk about the delay in clearance for his number one assistant.

## Confused Announcements Further Confuse Mental Health Mess

More heat than light was shed on the confused mental health picture during a week of bitter controversy that wound up with a lengthy closed meeting of the county supervisors.

The supervisors' terse public announcement after the closed meeting only added to the puzzle. Added information disclosed since then indicates that the supervisors and/or the county administrator aren't playing fair with the public.

They don't mean what they say, or if they do, they aren't able to convey the true meaning.

**TAKE THE** pronouncement of Sept. 30. All they would disclose after the closed meeting were these three points:

1. "Suspend Dr. Miller for 30 days with pay, effective immediately."

2. Request the Marin Hospital District directors to also suspend Dr. Donald Wilson, director of the mental health center, for 30 days "for an evaluation of his performance."

3. Direct county staff to reappraise the Community Mental Health Center operation under its contract with the county, within this 30-day period.

**THERE CAN BE** only one meaning to point No. 1 — that Dr. Miller won't be working for the county for 30 days, but he will be paid. It's no wonder that other county employees began asking: How can I arrange to get 30 days vacation with pay?

Two days later, County Administrator Alan Bruce comes out with an explanation of point No. 1. It turns out the "suspension" is not a real suspension. Dr. Miller was assigned other county tasks; in fact, he was attending a mental health conference as Marin's representative and would be working on the mental health budget, etc.

If what Bruce says is true, then the supervisors should have announced in the first place that Dr. Miller was suspended only as director but assigned other duties and is still working for the county.

**WHY DIDN'T** they say so?

The answer may be tied in with point No. 2, in which the supervisors asked the hospital directors to suspend Dr. Wilson in the same fashion. They may have wanted to create the impression that since Dr. Miller was relieved of all duties for a month, Dr. Wilson should get the same treatment.

If the hospital board had acted on the supervisors' request, they would have relieved Dr. Wilson of all duties for 30 days, only to find that Dr. Miller was still working for the county.

**AT BEST,** the supervisors and/or the administrator misled the public and the hospital board by withholding relevant information. At worst, they deliberately created an erroneous impression to set the stage for whatever final action (as yet unclear) they hope to take in 30 days after the county staff has "reappraised the Community Mental Health Center operation."

The confusion in mental health land, compounded by the confusion created by the supervisors and/or administrator, leads only to more speculation.

**ALL WE CAN** surmise at this point is this: Apparently the majority of the supervisors back Dr. Miller and hope to keep him. Since he and Dr. Wilson have been at odds, they want to put pressure on the hospital board to get Dr. Wilson to either (1) cooperate fully with Dr. Miller or (2) get out.

Of course, one never knows what will happen in 30 days. If the public pronouncements made by the supervisors don't mean what they say, and if further "explanations and elaborations" keep changing the meaning of the original pronouncements, then anything can happen.

County policy makers and executives keep talking about communicating with the public. Evasive statements and double-talk will only widen the credibility gap.

## We Teach All Sorts Of Things —Except Laws Of Our Society

Now you won't believe this, but last week end I spent at a retreat — the lovely, wooded La Casa de Maria in Montecito, just beyond Santa Barbara.

No telephones, no television — just some books and periodicals I had been promising myself to read since the last monsoon, and where is there a better place to keep such promises than La Casa de Maria?

**I HAD** with me a series of editorials, "Ignorance and the Law", broadcast last June by KFWB of Los Angeles. It's a small pamphlet, only 27 pages, a good warmup I thought, before I got into the serious reading. It turned out to be simple, direct, important and constructive — and well worth passing on.

It had this to say: "The ancients who lived in tribes carefully schooled their children in tribal laws. Their reason: survival. The alternative: death."

The editorial told how our youth "chooses sides for a game of impromptu football, or baseball . . . then follows the rules to the letter . . . and insists that all other players do the same . . .

"Why does he (the student) ignore the law in one area, and insist on it in another?

"The major reason is that he has been taught the rules of football, baseball and volleyball from his earliest school days."

**THE ARTICLE** pointed out: "We require of all persons, that ignorance of the law be no excuse for breaking the law . . . yet we equally demand that our children enter a life for which they have never been taught the legal rules. . . . The specific study of fundamentals of law is not and has never been a major subject in the education system in our country . . ."

Now, the school year has begun with mounting apprehension over the rampaging students on our university, college, and even our high school campuses. This concern is felt at all levels, including the White House, and rightly so.

In addition we have a rocketing crime rate, particularly in the 15 to 25 year age group, increasing many times more rapidly than the population increase rate.

And, as we are all aware, one of the more important issues of our turbulent times is that of "law and order" — and we are fond of telling ourselves that "we are a nation of laws, not men."

**WE SHOULD** be troubled over the antics of our rebellious youth — not because they are dissenting, which is healthy, but because they are taking the law in their own hands. They are in effect saying: "To hell with the law!"

No society has ever permitted such an attitude to prevail — and survived.

Nor will there ever be one.

We have been teaching frills — physical education, personal hygene, driver training — and now we have a tug-of-war on whether or not sex education should be part of the curriculum — though none of these is as important as learning the rules of society. To quote KFWB: "Yet nowhere, except by hearsay, guesswork, intellectual osmosis, or trial and error (and sometimes trial and conviction) do we even try to teach children the most important rules of all . . . the ones by which society demands that they live."

We teach students their rights as citizens — over these they make loud, bombastic noises. But what about the other side of the coin? What do we teach them of their responsibilities as citizens?

## Field Narrowed For Administrator

Four candidates for the post of administrative assistant for the City of Larkspur were interviewed in closed session for seven hours Saturday by the city council.

Kent B. Bathurst, city manager, said he would evaluate the men, who presently live in various parts of the state, and announce his choice at the Oct. 15 meeting.

The four were chosen from about 15 who applied for the job left vacant by the Aug. 7 resignation of Robert C. Bunday.

ed, will be answered and her honor defended. But without any show of aversion, without striking back, without polemics."

**Pope Recalls Own Career**

Beginning his remarks by pointing out that he had an intimate knowledge of how the Curia works because he was a member for more than 30 years, the Pope said he had called his audience together to show his paternal benevolence.

He wished to express his "veneration, gratitude and encouragement," he said, and he asked Curia members to give him "the comfort of their constant solidarity, their filial obedience and their valid collaboration."

"The Roman Curia will not be jealous of temporal prerogatives of time long past, nor of interior forms no longer suitable to express and impress true and lofty religious meanings, nor avaricious of its faculties that, without harming the universal ecclesiastical order, the episcopacy can today exercise better locally and by itself," the Pope said.

Referring to the forthcoming inauguration of the Ecumenical Council, Pope Paul said, "The hour is great and sacred." He spoke in terms of the greatest respect and admiration for Pope John.

"This Second Vatican Council," Paul VI said, "was willed by a Pope to whom the spontaneous acclamation of the public voice attributed the evangelic words that were applied to the precursor of Christ: 'There was a man sent by God whose name was John.'

"We believe that history will repeat these words when it recalls the salutary consequences of the sudden and flashing deliberation of him who called the Catholic world to the Council and opened the door and the heart to the seperated brethren for a loyal reconciliation."

**Reform Need Stressed**

Rome, Sept. 21 (AP) — Discussing his proposal for reform of the Curia, Pope Paul VI said today.

"Various reforms are needed. They certainly will be extensive. They will have no other aim than to let fall whatever is archaic or superfluous in the forms and norms that regulate the Roman Curia and to put into being whatever is vital and healthy."

**Step Implied by Pope John**

Pope Paul's desire to reform the Roman Curia was implicit in his predecessor's calling of the Vatican Council.

Throughout the first session it was apparent that Pope John wished to decentralize the governing arm of the church and to delegate more power to the bishops rather than to confine church policy to the conservative, Italian-dominated Curia.

As the first session progressed it became increasingly evident that the church hierarchy was overwhelmingly in favor of decentralization. In effect, this would mean that papal infallibility would no longer be extended to involve the Pope and his bishops acting in concert.

The Roman Curia, yet again, will thus feel even more strongly its vocation to give an example to the whole church, and to the secular world.

This is the fatherly exhortation we wish to address to you at the conclusion of our simple words, which to us seem to echo the words of the apostle Saint Paul, addressed precisely to the Roman church: "Your faith shows itself in all the world."

Catholic Rome, the Roman Pontificate, the Roman Curia are being looked at from all sides. The duty of being authentic Christians is here highly committing.

We would recall to you this duty if it were not that we ourselves recall it every day.

Everything at Rome is a school: The letter and the spirit. How one thinks, studies, talks, feels, acts, suffers, prays, serves, loves. Every moment, every aspect of our life has a radiation around us, which can be beneficial if faithful to what Christ wants us, of evil effect, if unfaithful.

That is why we wish that, beyond your specific contribution of qualified service, the Roman Curia, all of you, brothers and children, give to us, or better, to the church, to our Lord Christ, that precious offering of your example of strict selflessness and abnegation, of religious and sincere piety, of loving welcome to those who need your attentive service.

The Roman Curia is not an anonymous body, insensible to the great spiritual problems that automatically dictates laws, but a live body faithful and docile to the head of the church, a body made of grave responsibilities and functions, and imbued with reverence and solicitude to those prelates who "spiritus sanctus posuit episcopos regere ecclesiam dei."

Therefore let the Roman Curia not be a bureaucracy, as some have wrongly judged it, pretentious and apathetic, legalistic and ritualistic, a fighting ground of hidden ambitions and deaf antagonisms, as others accuse it of being.

But let it be a true community of faith and charity, of prayer and action, of brothers and sons of the Pope, who do all to serve him, with a sense of collaboration, in his duty to the brothers and sons of the universal church and all the world.

We know that our wish expresses yours, sincere and good, and that it is this wish that in us and in you makes prayer, so that our Lord Christ, with the intercession of the most Holy Mary and the holy apostles Peter and Paul, will cause this old and ever new Roman Curia to shine like a lantern "ut luceat omnibus qui in domo sunt in domo," that is, in the church of god!

And finally you will not be displeased if we ask you all ecclesiastics and laity of the Roman Curia, to add to your labors another spontaneous task of Ministry and personal apostolate: help the Pope to evangelize not only the world, but also the city, of which you are the first faithful and he is the Bishop!

Trusting in your goodness, and assuring you that you are all present in our prayers,

# Rural Amador County Survives Rock Festival

IONE (UPI)—Rural Amador County returned to its pastoral pursuits today, relieved that a weekend rock festival invasion by 40,000 youths was far less violent than a Saturday night in a gold rush mining camp.

The sheriff's department reported two youths were arrested for possession of drugs. It said a third had been arrested Friday night for drunk driving en route to the festival.

The only assaults were on the ear drums from the offerings of such rock groups as the Up-and-Coming Santana, Sons of Champlin, Bi Diddly, Ike and Tina Turner, Kaleidoscope and others.

But such things as the "Gold Rush Rock Music Festival" hadn't been witnessed in the Sierra foothills by sparkling Lake Amador since the roistering gold mining days of the 1850s.

Pot-puffing, wine-sipping, skinnydipping youths danced to the music, cavorted in the lake or just listened under a haze of marijuana smoke.

There were some incidents of nude bathing, one girl water skied in the buff and a few more doffed blouses and bras in the Indian summer heat. For those who wore clothes the dress ranged from hippie garb to blue jeans to casual attire that might be seen at a suburban backyard barbecue.

For all the goings-on the younger generation acted just like their parents in trying to beat the traffic home.

"They moved out pretty good," a sheriff's deputy said. "A lot left before the show was over (2 a.m. Saturday)."

Also leaving was festival organizer Doc Davis, a botany instructor at San Joaquin Delta College near Stockton. He left with guards and a three-ton safe crammed with cash. At least 20,000 tickets at $3.50 each were sold ahead of the festival.

## Chest X-Rays To Be Given Oct. 16

## Plans For Rec Center Slated

Revised plans for a new Community Recreation Center will be discussed by the San Rafael Parks and Recreation Commission at 8 p.m. Wednesday in city hall.

The commission offered plans for a $681,000 center last August but the council indicated ti sought a less expensive facility.

The commission will also discuss withdrawal of the San Rafael School District from the recreation program. The school district has been contributing $24,000 annually to the program, but has notified the commission it will withdraw financial support in its next fiscal budget.

## LIKE AN OLD FASHIONED FAIR

For the 70th year Marin families, teen-agers and adults turned out to sample the wares at the Grape Festival, held Saturday at the Northgate Shopping Mall area in Terra Linda. A benefit for the Sunny Hills Home in San Anselmo, the Grape Festival calls upon hundreds of volunteers to make, assemble and sell the specialty wares and foods that are attracting the crowds here. Regional guilds run booths, such as these Belvedere Guilds' booths, from across Marin and community organizations join in. (Independent-Journal photos by Jim Kean)

SUNNY SKIES and a promise of fun things to do made the Grape Festival exciting for such as Andrew Earley, left, as he takes a chance on the grab bag prizes from the Grab Bag Buggy supervised by Dori Niccolls of Ross, from the Katharine Branson School.

## San Domenico's Annual Play Day Attracts 600 Girls

Some 600 students from 11 Bay Area private girls' schools will participate in the San Domenico School's annual play day of sports events on Saturday at the Sleepy Hollow campus.

Registration will begin at 9:30 a.m. for the 36th annual play day with a welcome by student body president, Liz Clark.

Swimming and tennis competition will begin in the morning and continue throughout the day. A complete horse show will be held in the afternoon in the ring, with Western and English mounts entered. Mrs. Donna Long will judge the horse show and Doc Lapkin of Mill Valley will be the announcer. Other events will be officiated by the girls' committees.

Other events will include volleyball, hockey, archery, badminton and table tennis.

The play day began 36 years ago under the guidance of Sister M. Martin, O.P., to promote fellowship and the spirit of sportsmanship among the participating students. It began in 1933 with five local schools gathering for games and luncheon at the barbecue area of Dominican's Forest Meadows in San Rafael, and has continued at the school's new campus in Sleepy Hollow.

This year "Play Day with the Planets" will be the theme and at lunchtime skits from the Zodiac theme will be given by each school.

Schools participating are San Domenico, Katherine Delmar Burke in San Francisco, Katharine Branson in Ross, Castilleja in Palo Alto, Santa Catalina in Monterey, Crystal Springs in Hillsborough, Sarah Dix Hamlin in San Francisco, Anna Head in Oakland, St. Rose Academy in San Francisco and the Convents of the Sacred Heart in San Francisco and Menlo Park.

Competing for San Domenico in swimming will be Guatemalan Olympic star Silvana des Asturias of San Rafael, Cookie Arrighi of San Rafael, a former junior olympics winner in the back stroke, and Nyia Brown of Ross, diving. The San Domenico tennis team, which last week won the Santa Catalina Invitational tennis meet, will compete. Playing Saturday will be Bee Kilgore, Pam Wilson and Darbie Auerbach, all of the Tiburon Peninsula.

Marin students on the hockey team will be Bonnie Coverley of San Rafael, Winnie Hamilton of Ross, Sally Sullivan of Kentfield, Eileen Lennon of San Anselmo and Vinette Pennisi and Nancy Upham of Mill Valley.

In the riding events from Marin will be Odette Solon and Carolyn Connor of Ross, and Nancy Nicolai and Alex Hill of San Anselmo.

Carolyn Knox and Patti Nicolai of San Anselmo will play volleyball, and Carolyn Clifford of San Rafael, and Laura Grandin of Ross will play in the badminton competition.

## Celebrating A 1919 Wedding

Fifty years of marriage is being celebrated by Mr. and Mrs. Ernest Hansen of Novato.

Verna Nelson and Mr. Hansen met while attending Eureka Business College in 1916 and they were married Oct. 2, 1919.

"We had many bloody battles but we won them all," Mrs. Hansen said laughingly, about their years of marriage.

Mrs. Hansen was born in Oakland and Mr. Hansen was born in Wisconsin. He came to California with his parents as an infant and they traveled the last miles from San Francisco to Eureka by steamer.

Before their marriage, Mrs. Hansen lived in Shively, a small town wiped out in the 1964 flood and Mr. Hansen lived in Loleta, a small town in Humboldt County.

They moved to San Anselmo in 1945. He was manager of the Safeway supermarket there until 1954 when he was employed at the Shoreline market in Tamalpais Valley until his retirement in 1962. They moved to Novato in 1963.

The active and attractive couple of Scandinavian decent had two children. Mrs. John W. Bell Jr. and her husband and three children live next door to her parents. Their son Ernest Jr. a pilot in World War II was killed in Holland.

Mrs. Bell held a reception at the Eureka Women's Club Sept. 27 and was assisted by many nieces and nephews of the Hansens.

She held another reception for her parents, inviting their many Marin County friends to the Hansen home on Saturday.

Out of town guests were the Philip Laskes of Santa Ana, William Zlomkes of Klamath Falls and Robert Soehners of Phoenix, Ariz.

Gardening and fishing are the hobbies of Mr. Hansen and Mrs. Hansen says she spends her time "taking care of him." He said of his wife, "She's a good housewife and grandma."

"We're not joiners," she said, but she added that she attends the Novato Presbyterian Church.

LOOKING OVER A display of mementoes including a picture of their "honeymoon hotel" are Mr. and Mrs. Ernest Hansen of Novato. Also included is their wedding picture taken Oct. 2, 1919. Both were attending Eureka Business College at the time. (Independent-Journal photo)

## HELEN HELP US!

By HELEN BOTTEL

### Grandparents Moved In And Ended Up Giving Much More Than Rent

DEAR HELEN:

We started out great with our youngsters. When we retired three years ago it was, "Come live with us, Mom and Dad. We have plenty of room and you might as well give us your rent money." And give we did.

While son and daughter-in-law dashed off to have fun after dinner, Grandma did the dishes and put the children to bed. She also did most of the housework and babysitting.

And Gramps? Well, he weeded, mowed and trimmed. He helped with grandson's homework, took the kids on outings which, of course, he enjoyed. Dad is a busy person in his spare time — all that golfing and boating. But just let Gramps correct Junior and Dad's parental pride was hurt.

Then there was the matter of money. Loans big and small, sometimes conveniently forgotten.

Our children couldn't understand why we moved out, choosing a cramped apartment to their spacious home. But now we're really living. Only our closest and dearest friends know where to find us. But my wife reads to the small neighbors and when they raise their small eyes to us and grin, or their parents and big brothers and sisters ask our advice or just sit and air their problems, we know we belong.

At 68, my wife and I are more spry than half the people we know who are under 50. We aren't about to head for a retirement village. We do need more income and we hope someday old age benefits will catch up with the cost of living, but we're busy and contented.

A word to oldsters invited in to live with their children. The cards are stacked against you. Speculation begins. Are the folks unable to care for themselves? Broke perhaps? They are patronized; the children are pitied by their friends. They are never two sides of the situation in the eyes of onlookers.

Live alone, Grandpa and Grandma. — GRAMPS

DEAR GRAMPS:

Cheers, Gramps and Grandma. You've transformed the end of living into the living end! — H.

Personal to "Why Do Bachelors Act That Way?" — Because they want to remain bachelors! You asked me to print your letter so he could read it. That's a sure way to lose him. Do your own proposing — much more subtly. — H.

DEAR HELEN:

More on "Parking Lot Etiquette." You can get plastic or rubber protectors for your car doors, but that doesn't save your car if the guy next to you doesn't have them. I think they should be standard equipment on all cars. Also, people who give themselves lots of space on the driver's side are asking for scratches on the other side. Make sure to park in the exact center of the space allotted.

Those who lay out parking lots could help, by making spaces less skimpy. Seems to me a supermarket which advertised "Easy, no-nick parking" would prosper, even if it had a few less slots. — F. R. L.

DEAR F:

I've got a better idea. How about making cars with sliding doors? Is possible, Detroit? — H.

# 'The Pageant Misses Youth'

By STEPHANIE ROUMELL

ATLANTIC CITY, N.J. (UPI) — The morning after the 1969 Miss America pageant, Judy Mendenhall sat in the lounge of a humming jet.

This Miss Minnesota, 18, earned straight A's her first year at the University of Minnesota. Behind her chiseled features is a disdain for what is shallow and a strong desire to reach out directly, personally.

She said the pageant had been hard for her.

"You shop and shop and clothes don't mean that much to me," she said. "And you have no idea how sick you get of being pointed out."

She entered primarily for the scholarships and then, to her surprise, became carried away in a remarkable experience of togetherness.

"In the end," she said, "you want everyone to win. It's a very good feeling of togetherness."

She is happy the pageant comes on great to children and middle-aged and older persons.

But it bothers her that the Now generation just is not impressed. She says that would not be the case if the pageant itself was more reflective of Now.

"I'm not saying contestants should walk out on stage smoking marijuana, but it should somehow be more geared to youth," she said.

Judy does say neat instead of groovy. She also belongs to a sorority, something the young set now considers square.

But otherwise this stunning blonde girl is together with that group of youth to whom the V-sign signals peace, not victory.

She wears jeans and sweatshirts on campus and pedals her bike in bare feet as long as the weather holds. For the pageant she wore makeup base and learned to use eyeliner. On campus, her face is untouched, her hair hangs long and ramrod straight.

She said she keeps a cool lid on her Miss Minnesota title on campus. "My friends are, uh, not impressed," she said.

On the final night of the pageant, Miss Minnesota found herself among the 10 semi-finalists, and later, among the top five.

Things got very hot for Judy but the crown went to Pamela Ann Eldred, Miss Michigan.

The other girls were released from the stage. Over in the wings, Judy and other finalists hugged.

"I did the very best I could to win for my state," she said. "And had I won, well, fine. But this way is fine, too. In fact, it may be better."

She grinned. To a hovering stewardess she said:

"I think I'll have a gin and tonic."

A chaperon who was having just that put in quickly: "She'll have a diet soda."

## First Presbyterian Church Women Celebrate With Centennian Spirit

IN A centennial spirit, the **United Presbyterian Women of the First Presbyterian Church** of San Rafael will celebrate with a special program and tea at 1 p.m. on Thursday in Canoles Hall at the church. Featured will be a skit written and directed by Mrs. Eleanor Gaustad, developed from material of skits used in the "olden days" which were written by Miss Georgia Wintringham, who was an active member of the church and women's association. Young people of the church will portray these pioneer members in costumes of the era.

Oliver Jones, who has sung for the San Francisco Opera, the Bohemian Club Shrine and Masonic functions and many Gilbert and Sullivan productions in the Bay Area, will sing as members present a show of fashions stylish from 40 to 100 years ago.

Models will include Mmes. Robert Abbott, who will model Mrs. Raymond Thayer's 1908 wedding dress; Myron Carrothers, wearing a dress used by Mrs. John Carrothers' grandmother in 1869; Donald Urquhart, wearing a great aunt's dress of 1896; Jerry Starr, a dress and hat used by Mr. Starr's grandmother in 1884; Gladys Pollack, an 1895 dress; and M. S. Orr, a coat worn in 1899 by Mrs. Urquhart's great aunt.

Tamara Murray, daughter of Mr. and Mrs. Ted Murray, will model a Christening dress worn by Nat Williams in 1890; Mrs. Charles Griffin, a wedding dress made in 1908; Mrs. Douglas Alter will model Mrs. Orr's dress of 1911.

Other models are Mmes. Clifton Rattenbury, underclothing of the era; Roland Becsey, a dress from 1895; Roy Rhodes 1914 dress by Mrs. George Peer; Dwight Bruner, a dress worn by Mr. William Howe's mother in 1915; Art Abrahams, a 1928 afternoon dress; and Ralph Holchester, an evening dress of 1928. Mrs. Thomas Baker will be commentator. Addional clothes and other period items will be on display in the hall. The program has been planned by Mrs. Roland Becsey.

Honored guests at the tea will be 50-year-members of the church Miss Katie Murchison, Miss Maude Williams, and Mmes. William P. Murray, Thayer and Orr. Twenty-five-year members and past presidents of the association will also be honored guests. Mrs. Neville Donovan's circle will be hostesses for the tea, and Mrs. Becsey program chairman.

# Painting Of Past Restored

By ANNE BARDWELL

An early American primitive oil painting of Forbestown in Northern California, once tattered, cracked and filthy, is now a sparkling addition to the Oakland Art Museum's historical art division following restoration work completed recently by art conservator Frank Dorland of Mill Valley.

The 100-year-old painting, by an unknown artist, is not only an "excellent example" of primitive art — one of the finest I've seen in the Western United States," according to Dorland — but also an interesting visual description of the life style of the era.

**Entitled "A Sunday," and dated July 18, 1869, the painting shows small mining town, located in the High Sierra 50 miles northeast of Nevada City, on its day of rest.**

Despite its mountain locale, some of the painting's scenes could be typical of Marin County at the same time, according to Dorland, particularly the scenes of logging on the hillsides. "In fact, that part of the painting really is very similar to the whole Bolinas scene now," he says.

In the painting, an aerial view of Forbestown, ("The perspective is really quite remarkable for someone untrained," Dorland notes) miners wander down the main street, stopping at the local saloon and on the boardwalk to exchange news on their one day off.

The hotel owner stis on his front porch reading a book while on another street maids air out the empire hall, undoubtedly, after a long, hard party the night before.

**All the stores are closed except for one where a semibare tinsmith works overtime to provide the siding and roofing needed for the construction boom evident elsewhere in the picture.**

Discrimination is seen as Indians peer over a outer fence and an Chinese man rides on the roof of the stagecoach, relegated to the outside along with the cage of chickens.

After studying clues provided by the painting, Dorland believes the artist was a woman, probably the daughter of the innkeeper. Her sex he deduced from such touches as ball fringe on the curtains and details of clothing of the stagecoach travelers; her parentage from the prominence given to the hotel owner in the picture, and from the signs that he is both educated and well-to-do thus able to afford his daughter's hobby.

Work to restore the painting, commissioned by the Oakland Public History Museum, took almost a year, not an unusual time when restoration can take up to two years depending on the extent of retouching required.

Reconstruction included removing the canvas lining, patching the paint, matching colors, retouching and inpainting and applying protective coats of resin.

**Because of the high quality of materials used in the painting the original linen canvas did not have to be replaced as is often the case in neglected paintings.**

"In fact, this painting would have disintegrated by now if it were not for the quality of paints and canvas," Dorland said.

And now, having been conserved and preserved, the painting has been returned to the Oakland museum where it hangs for history buffs, art patrons and the curious to puzzle out the interesting story of Forbestown and California.

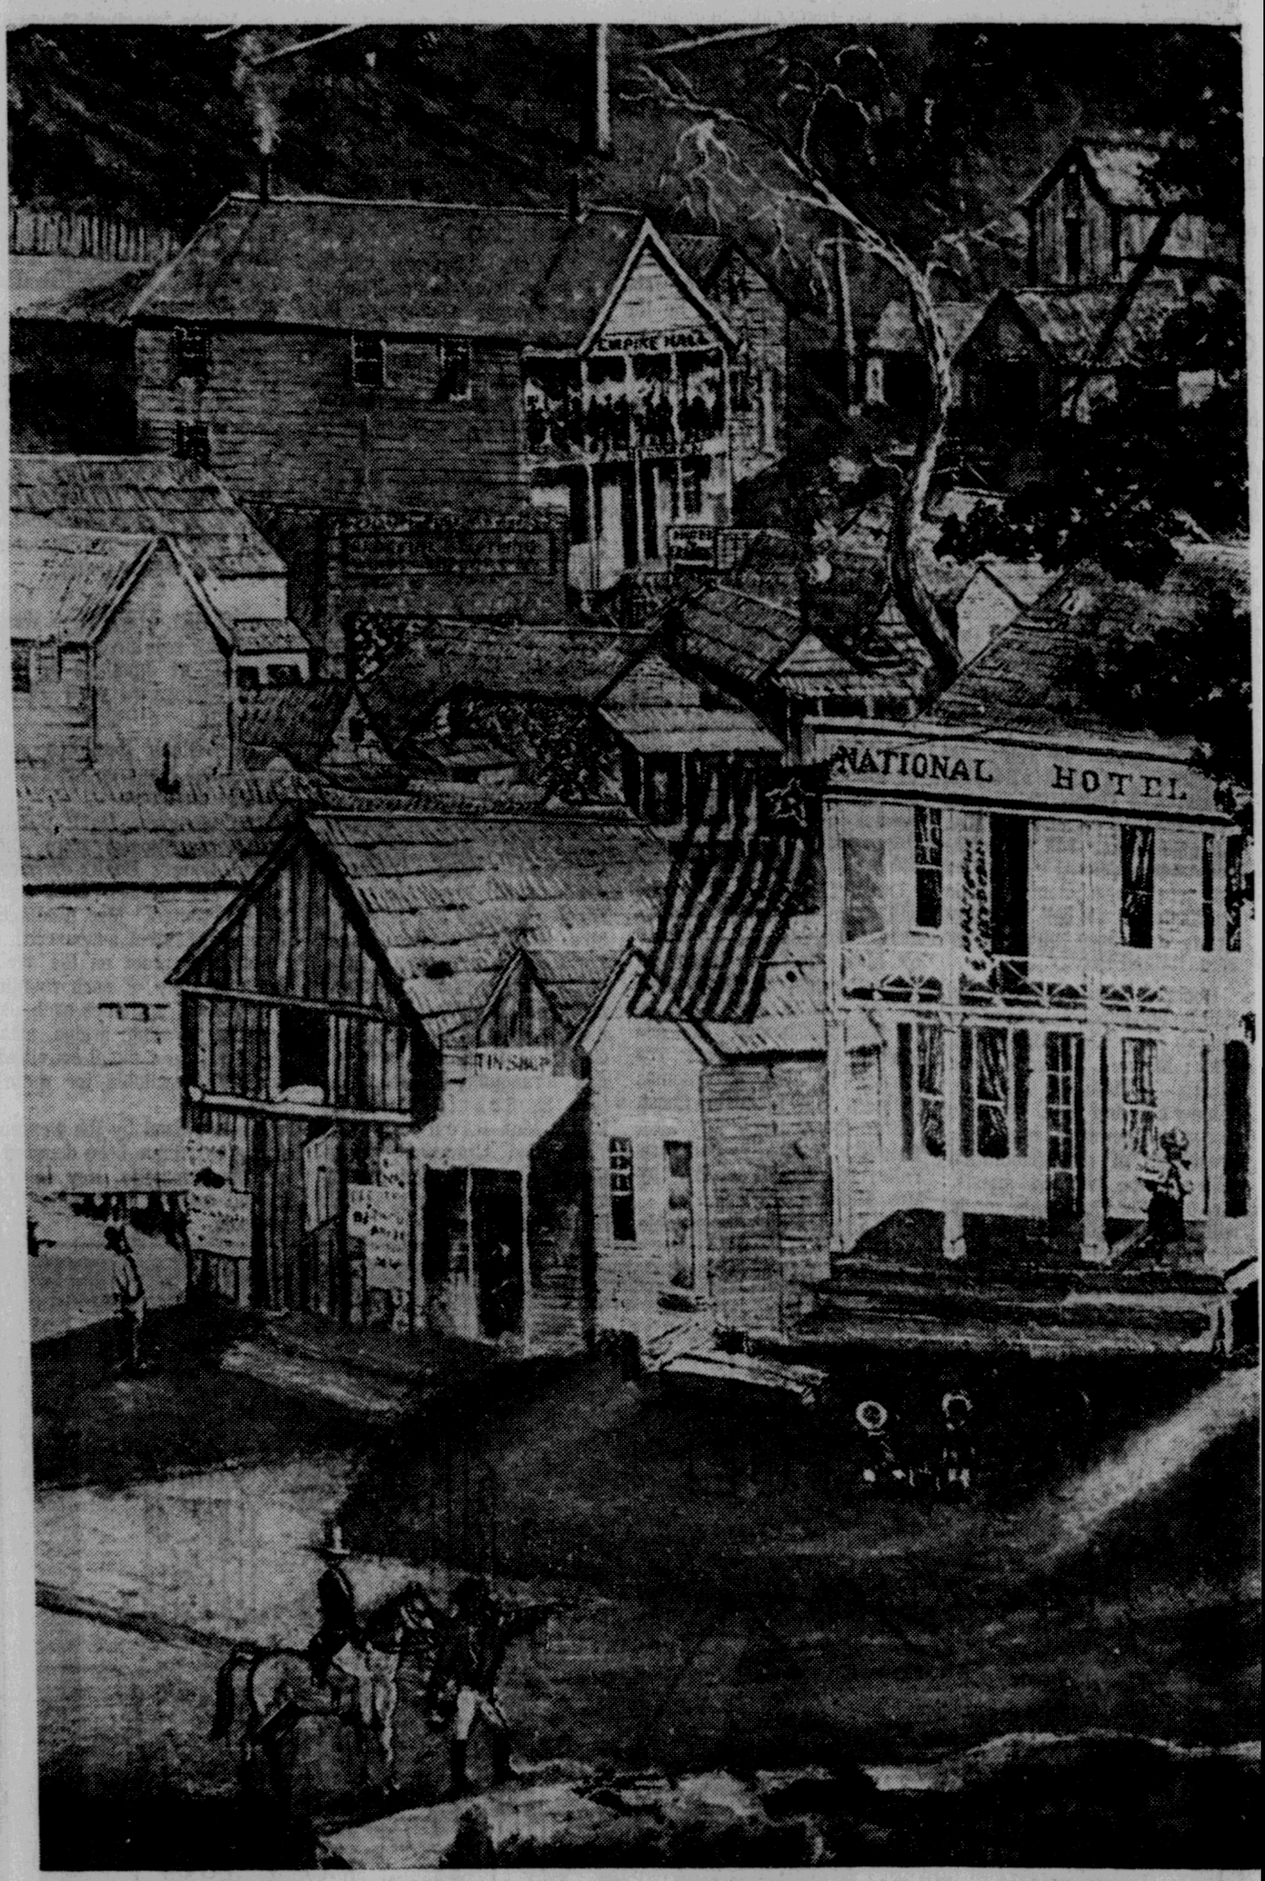
**BOARDWALK** — A board street was laid down on the muddy street to protect ladies' dresses from mud. In the background is the town's waterworks which brought the water from a mountain stream into a covered storage shed for use by town residents.



**STREET SCENE** — The father of the artist reads a Sunday magazine on the front porch of the Empire Hotel while next door the tinsmith works over his hot fire. The flag is transparent because it was added after the picture had been finished and underwent pigment absorption.

OPERA REVIEW

# 'La Traviata' Is A Real Stunner

By MAYBELLE SPECKMANN

SAN FRANCISCO — A scintillating new production of Verdi's "La Traviata," with singers possessing a high order of vocal and dramatic talents, made Saturday night's performance at the opera house a stunning visual experience and a thrilling musical one.

Making his American debut as an opera producer, University of Munich drama professor August Everding, in creating a spectacular work, has had the great advantages of a $43,000 private grant for sets and costumes and the gifts of designers Toni Businger and Davis West in realizing them. I have seldom seen more sumptuous sets than those of the salons of Violetta in Act 1 and Flora in Act 3.

**The only element not too clearly motivated, in my opinion, though it did focus attention, was the dimming of lights at psychologically important points in each of the acts.**

But, after all, what really brings to life a time-worn favorite such as "Traviata" is the quality of the musical performance.

Act 1, I felt, was not up to par, with none of the cast and conductor Guiseppe Patane revealing the capacities later demonstrated, and the singers and orchestra were not always together. The famed "Brindisi," or drinking song, lacked verve.

Greek soprano Jeannette Pilou — who received rave reviews as Zerlina in "Don Giovanni" last year — was competent in her first act aria "Ah, Fors' E Lui" and the following cabaletta "Sempre Libera" and sang agilely succeeding coloratura runs. In the rest of the opera she was most impressive, especially in very delicate pianissimo passages, convincing me that some unfavorable criticism following her opening night of the season in this role was due to "opening night jitters."

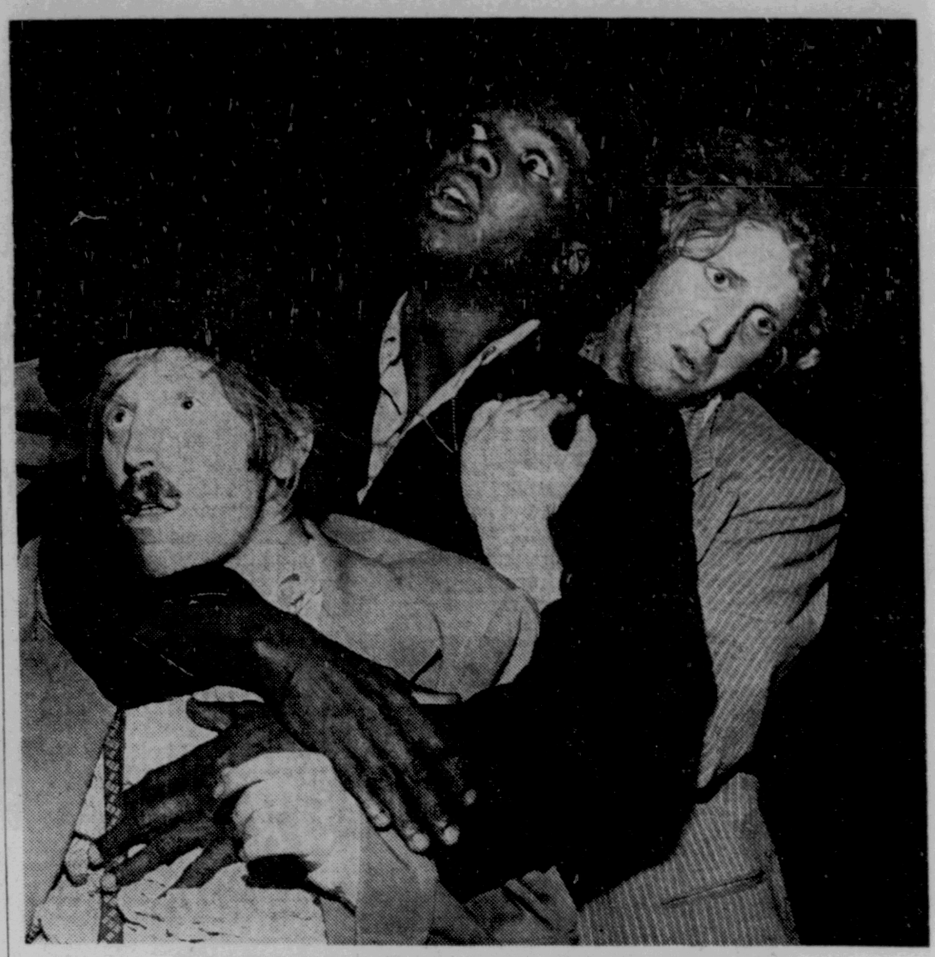
**The two leading male singers were outstanding. Franco Bonisolli was a fiery lover with an enchanting tenor voice as Alfredo, but the major triumph was achieved by that marvelous singing actor Ingvar Wixell. His baritone voice was not exactly mellifluous but was used with powerful effect as Alfredo's father, especially in his big aria "Di Provenza Il Mar."**

A highlight of the final act was Violetta's and Alfredo's beautiful duet "Parigi, O Cara."

That always remarkable singing actress Mezzo soprano Sona Cervena was a properly frivolous Flora, Violetta's friend, but the role provided no opportunities to show her ability such as she has had previously here in "Lulu," "Salome" and "The Barber of Seville."

**Of the secondary roles, most notable were baritone Elfego Esparza as Violetta's patron, Baron Douphel, mezzo soprano Sheila Nadler as her maid Annina and bass Richard J. Clark as Doctor Grenvil.**

The gypsy ballet featuring William Johnson and Judanna Lynn was not particularly distinguished.



## BECKETT PLAY TO OPEN FRIDAY

Robert Deckelman of Novato, (left); Rufus T. Gartrell of San Francisco (center) and Donald Carroll of Larkspur rehearse a scene from Samuel Beckett's "Waiting for Godot." The classic theater of the absurd production will begin a nine-day run Friday at 8:30 p.m. in the College of Marin's Studio Theater. Harvey J. Susser directs the play, which will run through Oct. 19.

## Burning Problem On Hub's Agenda

The effects of the pending backyard burning ban in the Bay Area will go before the San Anselmo City Council at an adjourned meeting at 8 p.m. tomorrow in city hall.

At its last meeting, the council was warned by Wallace S. Myers, attorney for the San Anselmo Garbage Disposal Co., that the company would have to raise rates if it had to start collecting all rubbish that is now burned.

The Bay Area Air Pollution Control Board has placed a ban on all backyard burning in single family dwellings, effective Jan. 1.

## Disciplinary Hearings To Resume Soon

I-J Special Report

SAN FRANCISCO — Disciplinary hearings will resume this month for more than 100 students at San Francisco State College, who were arrested by police during last year's campus strike for an ethnic studies program.

In an attempt to make the proceedings "fairer and less biased," according to Paul Jewel, coordinator of internal affairs for the college, the hearing panels have been reformed to include two students and one faculty member. The earlier panels, which have already passed an array of decisions on most of the 333 arrested students, were composed of three faculty members and no students.

The hearings, which are separate from the legal court trials, consider charges of infractions of college rules. The panels will continue to recommend expulsion, suspension, probation, a letter of reprimand, or an acquital for each charged student, and President S. I. Hayakawa of Mill Valley will make the final decision.

After some 200 cases were decided last spring, the hearings were stopped when school ended in June. Resumption for the remaining 124 cases has been delayed by reorganization of the panels according to the reformed rules.

"There have been very few suspensions," said Jewel, who left the college's business department in August to assume his new administrative post.

DRAMA REVIEW

# Osborne's Latest Is Long, Tedious, Limp

By WILLIAM GLOVER

NEW YORK (AP) — John Osborne's "A Patriot for Me," last night's arrival at the Imperial Theater on Broadway, is much more of a limp drag than its mere homosexual theme might imply.

Quite probably, considering present eagerness of a large segment of the paying public for prurient exotica and sensationalism, the elaborate production contains enough titillation to assure a profitable run. Just don't say you weren't warned.

Osborne dishes up rather than dramatizes the story of a high-ranking officer in the Austro-Hungarian army of 1890-1913, whose preference for muscular youths rather than waitresses or countesses trapped him into treason. All based on historic scandal and examined now by England's ex-angry young man as some kind of a warning about the perils of an overmoralistic society.

QUICKLY LOST

Such purported purpose, however, quickly gets lost in the yawn- provoking exposition of the long first act, and vanishes utterly during the post-intermission jaunt into the gay world of eccentric pleasures.

Insipid, over-detailed dialogue of ancient gossips and some melodramatic banalities to make us realize that the Russians are out to blackmail nonhero Alfred Redl are the range of dramatic imagination.

The single, genuinely entertaining scene, which opens the second act, is a transvestite ball in old Vienna, with Dennis King hilariously dominant as the queen of queens. Thereafter the play is downhill all the way, unless some glimpses of bare buttocks can turn you on.

FOCAL ROLE

In the focal role, Maximilian Schell performs with much introverted tension and an accent not helped at all by the elaborate, over-loud amplifier system that the management has questionably laid out. Salome Jens assails the role of a minor-league Mata Hari with fortitude.

Some sort of coding would be needed to sort out who is which in the large cast that takes part in the 60-plus roles provided by Osborne. Peter Glenville's direction fortuitously is unaffected and devoid of campy mannerisms.

Oliver Smith has provided almost three dozen settings which along with Freddy Wittop's costumes adequately establish the Mittel Europa ambiance of long ago.

BEST WAY

Perhaps the best way to get your money's worth would be to drop in after the intermission.

On the whole, I think I'd rather take a chance on finding some satisfaction in that "exotic fruit and rice salad" which is currently being heralded with placards in the city's bus system as the favorite recipe of the show's producer, David Merrick.

## Meditation Precepts Topic Of Lecturer

The principles and practice of transcendental meditation will be explained at 8 p.m. Oct. 14 in Olney Hall at the College of Marin.

The introductory lecture, sponsored by the Students' International Meditation Society, will be given by a teacher trained in India by Maharishi Mahesh Yogi.

# SPEED

Speed — methamphetamine — is a very dangerous drug. It is named for the speed with which its user rides to supernormal levels of excitability and wakefulness.

Speed is destroying more young minds in California than any other drug. Experts fear the illicit use of this and similar drugs will reach epidemic proportions this year.

If you are a worried parent with questions about the drug subculture, or an open-minded young person taking another look at the facts, read on...

**What is Speed?**

It is such a dangerous drug that the medical profession limits its use to emergencies such as controlling blood pressure during surgery.

When Speed is used indiscriminately, it over-activates the physical and nervous system — with drastic and unpredictable results.

**How does Speed work?**

The hardened Speed user takes his drug the same way as the heroin-user — by injection. He then experiences a "rush" up to a "high" — an euphoric condition that can be maintained for as long as a week by repeated mainlining.

On a "speed binge" the user often stays awake for days. His appetite for food or drink is suppressed. His tolerance to the drug builds rapidly, so from an initially small dose he may shoot from 1000 to 5000 milligrams daily — far greater than a doctor will administer in the operating room.

As his "run" progresses, the speed user becomes more restless and disoriented. He may become uncontrollable and harm himself and others. His brain, heart and liver are all under heavy strain. If he can't take this punishment, he may die from overdosage — or from impurities in the drug itself — or from violence resulting from his psychotic condition.

At an unpredictable point, he stops shooting. This may be because of fatigue, panic, or simply because his supply runs out. The "crash" comes as he drops rapidly from a hyperexcitable state to one of extreme exhaustion. If he's a hard-core addict he may accelerate his crash with "downers" — usually barbiturates which are also frequently addicting. He may sleep for 24 to 48 hours, eat ravenously on awakening, then go into a state of extreme depression. This can be so severe and intolerable that he may take off on another run.

**Why and where do users go for Speed?**

Speed-users generally fall into two categories: experimental and compulsive.

An alarming number of young experimenters graduate to the compulsive use, in contrast to the original Haight-Ashbury hippies who used marijuana and LSD for "creative and religious experiences." Eventually this repeated consumption can lead to drug-dependence.

Speed is being synthesized illegally in black market laboratories and is becoming more readily available through dealers. Often it is "cut" with sugar or in fact any white powder to make the supply stretch, and thus make the sale more profitable to the dealer.

When made by amateurs under unsanitary conditions, contamination is often present, the common side effects being abscesses, blood poisoning and hepatitis from unsterile needles. So the medical profession is faced with both physical and psychiatric problems in treating the "speed freak."

**What can you do about it?**

According to former drug-users who are working with clinical teams to help addicts kick the habit, there are three basic steps one can take in coping with the growing drug problem:

**First:** *Get the facts on what drugs are really doing to people. Facts. Not hearsay.*

**Second:** *Consider the clinical evidence. Then take a stand based on knowledge rather than emotion.*

**Third:** *Involve yourself. Get together with others in your community who are concerned about the drug problem. Groups are forming throughout the state to help young people help themselves.*

If you or someone close to you has a drug problem, write for further information:

## FIRE WRECKS A FAIRFAX LANDMARK

Fire destroys the interior of 55-year-old St. Rita's Parish Hall in Fairfax as youngsters watch firemen pour water on the flames bursting through the roof of the wooden building. Only the outside walls remained after the $30,000 fire, which was reported at 5:43 p. m. Saturday by a neighbor. It took 17 men and two pumpers 30 minutes to contain the blaze, whose cause remained unknown today. The building was erected in 1914 as a mission and was used as the parish church until 1953. # Half A Department Moves To New Hall

The first county department — actually a half a department — to move into the new Hall of Justice began operating in the basement of the new building this morning.

It is the central services department, which is part of the county's purchasing department headed by Doug Edelen.

Central services, with Dolores Miller in charge, handles county printing, duplicating, and storage of small items such as paper, typewriter ribbons, and other office supplies. Edelen, who is still located in the basement of the present administration building, said he hopes to move into the new building on Oct. 20.

The next move will be the cafeteria. Michael A. Chrystal of the administrator's office said he hopes the cafeteria will open for business in the new building next Monday.

County communications, headed by John H. Atkinson, may move in late this month, said Chrystal. The rest of the county departments will start moving when final inspections are completed on the $11.7 million structure and the new building is accepted by the county. He said the major moves are expected to start in November.

## Larkspur Council To Scan Insurance

## Four Members Of One Family Hurt In Wreck

Four members of a Novato family were injured in a hit-run collision on Highway 101 yesterday which then caused a two-car accident seconds later, the California Highway Patrol said today.

Treated at Kaiser Foundation Hospital in Terra Linda were Helmut Franz Greb, 34, of 2013 Feliz Road, for multiple scrapes; Hedwig Greb, 34, for multiple scrapes and bruises; Udo H. Greb, 11, for a scraped collarbone; and Kerstin A. Greb, 7, for a scraped mouth.

The highway partol said the Greb car hit the rear of the hit-run car when it cut in front of the Novato family's vehicle on northbound Highway 101 near the Corte Madera overpass.

The collision caused the Greb car to spin out and when it came to a stop. It was hit by a car driven by Virginia M. Parker, 19, of 107 Marion Avenue, Sausalito. Her car then caromed into a car driven by James Dillard Wells, 41, of Ukiah, who had stopped because of the first collision, the partol said.

## Boy Treated In Car Wrecks

A 12-year-old Terra Linda boy was treated at Kaiser Foundation Hospital yesterday after his father's car was involved in a three-car accident on the Manuel T. Freitas Parkway near Del Presidio Boulevard.

Geoffrey J. Mack of 945 Las Avejas, suffered a bump on his head.

The California Highway Patril said a car driven by Joanne Elkin, 20, of 644 Tanbark Terrace, San Rafael, hit the rear of one driven by Julian Williams Mack II, 46, who had stopped for a red light. His car was knocked into one driven by Philip David Harrison of 1147 Butterfield Road, San Anselmo, who also was stopped.

The patrol said Miss Elkin's sandal caught on the accelerator and she was unable to stop.

## Injuries Minor To Driver In Accident

John D. Pantels, 30, of Sonoma, sustained minor injuries about 5:30 a.m. Saturday when his car ran off the roadway and struck a power pole on Highway 37 just north of the Highway 101 intersection.

Pantels, who apparently fell asleep at the wheel according to the California Highway Patrol, was treated at Hillcrest Hospital for cuts on his knee and forehead.

## Panel To Be Formed On School Finances

Creation of a committee to study Ross School District finances will go before the district board in an adjourned meeting at 8 p.m. today in the Ross School library.

The board will decide on the scope and organization of the special committee and when it should report back.

# Redwood Downs Novato Eleven

By GARY TISCHLER

A tremendous time-using Redwood running game and a case of the disappearing Novato passing game helped Redwood High School to a 12-7 victory over Novato at Tamalpais High School Saturday afternoon in the Marin County Athletic League grid opener for both teams, watched by some fairly rabid 1,000 fans.

Redwood, piling up 201 yards rushing, used two second-quarter touchdowns to get all the scoring it needed as a fired-up defense put Novato under wraps in a scoreless second half.

The Giants unveiled a powerful sophomore fullback before MCAL eyes, using big (6-3, 190-pound) (Oh) Jay Lehman extensively for the first time this season. The big soph came through, racking up 87 yards rushing and scoring the Giants game-winning touchdown on an eight-yard power-sweep.

Mike Farley, who gained 57 yards rushing, scored the Giants' first touchdown, a 16-yard blast up the middle.

Novato appeared set to throw the Giants' out of the stadium, as sophomore Marty Moroski led a slick-moving passing game that resulted in the Hornets completing their first five passes for 92 yards and one touchdown, a 19-yarder from Moroski Judnick that gave the Hornets a 7-0 lead.

They never had it that good again. A tough Redwood defense, led by tackles Tom Wickert and Ross Gondak, and defensive halfback Bob Piper and linebacker Rick Puccinelli, shut them out the rest of the way, coming in with three interceptions as Novato finished with a 10-25 showing in the passing department.

The Redwood ground game, although dominating the second half, failed to score, but ate up enough yardage and time to keep Novato from too many opportunities.

The Hornets fell despite a brilliant defensive game by all-league linebacker Dave Perron and Lynn Merritt at defensive end.

## BOWLING TIPS

By DON CARTER

The fingers should be in a position to lift the ball up to the very last instant, so that as you follow-through, the ball will slide off because of the law of gravity. Therefore, be absolutely certain that your thumb is not riding alongside the ball, for that will mean the fingers are doing likewise.

# Terra Linda Crushes Castlemont

Terra Linda High School combined Tom Jackson's pinpoint passing and the all around brilliance of Bob Daniele with a doomsday defense to crush Castlemont High of Oakland, 21 to 0, Saturday night at San Rafael High School's field.

A crowd of nearly 1,000 turned out to see the Trojans in their final pre-league game. They were not dissappointed.

The Trojans got the only necessary touchdown midway through the first quarter, after Daniele returned a punt 26 yards to the Castlemont 43-yard line.

Three running plays gained 17 yards, and then Jackson fired a 20-yard strike to Daniele, good to the Knight's four. From there John Scozzafava took it in.

Jackson, who hit on 7 of 11 attempts for 117 yards, accounted for the final score with touchdown passes of 45 and 26 yards. The long bomb went to Daniele, who caught three passes for 75 yards, ran the ball twice for 18, and in general made the Knights wish they'd stayed in Oakland.

The Terra Linda defense was rock-solid as it held the Knights to only 70 total yards, and did not allow them inside the Trojan 25 yard line.

## MARIN LEAGUE VICTORY

# San Marin Stuns Tamalpais

By DAVE EINSTEIN

The San Marin Mustangs recovered from a slow start to defeat Tamalpais 28-13 Saturday in the opening Marin County Athletic League game for both high school teams.

Behind 13-7 at halftime, the Mustangs dominated the rest of the game, with Steve Lambert scoring three times to give the young school its first victory ever in varsity competition.

The first half belonged to the Indians, who scored the first time they got the ball. The drive took 10 plays and covered 71 yards. Billy Washington got the touchdown on a 38 yard burst through the middle.

Quarterback Ken Gnoss brought the Mustangs right back on a 73-yard scoring march and capped it with a four-yard keeper.

After the ensuing kickoff, Tam went nowhere, but then the Mustangs made a costly mistake. The Indians punted, San Marin touched it unintentionally, and Tam got the ball back on the Mustangs' 21 yard line. Five plays later Mark Costello bulled over from the three to make it 13-7.

That was the ball game for Tam. The Mustangs went ahead early in the third period on Lambert's three-yard run and Urbano Boucsiequez's conversion, his second on a perfect 4 and 4 day. In the final period Lambert ran an instant replay of his first score, and finished up by dashing 45 yards in the last minute and a half.

In the game's final minutes the Indians resorted to a shotgun offense, with Mike Johnson, a guard who happens to be able to throw the ball, taking over at quarterback.

Earlier the San Marin J.V. team shutout Tam 26-0.

# Tomales Triumphs By 34-0

Tomales High School came up with a one-two-three offensive punch and a stifling defense Saturday to smother Emery High School of Emeryville, 34-0, before some 500 fans at San Rafael Military Academy.

The triple offensive threat turned out to be the passing of Dennis Rodoni and the running of Ron Petroni and Axel Anderson.

Rodoni completed seven of 14 passes for 151 yards, and two touchdowns scored once on a seven-yard run and passed for a pair of conversions while Anderson led all rushers with 152 yards in 14 carries. One of his runs went 70 yards for a touchdown.

Petroni rolled up 107 yards in nine carries and scored on a 41-yard screen pass from Rodoni.

Tomales now has a 2-1 season record, winning its second straight game after an opening game one-point loss to El Molino of Forrestville.

# Sonoma State Wins First Football Tilt

There isn't much room in air filled with penalty flags for a quarterback to throw a pass, but Sonoma State College signal caller Bill Cox threaded the Red Cloths perfectly Saturday afternoon as he threw for two touchdowns to lead the Cossacks to the first football win in the school's history, a 21-7 triumph over the Hayward State JV's.

Cox twice hit split end Dave Dohn for touchdowns in a first quarter filled with penalties on both sides. Hayward State had a pair of touchdowns called back because of penalties and the Cossacks lost one when officials said half back Herm Manuel stepped out of bounds midway through a 70-yard scoring sweep.

79-YARDER

Cox hit Dohn for the first time with 6:31 gone in the game on a play that went 79 yards. Tom Hickman booted the extra point.

Hayward took the kickoff and marched 41 yards to the Cossack seven yard line before SSC halfback Bob Sears Novato High School grad, pounced on a fumble to halt the drive.

Sonoma State, playing intercollegiate football for the first year, moved to its 40 before half back Chris Alvarado fumbled it away, but the Cossacks got it back three plays later when Mark Setterland jumped on a Hayward fumble.

14-0 LEAD

This time Dohn grabbed a 25-yard scoring pass from Cox — the entire SSC touchdown drive — the Hickman kicked the PAT for 14-0.

Hayward finally mounted a successful drive late in the first half, scoring on a 23 yard pass from Will Ergas to Wes Jackson.

The second half was a defensive game highlighted by numerous goal lines stands on both sides, with the Cossacks scoring the lone touchdown on Alvarado's one-yard run in the final frame.

Sonoma State was penalized 105 yards in the contest, Hayward 95 yards. Most of the penalties were in Hayward State JV

# Stan Smith Walks Off With Berkeley Net Title

BERKELEY (UPI)—Upsetting Arthur Ashe apparently took a lot out of U.S. Davis Cup player Cliff Richey.

After scrambling to beat the nation's top-ranked tennis player 9-11, 6-4, 6-4 Saturday, Richey was able to offer only token opposition yesterday to Davis Cup teammate Stan Smith of Pasadena. Smith overpowered Richey on serves and at the net to win the singles title of the $20,000 Pacific Coast International Tennis championships 6-2, 6-3.

Smith also teamed with Thomaz Koch of Brazil to defeat Australia's Terry Addison and Ray Keldie 6-1, 6-3 for the doubles crown. That brought Smith a total of $4,600 in prize money.

Richey, the battler from San Angelo, Tex., won $2,000. His stunning victory over the fault-ridden Ashe was his first in seven meetings with the lanky insurance man.

As he came back yesterday to down Koch 8-6 in a pro set and pick up $1,100.

Mrs. Margaret Court of Australia dominated woman's play. She whipped Winnie Shaw of Scotland 6-4, 5-7, 6-0 to take the woman's single and $1,000. Mrs. Court and Leslie Hunt of Australia then defeated Kerry Harris of Australia and Miss Shaw 6-3, 6-4 for the doubles title.

Can religion solve all the problems of the world?

PHOTO BY HAROLD HALMA

Can religion solve any of them?

There are people who say "religion" is as out of touch with the times as the dinosaur. And about as useful. After all, how has "religion" solved the problems of our cities, the agony of war, our racial strife, the seeming chasm between the young and the old? Indeed, what *should* we expect "religion" to be able to do in solving the very real problems of our time?
To take just the example of our troubled cities—churches and synagogues have not a fraction of the material resources needed to heal the wounds.
It's as simple as that.
But have they *failed*, if they point the moral way, provide the moral resolve, and, of course, assist materially to the limit of their resources? "Religion," indeed, cannot fail—nor, for that matter, succeed—because "religion" is merely a word. What gives "religion" meaning and force is you. And everyone who cares enough for God to show God's love in the world. Every day. Everywhere. For the problems that beset our world are not proof that God has failed Man.
But just the opposite.

NFL ROUNDUP

# Cowboys, Rams Stay Unbeaten

By U.P. INTERNATIONAL

The Dallas Cowboys and the Los Angeles Rams won their third National Football League games yesterday without a loss but two other teams fell from the unbeaten ranks.

Craig Morton threw three touchdowns and got magnificent support from rookie back Calvin Hill, who played only in the first half, in leading the Cowboys to a 38-7 late-starting rout of Philadelphia.

Roman Gabriel threw four TD strikes while providing the Rams a 36-17 triumph over New Orleans.

**FIRST LOSS**

The Detroit Lions gave Cleveland its first loss, pinning the Browns, 28-21, and Minnesota upended previously unbeaten Green Bay, 19-7.

In the other NFL games yesterday, Jim Duncan's 92-yard kickoff return inspired the Baltimore Colts to a 21-14 victory over the Atlanta Falcons, Fran Tarkenton threw four touchdown passes in a last-minute 28-24 victory for the New York Giants over the Chicago Bears, the St. Louis Cardinals beat the error-prone Pittsburgh Steelers, 27-14, and Sonny Jurgensen gave the Washington Redskins a 17-17 tie with the San Francisco 49ers by throwing a four-yard TD pass in the last half-minute.

**DALLAS LEADS**

The results left Dallas atop the NFL's Capitol Division with a 3-0 mark, with the Redskins second at 1-1-1. Los Angeles' 3-0 mark heads the Coastal Division, ahead of Atlanta and Baltimore, who are even at 1-2.

Cleveland, St. Louis and New York all are tied for the Century lead with 2-1 marks and Minnesota, Detroit and Green Bay are deadlocked for the Central lead with 2-1 records.

In Dallas' victory, Hill ran 53 yards for one touchdown, added 38 more rushing yards, caught three passes for 71 yards and threw a 42-yard pass—all in the first half, before retiring to the bench with a minor foot bruise. Morton completed 14 of 18 passes for 261 yards.

Three of Gabriel's touchdown tosses were to Jack Snow—from 35, 24 and 74 yards—and the other was to Bill Truax, from one yard away.

# Namath Even Surprises Weeb

By UP INTERNATIONAL

Joe Namath's heartening deeds sometimes cause cardiac arrest among his coaches.

Namath, one of professional sport's most courageous athletes, pulled a surprise maneuver against the Boston Patriots yesterday which clinched a 23-14 victory for the New York Jets and left head coach Weeb Ewbank in a near state of shock.

**FROM FOUR**

The play occurred in the third quarter with the ball on the Patriots' four-yard line and the Jets leading, 10-7. It was a third and goal situation, and the Patriots were guarding against both a run and a pass. But Namath, ignoring his much-publicized aching knees, rolled to his left and beat a pack of recovering defenders with a headlong dive over the goal line.

Namath, who got into his own touchdown range with his passing, also connected on a 10-yard touchdown pass to Pete Lammons in the second quarter and set up field goals of 17, 24 and 16 yards by Jim Turner. Namath completed 15 of 21 passes for 145 yards in helping the Jets even their record at 2-2.

In other American Football League action yesterday Houston beat Buffalo, 28-14, and Kansas City beat Buffalo, 28-14, and Kansas City whipped Denver, 26-13. In Saturday night games, San Diego topped Cincinnati, 21-14, and Oakland and Miami played to a 20-20 tie.

The Oilers, who won their third game in four starts, held Buffalo's O. J. Simpson to just 27 yards in 13 carries in handing the Bills their third loss against one victory.

Jan Stenerud booted four field goals and Jim Kearney returned an intercepted pass 60 yards for a touchdown as the Chiefs won for the third time in four outings. Third-string quarterback Mike Livingston, starting in place of the injured Len Dawson and Jacky Lee, turned in a fine game for the Chiefs with 14 completions in 27 attempts for 214 yards.

Fullback Brad Hubbert ran for three touchdowns, the last breaking a fourth quarter tie, as the Chargers knocked the Bengals out of first place in the Western Division Saturday night. Hubbert's one-yard run at 9:55 of the final period proved decisive and came after he had scampered 24 yards on the previous play.

## Wild Time, Seals Lose

BUFFALO, N.Y. (AP) — The Buffalo Bisons of the American Hockey League defeated the Oakland Seals of the National League 5-1 yesterday in an exhibition game marred by a disturbance among spectators.

Fans tried to grab Fred Glover, Oakland coach, as he walked to his team's room between the second and third periods. In the resulting commotion, a spectator was injured. He was treated on the scene by the Buffalo team physician and sent to a local hospital.

# Tie Leaves Raiders On Top In Standings

MIAMI (AP) — The Oakland Raiders have taken sole possession of first place in the American Football League's tightened-up Western Division standings, but their winning streak is ended.

After three straight victories, they were held to a 20-20 tie Saturday night by winless Miami on a 39-yard field goal by the Dolphins' Karl Kremser with 5:41 left in the game.

The Oakland defense tried to help win it as interceptions by George Atkinson and Bill Laskey set up both Raider touchdowns. The first came on a 15-yard pass from Daryle Lamonica to Warren Wells. The second was a seven-yard toss from Lamonica to Fred Biletnikoff.

A missed play in the third quarter became a big factor in retrospect as the Dolphins came from behind for the tie. George Blanda attempted an 18-yard field goal from a difficult angle and the ball hit the right goal post.

Blanda, whose booting has been a big factor in Raider scoring, missed another from 32 yards, but he also made two and the first extended his consecutive scoring string to 46 games—an AFL record.

A surprisingly strong Dolphin defense held the Oakland running game — the league's most productive — to just 74 yards. Charlie Smith gained 50 yards in 11 carries.

In the air, Lamonica completed 19 of 43 passes for 215 yards and had one intercepted.

After Oakland went ahead 3-0 on Blanda's record-making kick Miami scored 10 points in less than three minutes in the first quarter.

The first tally was a 29-yard field goal by Kremser. On the ensuing kickoff, Jackie Allen fumbled and the Dolphins moved close enough for a nine-yard scoring pass from Bob Griese to Karl Noonan.

# USC, Stanford In Biggie

A matching of mighty offenses takes place at the Los Angeles Coliseum Saturday night when unbeaten Southern California and Stanford collide in a Pacific 8 Conference football game.

Southern Cal, seeking a fourth Pac-8 crown, won its first conference game at Oregon State 31-7 Saturday, piling up 390 yards. Sophomore Jimmy Jones threw three touchdown passes, and halfback Clarence Davis carried 181 yards in 29 tries.

A one-point setback at Purdue kept Stanford from matching the Trojans' 3-0 record. Mike Phipps hit for five touchdown passes in leading the Boilermakers to a 36-35 victory over the Indians who amassed 586 offensive yards.

UCLA, unbeaten in four outings, travels to Spokane Saturday to meet Washington State, 1-2.

Washington, which has lost all three of its starts, plays at California Saturday afternoon in the conference opener for both.

Oregon State is idle and Oregon is host to San Jose State in a non-conference tilt.

In handing Northwestern a 36-0 drubbing at Evanston Saturday, UCLA showed impressive power. Like Southern Cal and Stanford, UCLA has a 1-0 record in the conference.

Mickey Cureton ran 61 and 75 yards for two of the Bruins' touchdowns, both in the second half. UCLA scored 26 of its points after an intermission scolding by Coach Tommy Prothro.

Ohio State's National champions had too many guns for Washington's Huskies in Seattle Saturday, winning 41-14.

Washington State missed tries for two-point conversions twice in the final quarter Saturday in losing 25-24 to Oregon, which is 1-1 in the Pac-8 and 2-2 over all.

The Ducks moved into a 25-6 lead by the third quarer, with Bobby Moore running two into payoff territory. Then the Cougars came alive, Jack Wigmore scoring twice on short runs in the last eight minutes.

California needed a late rally to overcome Rice 31-21 for the Bears' second victory against one loss.

Steve Curtis, reserve quarterback until this week, lobbed a 19-yard toss to end Jim Calkins in the end zone with 53 seconds left to put the Bears back in the lead. Seconds later, Paul Martyr intercepted a pass by Stahle Vincent and ran 30 yards for the final Cal score.

## ALMANAC

Today is Monday Oct. 6, the 279th day of 1969 with 86 to follow.

**The moon is between its last quarter and new phase. The morning stars are Mercury, Venus and Saturn. The evening stars are Mars and Jupiter.**

On this day in history:

In 1853 Antioch College opened its doors in Yellow Springs, Ohio, becoming the first non-sectarian school to grant equal opportunities for both men and women.

In 1921 sports writer Grantland Rice was at the microphone as the world series was broadcast for the first time.

In 1954 Italy, Yugoslavia, the United States and Britain signed a pact settling the partition of Trieste.

In 1961 it was revealed that House Speaker Sam Rayburn had cancer from which he died.

**A thought for the day: George Meredith said, "Who rises from prayer a better man, his prayer is answered."**

## California's New License Plates Due

SACRAMENTO (AP) — The first of California's blue and gold license plates are being issued at the Capitol today.

They have a new look — as well as a new color. The numbers will precede the letters, a reversal of the procedure now used in the present black and gold plates.

## Easy To Err

HONOLULU (UPI) — The trash cans at the main post office are now marked "Deposit trash." The old label, "Deposit litter," was changed because too many people were putting letters in the cans.

## Childhood Lessons Pay Off In Recent Bridge Tourney

The lessons you learn at your father's knee stand you in good stead when you go out into the cruel world. Jack Benny taught his daughter Joan not to give too much away; and now, as Mrs. Robert Blumeofe, wife of the movie producer, she plays in an occasional bridge tournament and displays a keen sense of thrift.

**TO DUMMY KING**

West's club lead went to dummy's king, and Mrs. Blumeofe led the ten of spades from dummy for a finesse. West won with the queen of spades and returned the deuce of clubs to dummy's ace. It was now clear that West had started with a five-card club suit.

Declarer won a finesse with the nine of spades and took two more spade tricks. West and dummy discarded diamonds, and East threw the deuce of hearts.

**SPLIT ACES**

By this time it was fairly clear that the red aces were split. If Mrs. Blumeofe went after the hearts first, she would eventually have to lead clubs or diamonds from her own hand with very unthrifty results. She therefore tackled the diamonds first, aiming to exhaust West's diamonds and force him to lead clubs at the end of the hand.

Declarer led a low diamond to dummy's queen, and East took the ace of diamonds and returned a diamond to the king. South led a low heart to dummy's queen and returned a heart for a finesse with the ten.

**FRUGAL PLAY**

West could take the ace and jack of hearts but then had to lead clubs from the queen-ten, allowing declarer to take her eighth trick with the jack of clubs. The whole performance — the cautious contract and the frugal play — were a credit to her father's teaching.

## Hayakawa Warns Not To Shun Issue

BURLINGAME (UPI) — San Francisco State College president S. I. Hayakawa of Mill Valley told a Democratic dinner audience Friday that Republicans should not be allowed to claim "law and order" as an issue of their very own.

"One of the great mistakes of the Democratic Party is to allow law and order to fall into right wing hands," he said.

# Speculative Interest In Pioneer's Uranium Holdings

By ROGER E. SPEAR

**Q. I would like to average down the cost of my shares of Pioneer Natural Gas. Shares are almost 10 points below my cost after a drop in earnings resulting from unfavorable weather conditions. Would my plan be prudent? — J. H.**

A. Aside from natural-gas sales which contributed 88 per cent of 1968's revenues, Pioneer has branched out into a number of other potentially profitable areas. Two subsidiaries, Amarillo Oil and Pioneer Production, are active in exploration, drilling and production of oil and gas.

These subsidiaries successfully brought in 11 oil wells and 10 gas wells during the first six months of 1969. The company produces about 20 per cent of its own natural gas requirements. Perhaps the most interesting aspect of Pioneer's operations is its uranium exploration program.

Lease-hold interest is held in about 400,000 acres in Texas, Colorado, New Mexico, Utah and Wyoming. Ore reserves are estimated to contain over 4 million pounds of uranium oxide but only 15 per cent of company-held acreage has been thoroughly explored.

Pioneer, with a partner, is planning the construction of a 1,000-ton-per-day uranium mill. Demand for uranium is expected to grow rapidly after 1972 when several nuclear-fueled power generators go on stream. Earnings recovery should be more apparent in 1970, when benefits from rate increases and several new industrial customers will be fully realized. Averaging down in this issue is warranted.

**Q. I am interested in a mutual fund for income and safety. Looking over comparative data it seems to me that Puritan Fund fits my objectives. Do you have any comments? — M. B.**

A. In addition to meeting your stated goals, Puritan Fund has performed well in the five years ending 1968, moving ahead an adequate 82 per cent. In the first seven months this year net asset value had declined slightly more than the Dow average. Holdings include bonds and preferreds, 24 per cent, and common stock, 69 per cent. Puritan yielding more than 4.5 per cent at recent depressed levels is in an excellent buy range.

## A Successor To Burned Out San Rafael Tire And Brake

A new San Rafael firm, **Deming and Granger,** which has established a temporary shop at 44 Woodland Avenue and an office at 585 Irwin Street, is projected by its owners, **Scott Deming** and **Harold (Hal) Granger,** as a successor to the former San Rafael Tire and Brake, destroyed by fire last July.

Deming operates **Carlo's Transmission Service** at 585 Irwin. Granger was shop manager for San Rafael Tire and Brake before it burned down. They plan on constructing a new 6,000-square-foot building next to Carlo's for their permanent location, which will house a complete tire, brake and front end shop and offer truck fleet service. When completed, this will be opened with some of the former employees of San Rafael Tire and Brake.

Deming Granger

They have taken on Goodyear tires and say they now have the only Goodyear franchise in San Rafael.

Deming was recently elected president of the Automotive Transmission Rebuilders Association, a national organization. He will continue to operate Carlo's Transmission Service.

**A NEW STORE** at 364 San Anselmo Avenue, San Anselmo, is **Bizarre Bazaar,** a flower, gift and candle shop located across the street from the old Post Office.

This is operated by **Ronald Bisson,** now living in San Rafael, and is a removal from 3423 Balboa Street in San Francisco. He is the son of Bill S. Bisson of San Rafael, co-owner of Bill and Adolph's West End Villa, and also works at the restaurant in the evening as a waiter.

He is responsible for most of the decorative work at West End Villa and is known for his creative designs in floral arrangements.

Hours at Bizarre Bazaar are from 10:30 a.m. to 5 p.m. Tuesdays through Saturdays. Closed Sundays and Mondays.

**THE F. W. WOOLWORTH STORE** at 145 Petaluma Boulevard North in Petaluma is celebrating its 50th anniversary with special sales and activities through Wednesday.

Store manager **Gary Johnson** worked at the San Rafael store in 1965.

**FORMER SAN RAFAEL RESIDENT Harry F. Waste,** now living in San Francisco, a Bechtel Corp. vice president, has been elected a senior vice president of **Canadian Bechtel, Ltd.** He assumes responsibility of the pipeline and production service division in Canada as well as key projects in North America.

# HOW TO KEEP WELL

By DR. THEODORE R. VAN DELLEN

## Tracheotomy Sometimes Needed To Prevent Fatal Strangling

VAN DELLEN

Several years ago a physician attending a convention went to bed early because of a chest cold. The thick sputum was tenacious and difficult to bring up. He coughed and a large piece of mucus lodged in his throat.

Within a few moments, the man became desperate because he could not get air into his lungs to force out the plug of mucus. The doctor was about to strangulate.

**HE DECIDED** that his only chance was to make an opening in the windpipe (tracheotomy) just below the Adam's apple. As he reached for his pocket knife on the dresser, the plug moved and he was able to get enough air into his lungs to expel it.

Another minute and he would have lost consciousness and died.

**TRACHEOTOMY** is indicated whenever there is an obstruction in the windpipe at or above the level of the voice box. For example, when a large piece of meat or a foreign body is stuck in the back of the throat and cannot be dislodged.

Following the procedure the victim breathes as usual except that the air enters via a hole in the neck instead of through the nose and mouth. During an emergency, it is done with make-shift equipment.

Most tracheotomies are done in the operating room to circumvent an obstruction due to cancer of the larynx or the swelling from an allergy, infection, or injury. A special curved tracheal tube is inserted into the windpipe and strapped in place.

**THE OPERATION** also is done when, for one reason or another, the individual cannot raise secretions from the lungs. It provides an easy way to suck mucas from the lungs.

Some of these persons cannot cough because of a paralysis of the diaphragm and chest muscles. Unless the material is removed via tracheotomy, the individual virtually drowns in his own secretions.

### CRACKED TOES

B. B. writes: I was shocked when I recently noticed that my 15-year-old son's big toes are bent in middle. The toes do not lie flat and the joint seems to be sticking up too high. Is this hammertoe?

REPLY

Hammertoe usually involves the second digit altho any toe can be affected. Take the young man to your physician who will make the diagnosis.

### LOCKJAW PROTECTION

B. I. writes: Why do pediatricians give infants shots against tetanus?

REPLY

Tetanus toxoid is administered during infancy to build up immunity against a disease that is not common but is most serious when it occurs. Children are exposed to the infection more often than adults because of the numerous cuts and bruises they sustain during play. Lockjaw can be contracted in other ways besides stepping on a rusty nail.

### LUMINOUS DIAL

K. S. writes: Does wearing a watch with a radium dial harm the wrist?

REPLY

No. The amount of radiation given off is infinitesimal, altho it is said to be variable. The only objection is that it adds to the small amounts of radiation received from natural sources in soil and in the air.

### SEPARATION NAUSEA

Mrs. J. S. writes: Why does a healthy 5-year-old girl become nauseated riding in the bus to school but not on the return trip?

REPLY

Because of anxiety caused by being separated from her mother.

**Today's Health Hint** — Foot pain may be relieved by wearing corrective shoes.

The first American-built automobile, made by Charles Duryea, was known as a "buggy-aut."

## TELEVISION IN REVIEW

# Gleason Returns Stronger Than Ever

By RICK DU BROW

HOLLYWOOD (UPI)—Jackie Gleason's weekend CBS-TV series is operating at maximum efficiency—with high-powered attractions—in facing the new head-on competition of NBC-TV's Andy Williams.

NBC-TV's intention with Williams was to try to knock off the great Gleason, who has owned the early Saturday night audience for some time. And although it is still early in the season, the indications are that Gleason's popularity is still as strong as ever—maybe stronger.

Not only is Art Carney back with Gleason as they continue to be the best comedy team in American show business today, but their adventures in "The Honeymooners" sketches—now expanded to full musical hours—have been given a fresh location after their fictitious winning of a trip to Hollywood.

Furthermore, the Gleason camp, perhaps because of the Williams competition, has muscled up on major guest stars for "The Honeymooners"—with Bing Crosby and Maureen O'Hara participating this past weekend, and Carol Lawrence and the Baja Marimba Band appearing this coming Sunday in an episode set in Mexico.

On top of all this, Gleason startled his season premier audience several weekends ago by showing up minus much of that excess weight he used to carry around. He may have to sacrifice the fat jokes, and we may be a little nostalgic for that lovable rotund character we once knew—but he looks smashing, his comedy certainly hasn't suffered any, and those of us who have grown fond of him will certainly be happy that he is surely healthier.

On his season premier, Gleason outpointed Williams, who had a week head start on him, by a tremendous margin in the ratings. This was not exactly a fair assessment of their relative strength, because apparently one quarter of Williams' show was obliterated from Boston to Denver by the latter part of an NBC-TV baseball game between the Los Angeles Dodgers and San Francisco Giants. Nevertheless, Gleason figures to remain a ratings power.

And, in his competition with Williams, he has a singular unspoken asset guaranteed to aid these ratings. This asset, put simply, is the affection of Gleason's audience for him. And the reason for this audience feeling is that when we watch Gleason, we know exactly who he is, what he stands for—and how honest he is in his approach to what he thinks entertainment ought to be.

It is one thing to be admired. A lot of performers are admired. But when a performer has earned affection as well as audience admiration, he is at the top of the game.

## Center Plans Park, Area For Children

New projects are in the offing for the Corte Madera Shopping Center, according to Hollie Smith, manager of the center's merchants' council.

Plans are underfoot to add some greenbelt to the center, through the cooperative efforts of Walter Schorenstein, owner of the center; Al Czyzewski, leasing agent of Milton Meyer Co., and Richard G. Burns, president of the council.

Smith says that a vacant lot at the center complex is due to be turned into a park-like area with grass, shrubbery, benches, and some play equipment.

Another, small enclosed area will be renovated to become a Kiddie Korral, where parents can leave small children under supervised care.

The plans are being made by center officials to offer Marin shoppers a more pleasant atmosphere as they take advantage of the services and facilities provided by the Corte Madera Shopping Center.

## Texas Crane Toll

# TOMORROW NIGHT IS MOONLIGHT MADNESS

Moonlight Madness will hit the Corte Madera Shopping Center tomorrow, as all merchants join together to offer fabulous buys during the big October sale.

This lunar lunacy that strikes the center each year affects the merchants with give-away instincts. The participating stores' employees will don night caps, night shirts, and slippers to add a touch of silliness to the atmosphere.

It's one of the center's largest sales, with once a-year savings for shopper's families and homes.

Special store hours are scheduled for the event. All stores will be closed from 5:30 to 7 p.m., when they will reopen until 9 p.m.

# Aquanauts Eager To Try Larger Sea Tests

NEW YORK (UPI)—While millions of Americans are gazing upwards toward the moon, where such a short time ago man took his "one small step," a group of marine scientists has its sights set in the opposite direction—toward the depths of the ocean.

The aquanauts who surfaced last April 15 after a 60-day sojourn under Caribbean waters are ready to submerge again. The target date: January or February, 1970.

NOT ENOUGH

"Sixty days is simply not enough," insisted Richard A. Waller, the intense, compact oceanographer who headed that "Project Tektite I" in Beehive Cove, Port Lameshur Bay, off the U.S. Virgin Islands last spring.

"That 60 days living and experimenting under water was simply a one-shot deal, and scientific research is not conducted like that," he told UPI on a recent rushed visit to New York.

So Waller, a scientist with the Department of Interior, is heading up an inter-agency task force that will study the cost of a second Tektite project with the hopes of winning a go-ahead signal for it, possibly this month.

Represented on the task force are the Department of Interior, the National Aeronautics and Space Administration (NASA), the Navy, the Smithsonian Institution and the National Sciences Foundation.

They are scheduled to report on their findings to the inter-agency steering committee on Sept. 12. "And if the price is right, it looks like we'll get approval to start the project in early 1970," Waller said.

SEVERAL TEAMS

The scientist estimates the project—planned to last six months this time—will cost about $2.5 million in all.

Unlike Tektite I, which set a record for living underwater, Tektite II will employ six or seven teams of a total of 40 to 45 marine scientists who will conduct their experiments underwater for from two to four weeks at a time, Waller said.

The inter-department cooperation is a key to the success of the continued underwater research project, he emphasized, since unlike the space program Tektite will probably not make banner headlines.

"There probably won't be a dramatic breakthrough in oceanography like there was in the space program," he said. "It's a building block type of thing . . . just continually adding to what we think we already know and finally reaching some level of proficiency where we can make some predictions."

Tektite I was financed by the Office of Naval Planning, with the help of the Department of Interior, NASA and the General Electric Company. And while Waller thinks the Navy did "a very good job," it's his own department, Interior, he is counting on to provide the biggest support.

NAVY NOT ENOUGH

"Lots of people think the Navy is going to develop all the technology necessary to do scientific research on the continental shelf and deeper. It's simply not going to happen . . . it's fantasy to think we are going to get what we need from the Navy's efforts," he said.

It was the Navy that invested $10 million in the ill-fated Sealab project on the West Coast, which was halted abruptly after the mysterious death of an aquanaut in February and a series of problems with the capsule in which the aquanaut was to have lived with eight other Marines 600 feet under Pacific waters.

The Department of Interior's interest in marine research was evidenced by Secretary Walter J. Hickel.

"I think their accomplishment is ample proof that Interior is serious about developing the resources of the ocean floor; that this is not a conservative, old line department which has no interest in new ideas and techniques as some people have said in the past," Hickel said at the ceremonies before Vice President Spiro T. Agnew.

**AN OCTOBER TRADITION**

The hills of Brown County in Indiana present a rustic autumn setting for the area's traditional October activity — making sorghum. As old Dobbin patiently plods in wooden harness, sugar cane stacked in foreground is fed into the press. The resulting sap runs through underground pipes to boiling vats at the Wayne White sorghum mill. (UPI Telephoto)

# River Kwai Span Almost Forgotten

KANCHANABURI, Thailand (UPI)—A few miles west of this peaceful province capital in central Thailand lies the scene of one of the most dramatic stories to come out of World War II, the infamous bridge across the River Kwai.

There isn't much left there today to mark the savagery and heroism of the 125,000 or more allied prisoners and coolie laborers who slaved to build Japan's "Death Railway" to Burma.

All that remains is a cemetery with 7,000 graves, and a Japanese monument exhorting the "Men of Southeast Asia" to "strive together to throw off the yoke of white imperialist devils" and build a new life for themselves by winning the war.

**HAUNTING MEMORIES**

In the bed of the stream you can still see the concrete pilings of the original River Kwai bridge.It was bombed into oblivion by Allied planes shortly after the railway was completed in 1944.

The new bridge, several hundred yards upstream, is a cement-and-iron trestle that spans the stream and shoots a pair of rusty iron tracks off into the dense rain forest on the other side.

The original Kwai bridge, immortalized in a book by Pierre Boulle and a movie that starred Alec Guinness as a hard-nosed British colonel, served the same rail line.

**JAPANESE PROJECT**

The Japanese wanted a route by which they would be able to supply their Burma fighting front from their relatively secure bases in Thailand. They chose to build a railway up the Kwai Valley and across the Three Pagodas Pass on the mountainous border, thence down to Moulmein.

To build it, they mobilized an estimated 25,000 British, Australian, Dutch and American prisoners of war, and about 100,000 coolies.

Although prisoners of war cannot legally be required to work on enemy construction projects, the Japanese ignored the conventions and turned the railway into a massive slave labor project.

By the time the railway was finished, 16,000 allied prisoners and something like 100,000 coolies had died, from malnutrition, overwork, disease and Japanese bullets.

Today there is only the cemetery to remember them by. It is neat and well-tended with row on row of gravestones.

## Noisy Dog's Owner Gets Stiff Lesson

BALTIMORE (UPI)—Baltimore police take barking dog complaints seriously. After a number of calls from neighbors about a woman who let her dog bark, police zipped out to her house, arrested her, fingerprinted her and then locked her up for 12 hours. County official protested the action, but police said the woman had been warned several times about her noisy dog.

## Early College

LEXINGTON, Ky. (UPI)—Transylvania College, established in 1788, was the first institution of higher learning west of the Allegheny Mountains. It is now a university.

# Aerobatic Artist Lives In A Upside-Down World

RUBIDOUX (UPI) — The world of pilot Art Scholl is so topsy turvy he has lines on his cockpit canopy to tell up from down.

It is a world of G-forces equivalent to those experienced by astronauts during liftoff, and of trick flying at 200 miles an hour as low as five feet above the ground.

Is he concerned about his safety? "I'm very careful," Scholl replies. Does he wear a parachute? "Yes, but I fly too low to use it."

Art Scholl is one of the world's top acrobatic flyers. He competed for the U.S. Aerobatic Team in world competition in Moscow in 1966 and in East Germany in 1968. He plans on winning the national competition this fall in Fort Worth,

THE HAGUE (UPI)—Spending by government and local authorities on culture and recreation in Holland climbed from $178 million in 1966 to $251 million in 1968.

GREAT CASUAL COMPANION

Ready for comfort in the casual scene is this fall footwear style — a slightly square-toed slip-on with high-riding tongue and wide strap. It's smooth calfskin in a wide range of colors, punched with bold perfs and an antiqued metal buckle. It's available at Kramar's Shoes in the Corte Madera Center.

# Buckles and Boots — High Style For Women and Men

Buckles and boots are the fashion word in shoewear for men and women, according to Roger Green, new manager of the Thom McAn shoe store at the Corte Madera Shopping Center.

Color still keynotes fashion footwear for women, while mens' shoes are trending toward antique finishes, including gold.

"Thom McAn, a nation-wide shoe firm with a long deserved reputation for style and excellence, offers the discriminating shopper a fine selection of shoes for men, women and children — and at moderate prices for the budget conscious homemaker," Green says.

Attractive accessories available at the Corte Madera store include hosiery for all members of the family, slippers, and the latest styles in hand-bags.

Green, manager of the store since the middle of September, has been with the firm in Sacramento and Fresno, and has had prior experience with other shoe stores. A native of Ohio, he resided in Santa Rosa until he and his wife, Rosalie, established their home in Fairfax recently.

Butte County is his destination for recreational activities of hunting and fishing.

## Color TV In Spain

Formosa now has a population of more than a million and a half.

# Aerobatic Artist Lives In A Upside-Down World

Continued from Page S10

Tex., and hopes for a world title in England in 1970.

On the side, Scholl flies in about 50 air shows a year, many of which he organizes. He also runs an aerobatic school, films television commercials and teaches aeronautics at San Bernardino Valley College.

He flies out of a dusty, little field in this Southern California community 100 miles east of Los Angeles. There is no control tower to harangue him if he buzzes the landing strip at 150 miles an hour.

At age 37, the thin (5-feet-11, 150 pound), bespectacled pilot is no Red Baron, although he has flown the World War I German Fokker D7 in a number of films.

His tastes lean more toward white turtleneck sweaters and nylon windbreakers than to flying scarfs and leather jackets and to prescription sunglasses (no, they do not fall off when he flies upside down) instead of goggles. He has earned a master's degree and, during more than 4,000 hours of flying, has chalked up licenses for multi-engine, glider and instrument piloting, has beeen checked out in a Boing 707 jetliner.

Besides his anonymous work in movies and television, he was featured in a half-hour TV "The Crowd Above; The Sky Below."

If all this seems like a frenetic pace even for an "aerobat," it is. Scholl plows back nearly everything he makes into his red, white and blue "superchipmunk," modified and rebuilt at a cost of $40,000 from a DeHavilland "Chipmunk" trainer used by the Royal Canadian Air Force during World War II. He frankly admits he would like another $6,000 to buy a new Lycoming engine to replace the one he converted from a World War II target drone, purchased for $300.

There would have been little room for Scholl and his type of flying a decade ago in the United States. Competitive flying, particularly air racing, had a bad name as the result of a number of tragic accidents shortly after World War II in which pilots, spectators and others not involved in any way with the event were killed. But in the past several years, there has been a sharp growth in the general interest in stunt and race flying.

### Here is good news for folks who *don't drink!*

No longer need you pay the same rates for health insurance as those who *do* drink.

As everyone knows, abstainers are apt to have *fewer* accidents and illnesses. Why then should you, as a non-drinker, have to help pay the bills of those who *do* drink? We believe that this is unfair . . . and by offering the Gold Star $400.00-a-month Hospital Plan only to non-drinkers, we are able to pass the savings on to you!

### The wonderful Gold Star Plan . . .

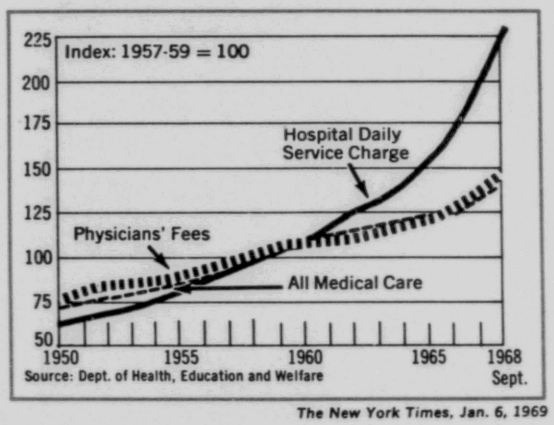
pays you $400.00-A-MONTH extra income whenever you are hospitalized—TO A MAXIMUM of $19,200.00 CASH. What a blessing it is when you know you have an extra $400.00 cash coming in every month — beginning the very first day you enter the hospital.

Now, Gold Star's low-cost plan for non-drinkers enables you to enjoy this protection at once. Because it will NOT cost you $20.00. It will NOT cost you $10.00—or even $5.00. Your low price is just $1 for the first month's coverage for your entire family.

After the first month, you may continue as long as you wish — your protection can never be cancelled no matter how old you become or how many claims you have! And that's not all. This Gold Star Total Abstainers Plan . . .

pays you $400.00-A-MONTH extra cash for a Registered Nurse at home—TO A MAXIMUM OF $4,800.00 CASH.

### Medical Costs Skyrocketing! Source: U.S. Dept. of Health, Education & Welfare



*The New York Times, Jan. 6, 1969*

Govt. figures reveal your present health protection . . . **may no longer protect you against today's rising medical costs!** Don't leave your loved ones defenseless! Act at once to add up to $19,200.00 to your health protection for only $1 for entire family.

Yes, in addition to the $400.00 monthly checks we send you during your hospital stay, we pay you an extra $400.00 a month if the doctor has you employ a full-time Registered Nurse to take care of you at home.

How comforting it is to know that—after your stay in the hospital, if you've been there five days or more, you can return home to recuperate and yet not be a burden to your loved ones. Yes, if your doctor has you employ a full-time Registered Nurse within 5 days after you come home, we'll send you checks for $400.00 a month during employment of the nurse—for as long as you were hospitalized —even for as long as 12 months. It's like having an extra cash reserve of $4,800.00 cash to draw on when you need it. Another exceptional feature you have with Gold Star...

**Pays you $400.00-A-MONTH extra cash Maternity Benefits for each hospital stay!**

Now, if both husband and wife are insured for the entire period of the pregnancy, you get extra cash to use any way you want. If a pregnancy, childbirth or even miscarriage puts the wife in the hospital for one day, five days—as long as necessary—you collect at the rate of $400.00 a month for every day of the confinement. In addition to all this, the Gold Star Plan . . .

**Pays you $240.00 A MONTH each time your child is hospitalized — AS MUCH AS $11,520.00 CASH!**

If you choose to have your children covered too, (for only $1.90 more a month) Gold Star will pay you to a maximum of $11,520.00 at the rate of $240.00 a month any time one of your youngsters goes to the hospital...for removal of tonsils, appendix, or any other illness or injury! Yes, you will receive $240.00 cash, month after month—for as many as 48 months, if necessary. This $11,520.00 extra cash benefit will apply to any future dependent children you may have, too — without any additional charge!

### Plus All These Added Cash Benefits.

**Added cash benefit:** To a maximum of $5,000.00 cash for loss of limbs or eyesight, when the loss results any time within 90 days of the accident.

**Added cash benefit:** Gold Star pays DOUBLE CASH when both husband and wife are hospitalized at same time for accidental injury. You receive not $400.00, but $800.00 a month. Your wife receives not $400.00, but $800.00 a month. That's $1,600.00 *in all, in cash payments for you and your spouse every month* while you both remain in the hospital...up to a maximum of $76,800.00 CASH over 48 full months.

### We pay your premiums when you are not able.

If you (the "main insured") are hospitalized just 6 weeks or more, all premiums that

**STILL MORE EXTRA CASH BENEFITS ON NEXT PAGE**

# Pays in addition to any other coverage you have so you may leave the hospital with extra cash

come due while you are still in the hospital after this period will be paid by Gold Star. And your protection continues as if you were paying the premiums yourself — FOR AS LONG AS 48 MONTHS per confinement! This means you pay no premiums that come due after six weeks in the hospital, yet your protection remains in force — *you still collect as much as $19,200 for each confinement!*

**THIS LIMITED ENROLLMENT OFFER ENDS SOON.**

**Only $1 for first month for entire family.**

You can now have your first month's protection for your entire family for only $1. But your request for this wonderful Extra Cash Plan must be mailed in the enclosed airmail reply envelope NOT LATER THAN MIDNIGHT of the date in the Enrollment Form on the back of this announcement. (That's just a few days from today!)

This midnight expiration hour cannot be extended. If your Form is mailed later, it cannot be accepted.

### Extra broad coverage with ONLY these exclusions.

Your Gold Star Policy covers every conceivable kind of sickness or accident except, of course, hospitalization caused by use of narcotics; any mental disease or disorder; act of war; where care is in a U.S. Government hospital; pregnancy, except as provided under the Maternity Benefit provision; or expenses resulting from any sickness or injury you had before the Effective Date of your Policy *(first 2 years only)*.

The last item is a real help if you *already* have a health problem. If you are sick *before* you take out this Policy you will be covered for a continuation of that condition after the Policy has been in effect for only 2 years.

### How can $1 buy so much?

You can buy ordinary insurance at any time and pay the regular rates if you wish. But Gold Star can now provide you with *$400.00-a-month tax-free income protection* for just $1 the first month for TWO big reasons: 1) We absolutely *refuse* to enroll folks who drink, because they are higher insurance risks! 2) We cut costs to the bone by enrolling a large number of non-drinkers, like yourself, at one time, *direct by mail*—and the savings are passed on to you!

### 65 or Over?

**You collect in addition to Medicare —EVEN AS MUCH AS $18,840.00 cash!**

Even though Medicare is a great boon to folks 65 or over, it will not pay *all* the bills that quickly pile up as a result of illness or accident. Gold Star has designed this Plan as the important addition to whatever is paid by Medicare.

Regardless of how much is taken care of by Medicare and all other health insurance you have, Gold Star pays you cash benefits beginning at the rate of $280.00 A MONTH for the first 3 months and, during continuous hospitalization thereafter a full $400.00 A MONTH...EVEN FOR AS LONG AS 48 MONTHS, if necessary. *You can receive as much as $18,840.00 for each illness or injury when hospitalized!*

### Imagine what a sudden illness, accident or operation could do to your life's savings!

One out of every two families will have someone in the hospital this year! It could be you —or some beloved member of your family tomorrow . . . next week . . . next month. Sad to say, very few families have anywhere near enough coverage to meet today's soaring hospital costs. These costs have doubled in just a few short years. They are expected to double again in the few years ahead.

Stop for a moment. Think how much a long stay in the hospital will cost you or a loved one. How would you ever pay for costly, but necessary, X-rays, doctor bills, drugs, medicines? What would you do if your pay check stopped, but living expenses kept going on the same as ever? The same rent, food, phone, all the day-to-day expenses that never stop. The financial burdens of sickness, accidents and hospitalization have cost many people their life's savings, their cars, even their homes. And no one knows whose turn it will be next.

Don't take chances. Now YOU can enjoy the added protection, the peace of mind, the freedom from worry that this new Gold Star Plan LE 45-1068-CAL. offers.

### The most coverage for the least cost.

It would open your eyes to compare Gold Star's benefits and low rates with those of ANY other insurance plan. You will find that dime for dime, dollar for dollar, *Gold Star does indeed give you the most coverage for the least cost!*

Isn't this the kind of "preferred treatment" which you, as a non-drinker are ENTITLED TO? Of course, it is! And this, in a nutshell, is the basic principle that makes possible The Gold Star Plan . . . "Special Protection for Special People". . . insurance FOR abstainers at savings too substantial to miss.

### Money-Back Guarantee — in case you change your mind.

When your Policy arrives, examine it carefully. It's a very short document. There is NO FINE PRINT. Then show it, if you wish, to someone you trust. Perhaps your lawyer, accountant or pastor. Better still—show it to your own insurance man. (We're proud to report that among our policyowners are insurance agents and brokers throughout America — all NON-DRINKERS who realize that even the companies they represent cannot match Gold Star's low rates!)

If you are not 100% satisfied, return the Policy within 15 days of the day you receive it, and we will REFUND YOUR MONEY. But meanwhile, your entire family will be protected by $400.00-A-MONTH extra cash benefits just as if you had already said "yes"! That's right, you will be fully covered all this time even if you finally decide to return the Policy. And, if you decide to continue this wonderful $400.00-A-MONTH Extra Cash Plan, you may do so at your low rate shown below. Naturally, at these low rates, we can issue only one policy of this type per person.

| Age at Enrollment | Monthly Renewal Premium |
|---|---|
| 16-44 | only $3.15 |
| 45-49 | only $3.60 |
| 50-54 | only $4.05 |
| 55-59 | only $4.55 |
| 60-69 | only $5.50 |
| 70-74 | only $6.15 |
| 75 and over | only $8.05 |

If you wish to cover *all* of your unmarried, dependent children between the age of 1 month and under 19 years who live at home, just add $1.90 to the total of the monthly premium for the adults to be insured. This small additional cost covers all your present children plus any future additions as soon as they are 1 month old. Then, just add 95¢ more and you will be covered for Maternity Benefits, too!

**NOTE: The regular monthly premium shown here (for your age at time of enrollment) is the same low premium you will continue to pay; it will not automatically increase as you pass from one age bracket to the next! Once you have enrolled in this Gold Star Plan your rates can never be changed because of how much or how often you collect from us—or because of advanced age—but only if there is a general rate adjustment, up or down, on all policies of this type in your entire state.**

### ACT NOW—"Later" may be too late— send just $1!

Time is precious! If you are a non-drinker, you owe it to yourself and your family to get your Enrollment Form into the mail today. *Right now,* complete the special Enrollment Form on the back of this announcement. Then mail it with only $1 in the air mail reply envelope bound into the center of this announcement.

We made the reply envelope AIR MAIL for speed (if your Enrollment Form is late it cannot be accepted). So the sooner you mail it, the sooner your protection starts. Remember, once you suffer an accident or sickness, it's TOO LATE to buy protection *at any cost.*

# THESE 23 QUESTIONS AND ANSWERS...

**1. How much will my Policy pay me when I am hospitalized?**

You are paid $400.00-A-MONTH cash every single month. And it starts the *very first day* you are in the hospital. (If you are 65 or over, you are paid $280.00 a month for the first 3 months, and a full $400.00 a month during continuous hospitalization thereafter, in addition to anything paid by Medicare). You are paid $240.00 A MONTH every time a covered child is hospitalized.

**2. Will I be paid if I am hospitalized for less than a full month?**

You certainly will. This new plan (LE 45-1068) pays you whether you are in the hospital for only a day, or a week, or a month, or a year or *even as long as 48 months!*

**3. Does this Plan pay me from the first day of hospitalization?**

Yes! There are no long "waiting periods." You receive full cash benefits of $400.00 A MONTH starting the very first day you enter the hospital. Coverage begins the same day we accept your completed Enrollment Form and first month's premium.

**4. How long will I continue to receive hospitalization benefits?**

Gold Star will continue to pay $400.00-a-month extra cash benefits even if you are confined to a hospital for as long as 48 months—a total of $19,200.00 over this four-year period!

**5. How much do I receive for a Registered Nurse at home?**

$400.00 A MONTH to a maximum of $4,800.00 after you have been hospitalized for 5 days or more, and your doctor has you employ a full-time Registered Nurse within 5 days after you leave the hospital. Benefits continue during employment of the nurse for as long as you were hospitalized, even to a maximum of one full year.

**6. Will I be paid extra if I lose a limb or eyesight?**

Yes. Gold Star pays $2,500.00 for complete accidental loss of one hand or one foot or sight of one eye; $5,000.00 for loss of both hands or both feet or sight of both eyes . . . when dismemberment results any time within 90 days of the accident.

**7. Suppose I am paid benefits for any sickness or accident. What happens if I am again hospitalized for the same condition?**

Don't worry! You still collect $400.00 A MONTH for a total of 48 months. And if you have already resumed full normal activities for just 3 months, it's considered a new confinement, and you can collect again to the maximum of 48 months. Of course, any new condition is covered immediately for a full 48 months.

**8. What benefits do my eligible, dependent children get?**

If you choose to include your dependent children (age 1 month to 19 years) under this Plan, you collect $240.00 A MONTH to a maximum of 48 months confinement for each child hospitalized.

**9. Are there times I might collect as much as $19,200.00...as much as $76,800.00?**

There are! Because we pay cash not just for you, but for every covered member of your family. And if you and your wife are hospitalized at the same time by an accident, you collect Double-Cash Benefits In other words, you receive not $400.00 but $800.00 a month. And your wife receives Double-Cash Benefits, too. She collects not $400.00 but $800.00 A MONTH. So you end up collecting *$1,600.00-a-month extra cash benefits in all* during the time you are both simultaneously confined, for as long as 48 months! We hope accidents don't strike in your home—but should something happen, isn't it reassuring to know you're so well protected?

**10. How may I use these benefit payments?**

You may use them in any way you wish—for hospital and doctor bills, rent, food, household expenses, to replace savings or anything else. This is entirely up to you.

**11. May I apply if I am 65 or over?**

Yes, you may. Folks any age are welcome to apply—there is no age limit! Members 65 or over are paid $280.00 a month for the first 3 months of each hospital confinement and, while hospitalized thereafter, a full $400.00 a month.

**12. Can I collect from Gold Star even if I carry other insurance?**

Of course. This Plan will pay you in addition to whatever you may receive from any other policies you may have with other companies, including Medicare for folks 65 or over.

**13. Why do I need this Gold Star Plan in addition to my other hospital and health insurance?**

While hospital costs have doubled in recent years, very few people have doubled their insurance. The chances are one in seven that you will have to go to the hospital this year. You will need money not only to pay hospital bills, but also to meet ordinary living expenses that never stop. And if you have another hospitalization policy that's more than 2 years old you have already lost ⅓ of the benefits DUE TO SKYROCKETING MEDICAL COSTS!

**14. May I add future dependent children to my Policy after it is in force?**

Yes, indeed, if you choose to include children's coverage under this Plan. When any future children are 1 month old they are automatically covered without any additional charge!

**15. Will my protection be cancelled because I have too many claims?**

No, definitely not! Gold Star guarantees never to cancel your protection for any reason whatsoever! (Of course, if deception is used in making application, the Policy may be ineffective.)

**16. Will my rates be raised as I grow older or if I have too many claims?**

No matter how many claims you have, or regardless of how long you keep your Policy, your rate will remain the same as it was for your age when you enrolled, unless there is a general rate adjustment, up or down, on all policies of this type in your entire state.

**17. What is not covered by this Policy?**

The only conditions not covered are those caused by: the use of narcotics; any mental disease or disorder; expenses resulting from any sickness or injury you had before the Policy Effective Date (during the first 2 years only); act of war; or where care is in a U.S. Government hospital. EVERYTHING ELSE IS COVERED—including pregnancy, childbirth or miscarriage if both husband and wife have been enrolled in the Plan (with Maternity Benefits) for the entire period of pregnancy.

**18. What are the requirements to enroll in this Gold Star plan?**

You must not drink alcoholic beverages; you must not have been refused or had cancelled any health, hospital or life insurance for reasons of health; and to qualify during this Enrollment Period, you must enroll before midnight of the date in the Enrollment Form.

# Tell you how Gold Star's $400.00-A-MONTH Extra Cash Plan gives you the protection you need—at amazingly low cost!

**19. Why is this offer good for a limited time only?**

Because by enrolling a large number of people at the same time, underwriting, processing and policy issuance costs can be kept at a minimum—and we can pass these savings on to you.

**20. Besides the savings, are there other advantages of joining Gold Star during this enrollment period?**

Yes, there certainly are. A very important one is that you do not need to complete a regular application—just the brief form on the back of this announcement. Also, During this Enrollment Period, there are no other requirements for eligibility—and no "waivers" or restrictive endorsements can be put on your Policy!

**21. Can other members of my family take advantage of this offer?**

Yes, as long as they meet the few requirements under Question 18.

**22. How does this Money-Back Guarantee work?**

Examine your Policy in the privacy of your own home. If for *any* reason you are not completely satisfied, return it within fifteen days of the date you receive it, and we will promptly refund your money. Meanwhile *you will* be fully protected while making your decision?

**23. How do I join?**

Fill out the brief Enrollment Form and mail it in the enclosed prepaid Air Mail envelope with just $1 to: The Gold Star Plan, Valley Forge, Pennsylvania 19481.

## Outstanding Americans Like These Recommend Gold Star

**GEN. W. K. HARRISON, U.S. Army (Retired):** "In my long experience in the Army I have sadly observed the deadly effect of the use of liquor. I see no reason why non-drinkers should help pay the high costs of insurance due to liquor. After examination of the Gold Star Plan and its operation, I am convinced that it is effectively achieving its objectives."

**JEROME HINES,** leading bass with the Metropolitan Opera Company: "The non-drinker is a better risk and should be entitled to a better insurance rate. Having known Art DeMoss for a long time, I am most happy to recommend his low-cost Gold Star Policies."

**DR. FRANK C. LAUBACH,** author, preacher and internationally known authority on literacy: "This Gold Star Total Abstainer's Policy seems to be exactly what people who do not drink ought to have."

# Antiwar Youth Return A Year Wiser

By JOSEPH E. MOHBAT

WASHINGTON (AP) — Those "kids" are at it again, doing their Vietnam thing, and it may be that President Richard M. Nixon will witness this month the most massive concerted blast of popular dissent ever directed at an American president.

The President said it wouldn't affect him any, thereby tripling their enthusiasm for the task.

They're a year older now, these young ones who worked for Bobby Kennedy and were thwarted by a bullet, who slaved for Gene McCarthy and were beaten back by orthodoxy.

They're a year wiser, a year better organized, and they've saved their mailing lists and marked well who their friends were in 1968, the year they refuse to forget.

And they are fired by a conviction that, unlike 1968, the weight of public opinion is on their side when they say it's time for Nixon to bring the troops home. All the troops. Now.

They are the Vietnam Moratorium Committee and its thousands of supporters recruited across the land for the first day of moratorium—Wednesday, the 15th of October 1969.

If all goes well, they hope history will record that day as a watershed in participatory democracy, a turning point in their country's philosophy of world leadership. They want it to be the day the people stood up and made something happen.

If it works, they will give much credit to Nixon himself, who at 12:10 p.m. Friday, Sept. 27, defied them by declaring at his news conference: "Under no circumstances whatever will I be affected by it."

The mail and money pouring into the shabby Washington headquarters of the committee have nearly tripled since that presidential statement.

"We couldn't believe he'd say that," said David Hawk, 26-year-old co-coordinator of the moratorium, speaking in barely concealed exultation. "But we couldn't have asked for more. The people didn't like that."

He waved a pale hand around the cluttered, frenetic office. Girls in long hair and short skirts, young men in long hair and short beards, sitting on cardboard cartons, opened stacks of envelopes. Their work table was piled with currency and checks—for amounts ranging from $1 to $500.

"My God, we're out of Buttons!" someone wailed from a back room, as requests poured in for the blue badges with the white dove and "Work for Peace October 15."

Hawk, a Cornell graduate and All-America swimmer now awaiting trial for refusing draft induction, emphasized that "Oct. 15 is not just a day of activity, an event in itself, but the beginning of an escalating process."

The committee intends to follow up the first moratorium day with two days in November and three days in December.

It began as a campus movement, and after a summer of feverish organization, the com-

## Take National Title In A 7-4 Victory

NEW YORK (AP) — The incredible New York Mets, baseball's rag tag clowns for seven long years, made it all the way to the top today by winning the National League pennant with a third straight playoff victory 7-4 over the stunned Atlanta Braves.

Wayne "Red" Garrett, an Atlanta farmhand drafted by the Mets for $25,000 last December, delivered the killing blow, a two-run homer in the fifth inning that put the Mets ahead for keeps. Garrett had hit only one homer all year and batted but .218.

Nolan Ryan, the fireballing 22-year-old right-hander who commuted between the Mets and a Texas Army camp all summer, bailed out starter Gary Gentry with a brilliant effort in the last seven innings.

**ROARING CROWD**

A roaring standing room crowd of 53,193 at Shea Stadium chanted "We want more" in the Mets' eighth and counted down each out in the ninth as Ryan closed strong.

When Garrett threw to Ed Kranepool to retire Tony Gonzalez for the final clinching out, thousands of youngsters swarmed onto the field, fire crackers thundered in the stands and the bases quickly disappeared. Instant banners proclaiming "Mets' Champs" sprouted out of nowhere.

Several hundred youngsters clustered in front of the Met dugout shouting "We're No. 1" and gesturing with their fists in the air. A special corps of policemen kept the frantic fans out of the dugout as torn paper spewed down from the stands and a mini "Woodstock Pop Festival" set in on the infield.

**WIN IT ALL**

The club that never had finished better than ninth and then only reached that pinnacle twice in seven previous years, had won it all in the National League after making up 9½ games on the Chicago Cubs to win the East Division and then routing the Western champion Braves in three straight.

Manager Gil Hodges' amazing Mets now go on into the World Series starting Saturday afternoon in the home park of the American League champions.

But even a World Series victory will have a hard time topping this celebration. Some thought it was even wilder than the night they clinched the East title on Sept. 24.

**WORTH IT**

Victory was sweet for the fans who were deprived of their two National League franchises when the Dodgers and Giants moved West to California in 1958. It took eight long years but the bubbling champagne was worth the effort.

The Mets, derided as Punch and Judy hitters who had to get by on their fine pitching, wound up with a .327 club batting average and scored 27 runs on 37 hits in the three games. On the other hand their three starting pitchers, Tom Seaver, Jerry Koosman and Gary Gentry all were roughed up, while the Braves scored 15 runs.

Gentry, trying to top his 23rd birthday celebration with a pennant, gave way to Ryan in the third inning trailing 2-0.

Hodges removed Gentry after Gonzalez singled, Hank Aaron

## Tremor Shakes In Santa Rosa

SANTA ROSA (UPI)—Jittery Santa Rosa was shaken by a mild earthquake today, centered in the same area where a major quake last week caused millions of dollars in damages.

No damage was reported from the latest temblor, described by Santa Rosa Police Lt. Charles Nader as "a little shake."

The University of California Seismograph Station at Berkeley said the tremor was recorded at 3.75 on the Richter earthquake scale and occurred at 7:28 a.m.

Its center, a spokesman said, was "near Santa Rosa, in the same general area" of last Wednesday night's severe quakes, which registered up to 5.6 on the scale.

Following last week's quakes, seismologists predicted that there would probably be a series of aftershocks decreasing in intensity.

"It was just a little shake," Lt. Nader said. "We have no report of any damages, but we did get quite a few calls."

Mayor Jack Ryerson has asked federal disaster designation for Santa Rosa as a result of the two shocks last week which broke windows and badly damaged or destroyed more than 200 homes.

Damage has been estimated at between $2 million and $5 million.

## Foghorn Puts Folks In Tizzy

An electric version of the Chinese water torture, a new forghorn that blasts four times a minute, has East San Rafael residents in a tizzy.

The Coast Guard, in an economy move, automated the foghorn on East Brother Island off Richmond last Wednesday, and the horn has blown continuously ever since — and is slated to keep blowing until a six-month test of its effectiveness is concluded on April 1.

**Its effectiveness in enraging residents across the water in Marin was noticeable by Thursday, when telephoned complaints began to hit the Coast Guard. Oliver F. deGraff, navigation supervisor for the Twelfth Coast Guard District, said today that he had gotten about 10 calls so far, and promised "we certainly will do something."**

But he acknowledged he did not know yet what could be done about the problem, although he noted the residents "could get used to it, or even forget about it."

Possible solutions cited by deGraaf included putting back the four men who manned the station's foghorn and light, installing a fog detector to turn it on whenever needed.

Fog detectors, which are triggered by an increase in moisture, are only about 80 per cent reliable, he noted. One could be installed for a trial in a couple of weeks, he said.

Another possibility would be to have the foghorn operated by a caretaker if the historic island is taken over by the East Bay Regional Park District, he said. The station was manned by the Coast Guard from 1874 until last week.

The island is in the strait connecting San Pablo and San Francisco bays.

**DeGraaf said the foghorn was being operated continuously because "it's just as cheap as turning it off and on." It is the only automated foghorn in the bay, he added.**

The electric foghorn replaced a two-tone diaphone using compressed air. The diaphone had a range of about four miles, but

## Jobless Rate Highest In Two Years

WASHINGTON (AP) — Unemployment in September made its biggest leap in nine years and rose to its highest rate in two years, the Labor Department announced today.

The over-all unemployment rose from 3.5 per cent in August to 4 per cent in September, the largest increase since September-October 1960.

The Bureau of Labor Statistics noted that unemployment normally drops from August to September as young workers return to school—but it failed to drop this year. Unemployment was up 365,000 over the month, with two-fifth of the increase among workers in the 20 to 24 age group.

Total employment in nonfarm categories was 70.8 million in September, an increase of 300,000 over the previous months. With seasonal adjustment, payroll employment was unchanged over the month but would have shown a modest increase except for the effect of the early changeover in auto models.

Although unemployment for nonwhites remained double that of whites, nearly all of the September increase in unemployment took place among the white workers whose rate climbed from 3.2 to 3.6 per cent.

The rate for blue collar workers moved from 3.8 to 4.4 per cent, reflecting increased joblessness in blue collar categories.

A spokesman for the bureau said the nation's level of employment is at it highest in history and that the unemployment boost signifies a slowdown in the rate of employment growth —mostly in the construction and government fields.

Over the year, unemployment has risen by 350,000, reflecting an increase of 150,000 for adult women and 100,000 each for adult men and teen-agers.

The actual number of unemployed persons in September totaled about three million. The 4 per cent unemployment rate was the highest since Oct. 1967, when it reached 4.2 per cent. The trend this year began with a 3.3 per cent average in the first quarter climbing to 3.5 in the second and 3.7 in the third.

The bureau said one explanation for the sharp increase might be that the September survey was taken early in the month, perhaps before a large number of young persons had yet re-entered school.

## Sonoma Election Will Decide Officers' Pay

Sonoma State College student directors have set an election for Friday to determine if student government officers should receive pay and have also accepted a compromise plan on the communications code.

Looking to the campus-wide vote, student directors accepted the compromise code so that publication funds could be released and the student newspaper published in time to report the election.

While students will ballot on whether the student body president and other officers should be paid, no amount will be specified on the ballot, leaving the student directors to set pay.

In the past, the student president received $1,000 per year while other officers received $500 and $400. New state college regulations require that referendums be held in cases where students allot student funds.

After the student directors accepted the communications code as suggested by College President Ambrose R. Nichols Jr., the funds for publications and the closed circuit television system were released.

Under the compromise plan, the code stipulates that the newspaper should endeavor to serve the total college community, but that it may be aimed primarily at students. The student directors had maintained that student funds support the paper and that it should reflect only student views and interests.

The student directors had also requested that a representative of the Hidden Talent Program for disadvantaged students be placed on the communications commission to insure minority race representation.

In conforming with Dr. Nichols's views, the commission will instead provide membership for the Black Students Union and the Mexican-American Student Confederation. Nichols

## Hideaway Light Doors Called Meat Cleavers

WASHINGTON (AP) — Some of the hydraulic doors on hideaway auto headlights are built like a "butcher's cleaver" and cause many pedestrian injuries each year, Senate investigators were told today.

Dr. William Haddon, former head of the Bureau of Traffic Safety in the Transportation Department, singled out the headlights along with auto bumpers as factors that not only increase auto accident injuries but are partly responsible for skyrocketing auto repair costs.

Haddon, who is now director of the Insurance Institute for Highway Safety, testified as the Senate subcommittee on antitrust and monopoly reopened hearings into the high cost of auto repairs.

## Rogers Sets Third United Nations Visit

WASHINGTON (AP) — Secretary of State William P. Rogers, who conferred with President Richard M. Nixon today, will return to New York Wednesday night for his third round of talks at the U.N. General Assembly session.

The State Department said Rogers expected to return to Washington Friday night.

## Retired General Is Linked To Massive Private Firearms Sale

WASHINGTON (AP) — Maj. Gen. Carl C. Turner used his position as the Army's provost marshal general to obtain hundreds of firearms from the police departments of Chicago and Kansas City and sold many of them privately, a Senate investigator testified today.

Philip R. Manuel, a staff investigator for the Senate's investigations subcommittee, said Turner told the departments he wanted the weapons for Army training and for display in the military police museum.

Manuel said many of these handguns, shotguns and rifles and others, which he said Turner obtained from Fort Bliss, Tex., were sold by the general to a North Carolina gun dealer.

Turner, who is now retired from the Army, has been mentioned frequently in testimony involving allegations he covered up evidence against Sgt. Maj. William O. Wooldridge, once sergeant major of the Army. Turner is expected to testify tomorrow.

In the second week before the Senate investigating subcommittee, Army witnesses are expected to detail more about the double life they said was led by Wooldridge.

Manuel testified that Turner signed for some of the weapons two weeks after he had officially retired from the Army in 1968 ending four years as provost marshal general.

The investigator said he was told some of the guns sold by Turner were destined for delivery to a group of revolutionaries on the island of Haiti in the Caribbean.

He gave no further elaboration.

Manuel said Turner obtained a total of 400 firearms from the Chicago Police Department, 96 weapons from Kansas City and a shipment of 200 from Ft. Bliss.

Manuel said Turner came in contact with Chicago police in April and May of 1968 as commander of the U.S. regular Army troops which were sent to the city during rioting following the assassination of Dr. Martin Luther King Jr.

"While in Chicago," the investigator said, "Gen. Turner obtained permission in his capacity as provost marshal general to inspect and obtain whatever weapons he wanted from all of the arms collected and confiscated by the Chicago Police Department."

"He obtained from the department on four separate occasions a total of approximately 400 weapons including handguns of all types . . . both of foreign and domestic origin," Manuel said.

He said many of the guns were found to have been sold to the Pine State Gun Shop of Fayetteville, N.C. The owner of the shop, Manuel said, is currently awaiting trial in U.S. district court for alleged violations of the Gun Control Act of 1968.

The investigator said the general did turn some of the guns into the Army.

## Incinerator Ban Lifted

The ban on incinerator burning was lifted yesterday by the state Division of Forestry.

Burning in an incinerator may be done with a permit from 7 a.m. to noon. All open burning remains banned across the county.

Permits are not required for barbecue fires, reported the Marin County Fire Department.

## 25 New Auto Tags Are Issued

The Corte Madera office of the Department of Motor Vehicles issued 25 of the new blue and gold state license plates today as the new auto tags were distributed throughout California.

Thomas Foudy, assistant manager of the Corte Madera office said the office has received many calls from persons who believe the new plates will be put on all vehicles. The new plates will be issued only to motorists who buy new cars or who are from out of state and register their vehicles in California for the first time.

After March 1 other California vehicle owners will be able to trade in their old yellow and black plates for the new ones for $3.

## Court Holds First Session: 28 Minutes

WASHINGTON (AP) — The Supreme Court opened its 1969-70 term today with a new chief justice, a sedate ceremony —and a vacant seat.

The new chief, Warren E. Burger, presided over the uneventful 28-minute session. Its serenity contraster sharpy with the still unsettled dispute in the Senate over the nomination of Judge Clement F. Haynsworth Jr. to succeed Abe Fortas on the high court.

### Praises Bomb

TOKYO (AP) — North Vietnam said today Communist China's two neclear tests conducted last month were "a new blow at imperialism, headed by U.S. imperialism."

Hanoi's official newspaper Nhan Dan-People-extended its "heartiest congratulations" to the Communist Chinese in an article lauding Peking's "successful hydrogen and nuclear bomb tests" conducted on Sept. 23 and 29.

### Terrorist Roundup

SAO PAULO, Brazil (AP) — Authorities in Sao Paulo have announced the arrest of 19 more terrorists in a 10-day crackdown by the army, navy, air force and police. They said three took part in the kidnapping of U.S. Ambassador C. Burke Elbrick in Rio de Janeiro.

Two other persons arrested in Rio recently are also believed to be part of the gang that pulled Elbrick from his car and held him for 78 hours before releasing him on Sept. 7. The Brazilian government freed 15 prisoners demanded by the kidnappers for his safe return.

Sources said more than 1,000 persons have been arrested or detained in the search for Elbrick's abductors.

### Home For Subs

HONG KONG (AP) — Communist China has built a "nuclear bomb proof" submarine base under a mountain and topped it off with an airfield for 100 jet fighter-bombers, it was report here today.

A refugee who arrived from China's Kwantun Province adjoining Hong Kong said he pieced together this description of the base from workers who helped construct it:

Four tunnels have been driven deep into four adjoining mountains below sea level. These are connected to the ocean by tunneled canals deep enough to permit nonsubmerged submarines to pass into four holding pools, each of which can accomodate 10 submarines.

### Bomb Kills One

TEL AVIV (AP) — A bomb packed in a box of fruit and placed beneath a parked truck exploded in a crowded market in the town of Afula today, killing a man in the truck cab and injuring 23 others, police said.

Several of the injured, including women, children and Arabs, were reported in serious condition.

Police rounded up about 100 Arabs for questioning.

### Rejects Offer

ATHENS (AP) — Aristotle Onassis has rejected an offer of $100,000 for his wife to star in an American television special "A Tour of Greece," a representative of producer Roger Gimbel said today.

Gimbel planned to film the one-hour color program for release in April 1970, coincident with the start of the tourist season. He sstimated that the program would have increased Greece's tourist revenue approximately $70 million.

Gimbel has made similar specials with Princess Grace of Monaco and Sophia Loren, conducting a tour of Rome. Mrs. Onassis, while she was the wife of President Kennedy, starred in a TV tour of the White House.

# 72 Bases, Towns Shelled

SAIGON (AP) — The Viet Cong and North Vietnamese made their heaviest rocket and mortar attacks in more than a month over the weekend, shelling 72 allied bases and towns, the U.S. Command said today.

Thirty-one of the 72 attacks reported between 8 a.m. Saturday and 8 a.m. today caused casualties or damage, headquarters said. Fifteen of the attacks were against U.S. units or installations.

The U.S. Command said 10 Americans were wounded.

Incomplete reports said six Vietnamese were killed and about 35 were wounded.

The attacks were the heaviest since Sept. 12-13, when a total of 86 shellings were reported.

Official sources said the enemy level of activity has been higher in recent weeks than during previous lull periods this year, although the number of American battlefield deaths is down. But they added that significant enemy ground attacks are still very few.

"Small unit contacts are staying up well above the 40s," said one source. "Last week they averaged 49 a day and the week before 55 a day. During previous lull periods in August they were down around an average of 40 a day."

American forces killed 53 enemy troops in four clashes northwest of Saigon with no U.S. losses, headquarters said.

But American infantrymen were dealt a setback shortly before midnight yesterday when North Vietnamese troops attacked them 75 miles south-southeast of Da Nang. Four Americans were killed and 15 wounded under a heavy mortar and rifle fire. Enemy losses were not known.

South Vietnamese troops reported killing 30 Viet Cong in two fights in the Mekong Delta. Government casualties were reported light.

# Mosque Fire Confession Told Court

JERUSALEM (AP) — A police superintendent told a Jerusalem court today that a young Australian mystic had confessed setting fire to the Al Aksah Mosque in Old Jerusalem to clear the site for the rebuilding there of Solomon's Temple.

Supt. David Ofer said Michael Denis Rohan, 28, told the police in a statement after his arrest:

"About a week after I arrived in Jerusalem I discovered a Scripture that said that one person will be called by God to build the temple and therefore I decided God wanted me to build this temple. Therefore if I am the chosen one to do this, I will have to prove it by destroying the mosque. if this was God's will, then he would allow me to do it."

**LAST REMNANT**

The Al Aksah Mosque was built on the site of Solomon's Temple, and the Wailing Wall nearby is the last remnant of the temple. The site is also Islam's third holiest shrine because Moslems believe that the Prophet Mohammed ascended into heaven from there.

Rohan is a member of a Christian sect which believes that the Messiah cannot come until Solomon's Temple is rebuilt on its original site. A sheep shearer by trade, the young man came to Israel in March.

Sitting in a bulletproof glass enclosure like the one that protected Nazi war criminal Adolf Eichmann, Rohan went on trial today on four charges of arson and desecration of a holy place. His Israeli lawyer told the three-judge court Rohan "does not confess to the charge and he does not confess to the facts" outlined in the charges.

**ISRAELI LOW**

Under Israeli law, a defendant does not plead guilty or not guilty. He can admit or deny all or some of the alleged facts, or he can refuse to reply at all.

If convicted on all the charges, Rohan could be sentenced to 44 years in prison.

# Cuban Lands MIG Near Nixon Jet

HOMESTEAD AIR FORCE BASE, Fla. (AP) — A Russian-made MIG17 fighter plane piloted by a defecting Cuban officer landed yesterday near President Richard M. Nixon's Air Force One jetliner.

As Nixon relaxed 30 miles away at his Key Biscayne retreat, the pilot set the Korean War vintage plane down on the base's only runway at 12:25 p.m. EDT.

Air Force One stood on an apron being readied for the President's return to Washington.

The little jet was picked up by radar 90 miles east of Key West, a Defense Department spokesman said. Military sources declined to say whether U.S. planes were sent to intercept it or whether its cannon and machine guns were loaded.

The Cuban defector asked and was granted asylum. His name was not disclosed.

The U.S. State and Defense departments said in Washington that the Czechoslovakian Embassy was asked to inform Cuban authorities that the plane would be made available for return to Cuba. The United States and Cuba have broken diplomatic relations.

The dull gray plane was searched by military officials and placed under police guard in a hangar on the base. It bore the number 232, a Cuban flag, and carried red stars on its wings and tail.

# Life Reveals Brutal Pendleton Treatment

NEW YORK (AP) — Some prisoners in the Marine Corps brig at Camp Pendleton in San Diego County are sometimes "kicked, beaten, stomped and karate-chopped for refusing to obey a direct order" and the guards who mete out such treatment go unpunished, says Life Magazine.

A congressional subcommittee is probing allegations of overcrowding and brutality at the brig. The corps replaced the brig commander, Maj. W.A. Voight, last Sunday. Maj. Robert E. Finney, his replacement, was given a free hand to improve conditions.

"Guards have handcuffed prisoners to the chain-link ceiling of their cells and left them hanging there for hours," the Life article said yesterday.

Reporter Jack Fincher says his report is based on signed letters from prisoners. He says the truthfulness of the letters is "clearly open to doubt," but he also has corroborative statements from Navy Lt. Mire Stine, a former brig chaplain, and Dr. Lawrence McNamee, now in private practice in Cleveland.

"The hard-nosed Marine ethic," along with overcrowding, untrained guards and understaffing are responsible for the alleged mistreatment, Stine and McNamee say in the article.

"The guards would just say, 'This is how we keep them in line, chaptain,'" Stine says.

The article also says:

"Guards have taped prisoners' heads like mummies to keep them quiet" and once a prisoner nearly suffocated.

Two hundred men once refused to turn out for reveile in a protest over grievances and were forced to run until they were exhausted. Those who dropped were "kicked and beaten so badly that many had to be hospitalized."

Camp Pendleton has conducted its own secret investigation of conditions and "one officer compared the Pendleton brig to the Civil War hell-hole of Andersonville."

DIANE LINKLETTER
'Murder' by LSD

## Linkletter's Daughter In Fatal Plunge

HOLLYWOOD (UPI) — The death of Diane Linkletter, 20, youngest child of television personality Art Linkletter "wasn't suicide . . . it was murder, she was murdered by the people who manufacture and sell LSD," says Linkletter.

Linkletter said yesterday Diane jumped to her death from the window of her sixth-floor apartment Saturday while under the influence of the hallucinatory drug.

In an exclusive interview in the Los Angeles Times, Linkletter, 57, said he had to tell what happened to his youngest child. He wanted other young persons to know her story.

**TELLS OF TRIP**

"You add LSD to a girl who is somewhat emotional and dramatic and it can be disastrous. She told me about taking it, about her bum trip. She felt she was being driven out of her mind by LSD," the entertainer said.

Sheriff's deputies said Miss Linkletter plunged from a window of her apartment in West Hollywood. A friend, Edward Durston, 27, West Hollywood, was with her when she lunged through the casement of a kitchen window. Deputies said he grabbed for her but was too late.

Durston told detectives that the night before Miss Linkletter was "extremely emotional, extremely despondent and very irrational at times, in fact most of the time" in the hours before her death.

**HOLLYWOOD CROWD**

Linkletter said Diane, an aspiring singer who would have been 21 Oct. 31, moved with a Hollywood crowd that used LSD but she couldn't handle it. She had a bad trip on the drug and she feared it was destroying her mind, he added. "She tried it," Linkletter said, "The LSD that people shove into their bodies—it's like diving into a pool when you don't have any idea of the depth. They don't know if it's deep and clear or shallow and dangerous."

Linkletter and his wife, Lois, were notified of the death in Colorado and returned here Sunday.

On July 15 John Zweyer, 33, husband of Linkletter's oldest daughter, Dawn, 29, shot himself in the head. He reportedly was depressed over his insurance business.

# Huhphrey Flays Nixon On Inflation

ATLANTIC CITY, N.J. (AP) — Former Vice President Hubert H. Humphrey said today that President Richard M. Nixon has virtually abdicated his responsibility to fight inflationary wage and price hikes.

and, said the man who lost the presidential election to Nixon, White House policies aimed at slowing the economy to cool inflation threaten a drastic increase in unemployment.

"That's the old tried and tested Republican medicine guaranteed to produce a cure worse than the disease," Humphrey said in a speech for some 1,000 AFL-CIO convention delegates.

Humphrey, speaking to the labor group that was the main bulwark of his Democratic bid for the presidency, said Nixon is favoring bankers, corporations and his Southern political allies at the expense of the rest of the nation.

"Inflation, interest rates, civil rights, education, conservation, consumer protection, antitrust —you name it and the Nixon-Agnew administration has remembered its friends and forgotten the rest of us," Humphrey said.

"What we have witnessed in the past eight months is a virtual abdication of the President's responsibility—yes, even his duty—to take the lead in fighting inflation, in both prices and wages," he said.

Living costs have climbed this year at an annual rate of about 6 per cent, the steepest since 1951.

Humphrey said Democratic Presidents John F. Kennedy and Lyndon B. Johnson forced big industries to back down on price hikes, but that Nixon has been silent while the steel, auto and other industries raised prices.

"And I'll bet you remember that these presidents also demanded from labor greater restraint in wage increases," Humphrey said of Kennedy and Johnson.

Johnson had a major run-in with the AFL-CIO in 1966 and 1967 over attempts to impose a White House guideline limiting wage hikes to 3.2 per cent a year. Johnson lost the fight and wages were rising at an annual rate of about 6 per cent in the last year of his administration. Wages are climbing at a rate of 7 per cent this year.

The three were released after treatment at a hospital, according to a fire department spokesman. Damage was estimated at $100,000 in the blaze, which took two hours to control.

Chief William Murray said grease in the kitchen of Dick's restaurant caught fire and the flames spread quickly, destroying the one-story building housing the restaurant and a tavern and damaging the rear of an adjacent two-story building.

had said the Hidden Talent Program was not primarily a minority program and should not be singled out for membership.

In the compromise plan, Dr. Nichols agreed that the student boy body president could remain on the communications commission as an ex-officio member with no voting rights. The president had first opposed the seating of the student president as a means of keeping the newspaper free from student government control.

The students acknowledged that Nichols would have the power to veto any future changes in the communications code. The student directors said the state college trustees had given the power to college presidents and that it must be recognized.

doubled and Rico Carty had slammed a foul liner to left.

Aaron's two-run homer in the first had given Atlanta its 2-0 bulge.

Hodges made the big move, calling for Ryan who took over with a 1-2 count on Carty and struck him out. After walking Orlando Cepeda intentionally to load the bases, Ryan struck out Clete Boyer and got Bob Didier on a fly ball.

Young Ryan, warming to the task, allowed only three hits in his seven-inning winning stint, struck out seven and walked only two.

Cepeda's two-run homer, following a walk to Carty in the fifth, momentarily gave the Braves a lead but the slugging Mets were not to be denied. When the day was done they had 14 hits, including four doubles and homers by Tommie Agee and Ken Boswell, each of whom had three hits, and the winning blast by Garrett.

operated at a much lower frequency of 98 to 130 cycles per second. The new horn has a rated range of about 1.5 miles, but a frequency of 500 cycles per second, deGraaf explained.

The diaphone sounded one three-second blast each 30 seconds, but only when turned on by station operators.

The foghorn sounds a two-second blast, then is silent for two seconds, sounds another two-second blast, and is silent for 24 seconds before repeating the endless cycle.

The diaphone sounded in all directions, but the horn is aimed north toward San Pablo Bay Channel.

**"We did not foresee that we would get complaints," deGraaf said, adding the complaints "probably are very legitimate."**

# A Complete Withdrawal Call Growing

WASHINGTON (UPI) —Nearly a quarter of the members of the House joined today in urging President Richard M. Nixon to bring home all American combat forces from Vietnam "at the earliest possible moment."

A resolution, carefully worded to support President Nixon, both on his already announced withdrawal of 60,000 men and his "expressed determination" to pull out the rest, was signed by 108 members—64 Republicans and 44 Democrats. (See another story, page 5.)

Additional sponsors were sought by the principal backers of the statement with hopes of carrying it "all the way" to an expression of the full House.

The statement reads:

"Resolved, that it is the sense of the House of Representatives that the substantial reductions in United States ground combat forces in Vietnam already directed are in the national interest and that the President be supported in his expressed determination to withdraw our remaining such forces at the earliest possible date."

A principal sponsor, Rep. Paul Findlay, R-Ill., described it as "the most specific statement on Vietnam by a group of congressmen since the (1965) Gulf of Tonkin resolution" which President Lyndon B. Johnson cited as support for the big U.S. intervention in Vietnam.

Added to the picture during the weekend were a hint from Senate GOP leader Hugh Scott of unspecified new developments in the war, and plans from Sen. J. William Fulbright for a public, and probably televised, hearing on the war.

## OBITUARIES

# Anne B. Levens Dies At 81

Anne B. Levens, a long-time Mill Valley resident, died yesterday at a local convalescent hospital following a long illness. She was 81.

Born in San Francisco, she moved to Mill Valley as a young woman more than 60 years ago. She worked as a telephone operator in Mill Valley and on the Tiburon Peninsula and was the first paid woman telephone operator, earning $1 a day.

After her marriage to Forest R. Levens, now deceased, she stopped working except for occasional emergencies, such as the 1929 Mill Valley fire, when extra operators were needed.

During recent years she worked parttime as a babysitter and was noted because, even at the age of 80, she could and would jump rope with the children.

She was a member of and organist for the Native Duaghters of the Golden West, Tamelpa Parlor 231, for more than 25 years.

She is survived by a son, retired Lt. Col. Franklin J. Levens of Scottsdale, Ariz.; a daughter, Loyce D. Sellers of Mill Valley; three sisters, Charoltte Wyatt, Pearl Milsner and Grace Lefakis, all of San Francisco; and two grandchildren.

Funeral will be at 10:30 a.m. tomorrow at the Russell and Gooch Funeral Chapel in Mill Valley, preceded by services at 9:30 a.m. by the Native Daughters of the Golden West, Tamelpa Parlor 231, at the chapel. Burial will be at the Salem Memorial Park in Colma.

Friends may call at the chapel after 3 p.m. today.

She is survived by her husband, Ernest Tanzi, chief mechanic for the city of San Rafael, at the family home, 7 Norma Court; a daughter, Geraldine Marie Ryan of San Francisco and her mother, Ida Volkerts of Novato.

Requiem Mass will be offered Wednesday at 10 a.m. at Our Lady of Loretto Church in Novato. The Rosary will be recited tomorrow at 8 p.m. at Keaton's Chapel of Marin in Novato. Burial will be at Mount Olivet Cemetery in San Rafael.

### ANTANAS KUNIGISKY

Kunigisky moved to Petaluma 10 years ago to make his home with a son, Edward Kunigisky, 32 Park Avenue.

He was a member of the Knights of Lithuania.

He is also survived by a son, Robert Kunigisky of San Francisco.

Recitation of the Rosary will be at 8 p.m. today at the Sorensen Funeral Home.

### JANIS RONSHEIMER

Funeral was held today for Janis Lee Ronsheimer, 20, of Petaluma, who died Friday at a local hospital after a short illness. Burial was at Cypress Hill Memorial Park.

# Beret Assassin Role Denounced

WASHINGTON (AP) — An Army colonel who twice commanded Green Berets in South Vietnam emphatically denies that assassination is part of the Special Forces' assignment in the war.

"The suggestion that assassination plays any part in the mission of the Army Special Forces is absolutely false and utterly absurd," Col. Fred Ladd said in an interview.

Ladd, who headed the 5th Special Forces in Vietnam in 1962-63 and again in 1967-68, said assassination and terrorism are neither taught nor advocated in Green Beret training at Ft. Bragg, N.C.

"No soldier has a license to murder anybody," he said.

Ladd's comments came in the wake of a growing assumption in some quarters that the Green Beret murder case indicates the elite Special Forces are engaged in something more than training and organizing mountain tribesmen to fight the Viet Cong.

Ladd declined to discuss whatever details he knows about the case of the eight Special Forces men who once faced charges of murder and conspiracy in the alleged slaying of a South Vietnamese double agent.

But as other officers have lately, Ladd called attention to the fact that Col. Robert Rheault, a successor to Ladd in Vietnam until being accused in the case, was the only career Green Beret in the group of eight originally charged.

The rest were intelligence officers assigned to the Special Forces. Only one of them had served a previous tour in the Special Forces.

A refusal by the CIA last week to let its agents testify in scheduled courts-martial led the Army to drop charges against the men.

Army Secretary Stnaley R. Resor said the CIA was "not directly involved" but it has been established from various sources that the agency discussed the "disposition" of the South Vietnamese with the Green Berets.

Ladd, now serving in the office of the deputy chief of staff of the Army, acknowledged that Special Forces have intelligence personnel but said their mission is not "clandestine" intelligence work such as behind enemy lines operations.

# Thieu's New Timetable For Pullout

SAIGON (AP) — President Nguyen Van Thieu said today the Vietnamese people "are determined to replace the bulk of the U.S. fighting units in 1970." But he added that all American troops cannot be withdrawn as long as North Vietnamese forces remain in South Vietnam.

In a major policy speech to a joint session of South Vietnam's National Assembly and Senate, Thieu also said he thought that allied forces should remain in Vietnam as long as aggression threatens Southeast Asia.

As Thieu spoke in Saigon, another 1,700 U.S. Marines from the 3rd Division boarded a troopship in Da Nang to sail for the United States, part of the 35,000 American troops being withdrawn before Dec. 15. Their departure leaves 484,000 American troops in Vietnam.

"We, the Vietnamese people, are determined to replace the bulk of the U.S. fighting units in 1970," the president said in the official English translation of his speech.

"The most important thing is that the Free World and, first of all, the U.S. ally, should not let Vietnam fall into the Communists' hands . . ."

# Morale Now Prime Resignation Factor

WASHINGTON (AP) — An Army officer headed for a second tour as a battalion commander in Vietnam asked bitterly, "Why should I send men out to be killed?"

This veteran soldier spoke of disallusionment, of pointlessness to a war he sees as going nowhere.

"If we were trying to win, it would be different," he said. "But we're just hanging on."

This infantryman's frustrations and doubts were echoed by other military professionals, all in private conversations. None would be quoted by name.

An admiral whose job gives him a wide-angle view of the military establishment said morale has overtaken money as the No. 1 problem in retaining younger officers.

The erosion of morale seems to be a compound of factors—a war that is essentially a holding action, repeated separations from families and resulting marital turbulence, the surge of antimilitary sentiment in Congress and the country.

The depths of this erosion cannot be measured, but it may be significant that officer resignations have been rising.

Air Force resignations were up nearly 50 per cent in fiscal 1969 over fiscal 1968. In the Army, officer resignations jumped about 14 per cent. The climb was smaller in the Marine Corps and Navy figures showed level, but the Navy is worrying about losing aviators and submariners.

"Many of my contemporaries with 15 and 16 years of service are packing it in," reported one decorated Army lieutenant colonel.

"Pride of profession has kept them going, but that pride is taking a terrible battering these days.

The services cannot afford a serious drain of younger officers particularly those who have gained experience and seasoning in the field and on staffs.

The problem is growing, too, so far as attracting junior officers is concerned, with a general forecast that the antimilitary climate will affect college ROTC noticeably this year.

He recalled how, on a recent tour of ROTC units, one cadet told him: "General, you don't know how rough it is to wear a uniform on campus."

Gen. Leonard F. Chapman Jr., commandant of the Marine Corps, recently voiced the resentment which is evident throughout the military at being tagged "hawks."

# Scott Sees A Possible Break In Peace Search

WASHINGTON (AP) — President Richard M. Nixon's chief spokesman in the Senate, Republican Leader Hugh Scott, has indicated a breakthrough may be in the offing in the search for peace in Vietnam.

Although he provided no details, Scott answered "yes, it is possible" when asked yesterday if the both sides might be approaching a de facto cease fire.

The Pennsylvanian gave the same answer when asked if Nixon "might be on the verge of something right now."

"I cannot tell you where there will be solid news, but there are some things happening," Scott said.

He was interviewed on the CBS radio-television program "Face the Nation."

But in a separate interview, Vice President Spiro T. Agnew said he knew of nothing that was about to be revealed by the Nixon administration on the Vietnam situation. He also backed up Nixon's refusal to be swayed by antiwar protests.

The President "cannot respond to the exhortation if he is convinced that that exhortation is based on illogics, simply because there are large numbers of people, because large numbers of people in a country of 200 million are still a small percentage of the citizens," he said.

Agnew said the United States has made many unsuccessful efforts to bring about peace.

"I can't point to anything specific," Agnew said. "I can only say the President is moving in all ways possible to reach an amicable solution to this terrible conflict."

He was interviewed on ABC's program "Issues and Answers."

Agnew's and Scott's comments came as Congress appeared to be preparing for increased debate on Vietnam policy.

Chief protagonist for stepping up the public debate is Sen. J. W. Fulbright, D-Ark., whose Foreign Relations Committee has scheduled five days of hearings on a bill to get all U.S. troops out of Vietnam by Dec. 1, 1970.

Scott has called for a moratorium on criticism about administration Vietnam policy.

If war opponents "could be quiet for about 60 days, the President may well have some things to show the American people," Scott said.

## Three Dogs Are Reported Poisoned

Marie Chase, of 60 Mountain Lane, Tamalpais Valley, reported to Marin County Sheriff's deputies Saturday that someone had poisoned her three German Shephard dogs.

## Church Gets $2,400 For Commune

The Sausalito Presbyterian Church has received a limited $2,400 grant to initiate an experiment in communal living by young "street people," Terry Henry, the church's night minister, said today.

Henry said, however, that the church so far has been unable to find a house suitable for the project, which is an outgrowth of a project started by the church last spring to help the "street people." (Details of the program were described in a church page feature of Independent-Journal on Sept. 27.)

The commune — or halfway house — would be a home for a small cadre of regulars and also is intended to serve as an emergency crash pad for transients who need a temporary place to stay.

The 14 or 15 youths who will form the core of the commune — many of who lived in the church during the summer — stayed at the San Francicso Theological Seminary in San Anselmo last week. Henry is a student at the seminary. Seminary classes started today, however, and "the people are back on the street," Henry said.

The Sausalito church has received a $1,200 grant from the church's synod strategy board and another $1,200 from its board of national missions which will permit the experiment to run through at least the middle of December. The church had asked for $12,600 to put the experiment on a year-round basis.

Henry said the church is looking for a four or five bedroom house with two baths and can pay up to $400 monthly in rent. To get the experiment launched, Henry said, the church is willing to rent a house on a monthly basis while he looks for a house for a longer term.

## Session Is Set On Finances

A preliminary report on the finances of the Fairfax School District will be made by a special citizens committee at a meeting of the district board at 7:45 p.m. tomorrow in the district office.

On June 3, voters rejected a 95 cents per $100 assessed valuation tax increase which would have raised the basic tax rate to $30. The board named the citizens committee Aug. 28.

The board will also discuss a reading specialist program, hear a report from trustee Jane S. Durr on a meeting last Thursday of women trustees in the Tamalpais High School district and receive an enrollment report.

## Slide Repairs To Be Studied

Bids on repairing the slide on Forrest Avenue will be discussed by the Fairfax City Council at an adjourned meeting at 8 p.m. today in the Fairfax Women's Clubhouse.

The city received three bids Thursday on removing the slide and repairing the street, the lowest of bids, $77,200 from Maggiora and Ghilotti of Corte Madera, $30,000 more than the engineer's estimate.

Although a portion of the slide lies in San Anselmo, that city has not yet offered to pay any portion of the cost of the slide removal.

Other items to come before the council include: bids for cleaning lots 90 and 96 on Forrest Avenue, an agreement for street lights on Bolinas Avenue, and the annual pickup service for debris Oct. 27 through 31.

## Applications For Job Open

Persons interested in the job of community relations worker for the Marin County Department of Public Social Services must file applications by Oct. 24. An examination for the position will be given Nov. 15.

Job requirements include a college degree or equivalent, plus one year of experience, professional or voluntary, in dealing with the problems of low-income neighborhoods. Additional experience may be substituted for college training. Monthly salary range is $849 to $1,033.

Full information and application forms can be obtained from Merit System Examining Agency, 1217 H Street, Sacramento, or the Marin County personnel or social services departments.

## Marin City Election Tomorrow

Six Marin City residents have filed for the five seats on the Marin City Council to be elected in day-long balloting tomorrow at the Economic Opportunity Council office in the Manzanita Center.

Candidates for the nine-member council, to be elected at large, are Ronald Foster, Terrie Harris, Ruth Hodges, Royce McLemore, C. J. Williams and Peggy Ann Bullock.

Foster has been on the council for a year and Miss Harris, Mrs. Hodges and Williams have served for five weeks. The latter three were seated on the council on Aug. 29 when four absent members were removed from the panel for missing three consecutive meetings.

Mrs. McLemore has not served on the council.

The primary concern of the council now is the use of a $50,000 development grant from the federal department of housing and urban development. The council has hired a community coordinator who is expected to raise funds for future development of the city.

The polls for the council election will be open from 10 a.m. to 7 p.m.

## Discussion Set On Architect

Hiring of a landscape architect to draw up plans and specifications for city park renovation will be discussed by the Fairfax Park and Recreation Commission at 8 p.m. tomorrow at the Women's Club.

The city council on Sept. 8 gave the commission permission to hire Ribera and Sue of Berkeley to draw the plans at a cost of $1,100, according to commissioner Eleanora Edgar.

The commission will also discuss naming a youth of at least 16 to the group, and hear a report from a committee seeking a new recreation director.

## Hub Trustees Set Transit Discussion

Pupil transportation will be discussed at tomorrow's meeting of the San Anselmo School District board.

The 7:30 p.m. meeting will be held in the multipurpose room of Isabel Cook School, 1000 Sir Francis Drake Boulevard.

**JACKIE FLEES** — Mrs. Jacqueline Onassis in scarf, white sweater and mini-skirt breezes past a New York Daily News photographer after she flipped him judo style outside a New York film house where she had been attending a screening of the Swedish film, "I Am Curious (Yellow)." (AP Wirephoto)

# Jackie Onassis Uses Judo On Photographer Outside Theater

NEW YORK (UPI)—Jacqueline Onassis, irked when news photographers tried to snap her picture at the sexually-explicit Swedish film "I Am Curious (Yellow), stomped out of the theater yesterday and flipped a lensman over her thigh to the ground in a neat judo maneuver.

The photographer, Mel Finkelstein of the New York Daily News, landed on his knees after being tossed by the slim, former first lady, but managed to snap a picture of her walking away.

"That girl can handle herself," he said.

The incident was the former Mrs. John F. Kennedy's second scrape with photographers within a few days.

Last week, Ron Galella, a freelancer who spotted Mrs. Onassis and her son, John F. Kennedy Jr., bicycling around Central Park, was arrested for "harassment" on the complaint of one of her security men.

Galella claimed it was he who was harassed—roughed up by two private guards—but he got the pictures. His case now awaits a court hearing.

Finklestein and other photographers arrived at the Cinema Rendezvous yesterday soon after Mrs. Onassis and her husband Aristottle arrived in separate cars at 4:15 p.m. The newsmen had been tipped about the famous couple's presence by the theater manager, who declined to give his name.

When Mrs. Onassis left her seat during the controversial movie to go to the lounge, she noticed the photographers waiting in the lobby. She asked the manager to make them leave and, as Finkelstein said, "We were already leaving. We decided we would work at a discreet distance."

But, Finkelstein said, Mrs. Onassis followed them out of the lobby. Walking six feet out of her way, he said, she made for him and hit him with what he called the "judo trick."

"She grabbed my right wrist, put her other hand on my left elbow, put out her left leg, and flipped me over her thigh." Mrs. Onassis who wore a tight, short skirt, a form-fitting sweater and a kerchief that covered most of her face, left the theater immediately. Her husband, the Greek shipping magnate, stayed for the rest of the film, whose explicit sex scenes have led to its confiscation in some areas.

# Prison Hunger Strike An 'Off, On' Thing

San Quentin Prison's "off and on" hunger strike by black inmates continued today but prison officials are convinced "the majority are at least doing a little nibbling."

Associate Warden James W. L. Park reported a note was found which had apparently circulated among striking prisoners to urge them to "eat your peanut butter sandwiches and fake on the pig. Please don't let the pigs see you eating."

Park said 62 sent back breakfasts this morning. Yesterday, 63 refused breakfast; 28 lunch, and 57 dinner.

The hunger strike, in the prison's disciplinary section, was organized Wednesday by a group calling itself "Panther Power to the Vanguard."

It was called to reinforce 10 demands submitted by the inmates, ranging from release of the 88 blacks in the disciplinary unit to hiring black doctors, nurses and a black warden. Inmates also asked for black parole board members.

Park noted the prison had been recruiting minorities a long time before the demand by the strikers.

## Man, 22, Talked Out Of Jumping

SAN FRANCISCO (UPI)—Two employees talked a 22-year-old San Jose man out of leaping off the Golden Gate Bridge Saturday night.

John Reinhard and Mike Rubke said they were driving along the bridge at 10:46 in their tow truck when they saw the man climb over the rail just north of the north tower. They ran to him and talked him into climbing back.

The man, identified as David R. Pierce, was taken to San Francisco General Hospital for observation. He said he had been having marital difficulties.

## Judge John Bussey, 65, Dies Of Cancer

SAN FRANCISCO (AP) — Judge John Wesley Bussey, the first Negro to serve on the municipal court and superior court benches here, died yesterday from cancer. He was 65.

Born on a farm near Columbus, Ga., he was a graduate of the University of California and took his law degree from Harvard University.

## 240 Pigeons In Final Race For Young Birds

About 240 Marin racing pigeons again proved yesterday that they can make better time through the Redwood Empire than a motorist.

The event was the close of the young bird season by the North Road Invitational Pigeon Club of Marin, with about 80 birds entered by Marin owners in each of three races from Oregon to the owners' homes in Marin.

The first race, from Klamath Falls, a distance of 300 miles, was won by Eugene Wester of Fairfax, with a blue check cock at a speed of 45 miles an hour.

The second race, also from Klamath Falls, was won by Edward Abreu of San Rafael, with a blue hen at a speed of 35 miles an hour.

The third race, from Junction Station, a distance of 350 miles, also was won by a bird belonging to Wester, at a speed of 39 miles an hour.

## Four Wheels Stolen

# 1941 Fire Pumper To Go On Auction Block

Anybody want a fire truck that can pump 200 gallons per minute? Or powerful sedans with California Highway Patrol specifications?

These and other vehicles will go on the county auction block at the Civic Center in Santa Venetia Saturday at 10 a.m.

The county will auction off 45 vehicles in the lower parking lost west of the administration building. Doug Edelen, county purchasing officer, announced that the vehicles are surpluses from the county garage, county fire department, North Marin Water District and the cities of Tiburon and San Anselmo.

Auctioneer will be William Douglass, a professional auto auctioneer from Fresno, who will get 5 per cent of the gross as his fee.

Edelen said that successful bidders must deposit 25 per cent of the price in either cash or cashier's check on the day of the auction, and pick up the item and pay the balance by 5 p.m. Oct. 14.

Most of the vehicles are sedans, including seven sheriff's cars with patrol specifications. The fire pumper is a 1941 International truck, declared a surplus by the county fire department. Others include a half-ton pickup truck and a station wagon.

## Trustees Accused Of 'Jiving' Not Giving

Jerry Coleman, a member of a student group called the Young Patriots, told the Marin Junior College District Board Thursday night, that the board was "doing nothing but jiving."

Due to a typographical error, the Independent-Journal Friday quoted him as saying "giving."

PROTEST LEADERS — Sam Brown (left) and David Hawk, co-ordinators of the Vietnam Moratorium Committee, stand in the center of the Washington headquarters as they pose for this fisheye lens view of the office at work. The first of six moratorium days is Oct. 15. (AP Wirephoto)

# Antiwar Youth Map Plans

Continued from page 1

mittee feels sure now of well-organized support on some 600 campuses in every state of the union.

But now the movement has spread beyond campuses. Committees of lawyers, doctors, clergymen, businessmen and housewives are springing up, says Hawk, to spread the word throughout the citizenry at large.

The committee is urging businessmen to offer employees the day off, and to shut down if possible—a "moratorium on business-as-usual to allow concerned citizens to spend that day participating in antiwar programs in their local community."

Besides bringing pressure to bear on Nixon for a troop withdrawal, Hawk said, a key objective of Oct. 15 is to prepare for "an enlarged and lengthened moratorium for November."

The committee started out with minimal funds from Kennedy and McCarthy supporters. Now it is receiving as many as 1,000 envelopes a day—most bearing gifts. The money pays for buttons, bumper stickers, office rent, painting, and minimum subsistence salaries for the dozen or so regular moratorium staff members.

So busy is the office that nobody has stopped to count the money, or the volunteers who wander in daily to help with the mail and telephone calls.

"The volunteers began pouring in a week or so ago," said Peggy Shaker, the 21-year-old director of volunteer work. She is a slim, olive-skinned worker from Niles, Ohio, who was graduated from college in June and spent the summer looking in vain for a job with a liberal in Congress.

"So many of these kids worked for Bobby Kennedy and McCarthy," she said. "And you know that for many of them this is the last real hope to grab on to. We just bring them in and sit them down and they do the really crappy work and never complain."

The atmosphere in the overheated rooms is hectic and serious. But the mood is cheerful and friendly.

Hawk, like his fellow coordinator Sam Brown, the Harvard theology dropout who ran the McCarthy youth drive last year, and other staff members, patiently endures repeated visits and identical questions from newsmen, along with the hot lights of television film crews and the TV equipment that clutters the offices.

A freckle-faced girl walks shyly in, her skirt at knee length, her hair in a conservative bob.

"My name is Edna," she told Peggy Shaker.

"Do you want to work now or sign up for later?" Miss Shaker asked.

"I go to D.C. Teachers and we're not organized for the moratorium and I want to organize it."

"Okay. In there. If you can't find anyone to help you come back here."

A uniformed man enters, pushing a dolly laden with heavy cartons.

"The decals!" shouts a decal person.

"The bumper stickers!" yells a bumper sticker person.

"The buttons!" exults the girl recently bereft of buttons.

They are leaflets, and everyone is just as glad.

On Oct. 15, the plan is to hand out leaflets at supermarkets connecting the war and the high price of groceries. Workers leaving their plants will get leaflets tying the war to the income tax surcharge and the inflation that is diminishing the value of their paychecks.

"We're beginning to get a pattern of our activity schedules for that day," Hawk explains. "It's up to the local people to set it up, although we suggest kinds of activities and things like wearing black armbands."

## Bruce's Plan Will Get A Public Airing

Marin County Administrator Alan Bruce's recommendation that various county commissions and committees be merged or eliminated will receive a public airing before the board of supervisors tomorrow at 10:30 a.m.

The supervisors' all-day session will start at 9 a.m. on the third floor of the Civic Center.

Other items on the supervisors' agenda include a cooperative city-county approach to the courthouse square problem, a clarification of responsibility in the treatment of victims of attack, and a wrangle over payment of salary to Dr. Clyde G. Miller, suspended Community Mental Health Services director, for the time he spent at conferences in England last August.

The afternoon agenda includes a request from film companies for renewal of permission to take commercial films on county roads, and the Novato Chamber of Commerce request for a freeway exchange at the entrance to Gnoss Field.

### Window Vandalism

Vandals fired three air rifle pellets through a plate glass window in the home of John T. Harris, of 1053 Las Gallinas Avenue, Terra Linda, Marin County sheriff's deputies reported yesterday. Value of the 4-foot by 8-foot window was undetermined.

## Reagan On Invited List As Speaker

I-J Special Report

SAN FRANCISCO — The student body government at San Francisco State College, in an effort to draw controversial speakers who have consistently shied away from the angry campus, has invited Gov. Ronald Reagan, San Francisco Mayor Joseph Alioto, State Supt. of Public Instruction Dr. Max Rafferty, and other public figures to give talks on campus.

Associated Students president Harry Lehman of Novato said he is also trying to obtain better facilities for the speakers in the "Controversy 69" series.

"It just isn't right to invite someone to appear and then present him to an audience standing on wet grass as was the case with the Speakers Platform series in the past," Lehman explained.

William Harkness, new dean of student activities, and Fenton McKenna, dean of the School of Creative Arts, will be working with Lehman to secure indoor facilities for the visiting speakers.

Invitations have also been sent to Sen. Alan Cranston, Assemblyman Jesse Unruh, grape strike leader Caesar Chavez, and Lt. Gov. Ed Reinecke. So far, according to Lehman, the only note of acceptance has come from Reinecke.

The Panama Canal was opened in 1914.

## Robbers Busy At Movies, Market

The Marin Motor Movies and Stop and Go Market were held up by armed robbers Friday and Saturday, San Rafael police reported today.

Stop and Go employee Jerry C. Orth reported that two youths about 18-years-old, one with bushy black hair and a mustache and the other with long blond hair, entered the market at 2222 Fourth Street about 8:20 p.m. Friday and asked for cigarettes.

When Orth opened the cash register the black-haired one drew a revolver with a shaking hand and demanded the money. About $275 was taken and the pair fled the store.

Claudia K. Moissant, ticket seller at the drive-in movie at 25 Bellam Boulevard, reported that she was in the ticket booth at 8:15 p.m. Saturday when a red-haired man in his late thirties came into her booth with a revolver and paper bag in his hand and demanded the cash. She gave him about $130, and he ran from the booth and fled in a beige foreign station wagon with a luggage rack on the roof.

She told police that the car had been parked on Bellam Road near the movie entrance for about an hour while the gunman apparently watched the booth.

### Nudes Return To Stinson Once Again

The pleasant weekend weather brought the nudes to Stinson Beach again yesterday.

Sheila L. Royle, 22, of 278 Linden Lane, Mill Valley, and Marilyn J. Howell, 20, of Emeryville, were booked into Marin County Jail last night for investigation of being nude in a state park.

The two young women were arrested on the beach at 5:40 p.m. by park rangers. Each was released on $310 bail to appear in Municipal Court Wednesday at 2 p.m.

## Priorities On Highway Work To Be Studied

Prioirites for highway work in Marin County will be the subject of two meetings scheduled in Marin County.

The first will be a meeting of the highway committee of the Marin County Chamber of Commerce and Visitors Bureau scheduled for 4 p.m. Oct. 15 at the Ross Valley Savings and Loan Association Community Room in San Anselmo, according to manager Carroll A. Snyker.

Then the state Chamber of Commerce will hold its Marin County meeting on Oct. 27, the hour and place to be announced later.

Highway projects to be discussed include: Highway 101 at Terra Linda; at Ignacio Boulevard and from Novato city limits north to the Sonoma County line; Route 251 from Route 17 to Highway 101; Route 17 from Highway 101 to Point Reyes Station; Route 1 from Highway 101 to Point Reyes Station, and Route 37 from Novato to Route 17 near Nicasio.

## Playing Field Pact On Agenda

The Novato Unified School District board will award a contract for the construction of the playing field at San Jose Junior High School when it meets at 8 p.m. today in the school administration building.

The work is to be done under a grant from the federal government to aid construction in school districts which have a high concentration of students who are children of servicemen. The $58,312 grant for the junior high school and a $168,500 grant for the completion of the shop at San Marin High School, were made last March.

The board will also accept a gift of $1,000 from the San Ramon Parent-Faculty Club, appoint members to a multiethnic study committee and receive a report on library development at San Marin High.

## Boy, 6, Runs Into Auto; Breaks A Leg

A 6-year-old boy was hospitalized and three other people injured in three separate accidents in Novato yesterday, according to police.

Scott Baird, son of Army Capt. and Mr. William W. Baird of 521 Stone Drive, Novato, was treated at Hamilton Air Force Base Hospital for a broken left leg, and transferred to Letterman General Hospital in San Francisco where he was reported in good condition today.

The boy ran into the side of a Marin County sheriff's car driven by Deputy Sheriff James J. Hickey, 32, of San Francisco on Stone Drive 500 feet west of Terry Circle at 5:35 p.m., according to police.

A/1C Patrick A. Morgan, 20, and A/1C Robert J. Lipowski, 21, both of the barracks at Hamilton, were treated at the base hospital for multiple cuts and bruises on their faces arms, legs and bodies. Morgan was driving a motorcycle with Lipowski as a passenger when they overturned on Topaz Drive and Circle Lane in Habia at 7 p.m. yesterday, police reported.

Richard A. Hanes, 23, of 737 Going Lane, Novato, was to see his own doctor for broken teeth after his car hit the rear end of a stopped car at 7:50 p.m. yesterday on Highway 101 south of Diablo Avenue, police reported. The driver of the other car, Fred A. Bartsoff, 50, of 44 Raposa Vista, was unhurt, according to police.

### Spray Pool Contract On Novato Agenda

Progress on getting a contract for the spray pool at Pioneer Memorial Park will be discussed by the Novato Parks and Recreation Advisory Commission when it meets at 8 p.m. today in the Novato Community House.

The commission will also review its park priorities and hear the director's monthly report.

# Dr. Harry Emerson Fosdick, Liberal Theologian, Succumbs

NEW YORK (AP)—Dr. Harry Emerson Fosdick, whose liberal voice was a pillar of American Protestantism for a half-century, is dead at 91.

Dr. Fosdick died yesterday in Lawrence Hospital in Bronxville, where he was taken two weeks ago with a heart condition.

As a preacher in the pulpit and a teacher at Union Theological Seminary, Dr. Fosdick was a leading spokesman for modernism and a target of fundamentalists, who often called him a heretic.

Dr. Fosdick retired in 1946 as pastor of the interdenominational Riverside church, but wrote and spoke publicly well into his 80s.

Millions listened to his "National Vespers" radio program each Sunday afternoon from 1927 to 1946 and read such books as "The Modern Use of the Bible" and "The Meaning of Prayer."

His challenge to the fundamentalists made Dr. Fosdick a public figure.

In a 1922 sermon, "Shall the Fundamentalists Win?" he challenged fundamentalists for trying "to drive out of the evangelical churches men and women of liberal opinions."

"Nothing in all the world is so much worth thinking of as God, Christ, the Bible, sin and salvation, the divine purposes of humankind, life everlasting. But you cannot challenge the dedicated thinking of this generation to those sublime themes upon any such terms as are laid down by an intolerant church," Dr. Fosdick said.

DR. HARRY EMERSON FOSDICK
Voice silenced at 91

His sermon also questioned the doctrine of virgin birth, the inspiration of the Scriptures, the atonement of Jesus and the second coming of Christ.

Fundamentalism's champion, William Jennings Bryan, replied that Fosdick "believes that eyes came from light playing on a body and that ears came from the beating on the body of sound waves. He can believe these things and yet he cannot believe in miracles."

Dr. Fosdick, an ordained Baptist minister, was preaching then at New York's First Presbyterian Church. The General Assembly of the New York Presbytery asked him to conform to doctrine. He refused and offered his resignation but his congregation refused to accept it.

A year later the assembly asked him to become a Presbyterian minister and he stepped down from the pulpit, moving to Park Avenue Baptist Church.

He then became founding pastor of Riverside church, where John D. Rockefeller Jr. donated the tower and the 72-bell carillon, overlooking the Hudson River near Columbia University.

Riverside became a home for liberal theology. When Dr. Fosdick retired at age 68, he said in his farewell sermon, "A more harmonious, united, fraternal fellowship I never saw, with no one ever thinking from which of the various sectarianisms anybody has come."

Despite his large following, Dr. Fosdick considered personal counseling the most effective form of preaching.

"My preaching at its best has itself beeen personal counseling on a group scale," he once said. Another time, he said, "To be a Christian still means an intimate personal, dedicated response to his ancient invitation, 'Follow me.'"

Dr. Fosdick believed in social activism and was a pacifist, opposing U.S. entry into World War II.

He established a community center near Morningside Heights after leaving Riverside Church.

Born in Buffalo, N.Y., on May 24, 1878, Fosdick attended Colgate University and Union Theological Seminary. He was ordained in 1903 and married Florence Allen Whitney a year later. She died in 1964 at the age of 84.

He is survived by two daughters, Mrs. Eleanor Fosdick Downs, a Bronxville doctor, and Dorothy Fosdick of Washington; a brother, Raymond B. Fosdick, former president of the Rockefeller Foundation; a half-sister, Mrs. Ruth Fosdick Jones of Portland, Maine; two grand daughters, and a great-granddaughter.

The family said a private service would be held at their home this week, with a memorial service later at Riverside Church.

## Hayakawa Hits Faculty Power Role

PITTSBURGH (UPI)—Dr. S. I. Hayakawa, president of San Francisco State College, lashed out yesterday at "alienated intellectuals" on college faculties who derive "a sense of power from egging on student rebels."

Hayakawa of Mill Valley said there were "a significant number" of college faculty members at San Francisco State who sought to gain power by demanding a black studies program at the school.

"The demand for black studies was partly sincere," said Hayakawa, "but it was partly a power play on the part of radical militants—both white and black—to gain control.

"The goal of black studies should be first to call scholarly attention to the history of 22 million people which has thus far been ignored. But militant blacks are all too likely to use black studies not for scholarly inquiry, but for propagandistic purposes—to promote one or another point of view."

Hayakawa said his administration had successfully combated the problem and the black studies department at San Francisco State is now "just an orderly part of the academic program."

Dr. Hayakawa was in Pittsburgh to speak at today's United Fund luncheon.

## Graham Ends Anaheim Crusade

ANAHEIM (UPI)—Evangelist Billy Graham yesterday said America was so close to a national judgment that "it is more patriotic to come to God at this moment than anything I can think of."

Speaking at the final meeting of his 10-day Southern California crusade, Graham said "the only thing holding back God's judgment of America are those that believe in Him.

"Many people are counting on the fact that God, if there is a God, is not the God revealed in the Bible. But it makes no difference how our concepts may change. God hasn't changed. And God is not only a God of love, he is also a God of justice."

## Children's Day Care On Agenda

Day care for children will be discussed at 8 p.m. today at a meeting of the day care subcommittee of the County Family and Children's Advisory Committee in Room 400 of the Civic Center.

Joseph P. Denhart, director of the county children's center and preschool program, will survey the day-care needs of preschoolers and of pupils after school.

Social Security Act amendments of 1967 required that a day care subcommittee be set up to advise county welfare officials.

## Eel River Leaders To Discuss Future

The outlook for federal water and flood control programs will be among topics discussed at the Oct. 17 meeting of the Eel River Association, to be held at the Piedmont Hotel in Fort Bragg.

The meeting will begin at 9 a.m. and will include talks on water resources education and alternate plans to the Dos Rios Project.

## Boys' Outing At Fort Baker

The Fort Baker Service Club will fete students of St. Vincent's School for Boys, Marinwood, Sunday with a Columbus Day picnic and puppet show.

Other community groups will also participate in sponsoring the event, to be held from 1 to 8 p.m. at the fort.

Activities also will include games and award of prizes.

Thirty to 50 children are expected and each will have a military sponsor. Marin United Service Organization will provide hostesses.

# Double Agent's Widow Gets $6,472 Gratuity

SAIGON (AP) — The U.S. government has paid $6,472 to the wife of the reported Vietnamese double agent in the Green Beret murder case, but the U.S. Command described the payment as a "missing person gratuity."

A spokesman said the woman, Phan Kim Lien, accepted the payment Saturday. He added: "The amount of the settlement was mutually agreed upon and represents what is determined to be adequate compensation."

Asked how the amount was arrived at, he said the number of children in the family and other factors were taken into consideration.

The spokesman said the wo an's husband, Thai Khan Chuyen, "has been missing since June 20 while on duty with the U.S. Special Forces, Detachment B41, Moc Hoa, Republic of Vietnam."

"There is no evidence that he is dead," the spokesman said. "He is considered to be missing."

After the U.S. Command announced the murder charges against the Green Berets, Chuyen's wife filed a claim with the U.S. Embassy Aug. 23 accusing the Green Berets of killing her husband and asking for full information about the case. When the charges were dropped, she made a tearful visit to the embassy to protest.

Reports said her husband had been exposed as a double agent and was slain June 20 near the Special Forces headquarters at Nha Trang. The body reportedly was put into a weighted bag and dumped into the South China Sea. So far as is known, the body has not been recovered.

Saigon newspapers are still devoting considerable space to the story.

Yesterday, the papers reported two more cases of missing men in which the families charged that American forces were involved, but U.S. information officers said they knew nothing about either case.

# Pope Opens Meeting On Crucial Dialogue

VATICAN CITY (AP) — Pope Paul VI convoked Roman Catholic thinkers from around the world today for the start of a crucial period of debate within the troubled church.

The first meeting of a commission of 30 leading theologians was the opening event in what promises to be the most lively series of encounters here since the end of the Second Vatican Ecumenical Council four years ago.

On Saturday the Pope convenes his second world synod of bishops, which will run for about two weeks. Dissident priests from eight European countries will hold an unauthorized parallel meeting to discuss key issues including priestly celibacy.

A central issue in all three meetings will be the authority the Pope himself wields over the world's half-billion Catholics.

This authority has been challenged repeatedly since the pontiff, who turned 72 last month, rejected artificial means of birth control in the controversial encyclical "Humanae Vitae"—"Of Human Life"—last year.

The theologians' commission is an outgrowth of the first world bishops' synod in 1967. That historic synod recommended a permanent body to advise the Pope on matters of doctrine and theology in the light of new research.

The theologians selected by the Pope last April as representatives of many schools of thought, will gather in a church building on the fringe of Rome for two days of secret discussions.

# San Pedro Road Ramps To Open

Traffic flow should improve tomorrow on Highway 101 north of San Rafael when two new off-ramps at San Pedro Road are opened permanently to traffic.

According to the California Division of Highways, the ramps will eliminate some freeway congestion and improve access to both directions of San Pedro Road.

Although pavement on the ramps has been completed for some time, permanent opening was delayed until signs, lights and other safety devices were installed. During the recent Renaissance Pleasure Faire, they were open during daylight hours.

# Sen. Long Is For Keeping Oil Allowance

WASHINGTON (AP) — Sen. Russell B. Long predicts his Senate Finance Committee will reject efforts to cut the oil depletion allowance—a controversial tax provision which has enhanced Long's income from oil royalties.

The finance committee headed by the Louisiana Democrat, now is considering a House-passed tax reform bill which reduces the depletion allowance from 27.5 per cent to 20 per cent.

"I am not going to vote to reduce it, and simply a matter of counting noses would cause me to think that the committee is not going to . . ." Long said in an interview televised Sunday.

A new element was injected into the tax reform debate by disclosure Long has collected in the last five-and-one-half years more than $300,000 in oil royalties which have been free of federal income taxes because of the present 27.5 per cent depletion allowance.

Louisiana Mineral Board records show Long has gotten $1,196,915 in royalties on four state leases since January 1964. Under present tax law, 27.5 per cent of gross income from oil, gas and other minerals is exempt from federal income taxes.

Applying the 27.5 per cent figure to Long's known royalty payments means the senator had income of at least $329,152 which was sheltered from the bite of federal income taxes.

Long, who has been identified with the oil industry since he came to the Senate two decades ago, said in an Associated Press interview that "Most of my income is from oil and gas."

"I don't regard it as any conflict of interest," he said. "A long time ago I became convinced that if you have financial interests completely parallel to your state, then you have no problem.

"My state produces more oil and gas per acre than any other state in the Union. If I didn't represent the oil and gas industry, I wouldn't represent the state of Louisiana."

Vice President Spiro T. Agnew, appearing yesterday on ABC's "Issues and Answers," was asked about Long's tax-free oil royalties. He responded:

"I think first you have got to look at the time span over which this amount of money has been received by the senator and I think, if I recall, it has been a period of many years. This is not $300,000 in one year or anything of that sort.

"Secondly, I am very sympathetic to the Senator's defense when he says that his state is dependent to a great extent upon the life and the vitality of the oil industry, so that in representing the oil industry he is not representing himself, he is representing his state."

Agnew added, in answer to another question, that he doesn't view the depletion allowance as "a tax loophole to the extent many do . . ."

The depletion allowance came up, too, when Long appeared on Metromedia's "Evans-Novak Report," taped last week for broadcast yesterday. There was this exchange:

Q. . . .Do you favor reduction to 20 per cent?

A. I have said every time since I was reelected in 1950 that I was not going to vote to reduce the depletion allowance . . . and I would be a renegade and I would be untrue to the commitments I made to the people who voted for me to be their senator if I did not keep that.

# In this age of planned obsolescence, is there a place for a car so unconventional that it may well last for decades?

# Mercedes-Benz thinks so.

*At $4,780*, the 220 Diesel may be the world's greatest economy car. Read why.*

Mercedes-Benz lavishes such attention on *engineering* that some people say Mercedes-Benz motor cars are too sophisticated.

And, by conventional standards, they *are*.

But Mercedes-Benz engineers step to the music of a different drummer. They insist on building margins of performance and safety into their machines to meet the *unexpected*, as well as the expected. And they stubbornly refuse to design anything just good enough to "get by" for a time—and no better.

That, in essence, is what distinguishes a Mercedes-Benz, what sets it apart from the crowd of conventional cars, bred of conventional standards.

## An amazing maverick

The automobile at right is a shining example. Mercedes-Benz sells 15 remarkable gasoline-powered models in the U.S.—plus *this* one, perhaps the most remarkable of all.

It is the legendary *Diesel*.

This maverick is so defiantly unconventional that it can probably cut your fuel bills in half, eliminate many of your usual repair bills—and is likely to be serving you faithfully when most of today's sleek new dreamboats have been chopped up for scrap.

## Not for everyone

To appreciate the Diesel, you first have to understand the idea behind it—and be able to adjust to its three foibles. It is not for every man.

The Diesel is built for people who want an *economy* car, but who decline to venture onto the highways in a featherweight, cramped machine. If you are willing to pay for the safety and comfort of a big, 3,000-pound sedan, the Diesel will reward you with fuel costs that match the flimsiest little half-pint on the road.

The three Diesel foibles:

First, you cannot hop into this car and roar off in a cloud of dust. The Diesel starts like any other car when its motor is warm. But, in the morning, you must be patient for about 30 seconds while the motor preheats for firing. (A minor nuisance which turns to *advantage* in winter, enabling you to get underway while others may still be cursing and shivering.)

Second, you must abandon any thought of fireball acceleration. The Diesel will cruise indefinitely at any posted speed limit in America. (Once, it even *won* the 8,728-mile African Rally!) But, as a dragster, it's a bust.

Third, though the Diesel sounds exactly like an ordinary car when it's moving, you'll detect a vestigial "pocketa" at idle—a slightly bizarre note in a car otherwise so grand.

If you can learn to shrug off an occasional jest about one of these eccentricities, you'll have the last laugh on everybody at the end of each month—year after year.

## Cuts fuel bills in half

The Diesel works its incredible fuel economy in two ways.

To begin with, of course, it uses lowly diesel fuel. (In a pinch, it will run on soya-bean oil.) The price of diesel fuel varies from state to state. In almost all states, it is lower than *regular* gasoline. In some states it costs only *half* as much.

The Diesel also *sips* its fuel *at a miserly rate*. In fact, the engine burns every drop so efficiently that exhaust is virtually smoke-free. A surprise to many.

Now—if you've been resigned to getting 12, 15, 18 miles a gallon from standard sedans, brace yourself.

The new Mercedes-Benz 220 Diesel easily delivers over *twenty-five* miles to the gallon—and on trips, when you get full benefit of diesel fuel's price advantage over gasoline, you can average *30, 40, even 50 miles for the cost of a gallon of regular!*

## Many repair costs vanish

More good news. The diesel engine is such a gem of simplicity that it merely *dispenses* with many parts that normally end up costing you money. It has no spark plugs. No points. No condensers. Not even a carburetor to repair or replace.

## It goes and goes and goes

Best of all, this 4-cylinder diesel injection engine is designed to give you uncommonly *reliable* service—for years.

Not only are there relatively few parts to go amiss, but the parts that *are* present have been engineered to have characteristic Mercedes-Benz stamina. There's a rugged overhead camshaft and a *five*-bearing crankshaft. Twelve of the 16 piston rings are coated with expensive molybdenum—an exotic "space age" metal that won't melt below 4,712 degrees.

The ingenious engineers, seeing that valves wore unevenly, designed them to *rotate* slightly with each stroke, vastly prolonging their life.

Mercedes-Benz does not *warrant* the Diesel to last for 10 or 20 years. Any car's life depends on how hard it is driven and how carefully it is maintained. But a lifetime measured in decades is no pipe dream, either.

*Of the 700,000 Diesels it has built since 1936, Mercedes-Benz estimates that fully 80 percent are still humming along!*

## First, a Mercedes-Benz

The engine makes this Mercedes-Benz an economy car. But the real value of the Diesel lies not so much in the things that make it different from every other Mercedes-Benz as in the things that make it the *same*.

Like every Mercedes-Benz, the Diesel is *welded* into being, not bolted. After 50,000 miles or so, you may begin to wonder if it will *ever* rattle.

The body is dunked in primer, baked, spray-painted, hand-sanded, sprayed again, then *hand*-sprayed. Even the *insides* of the hubcaps are coated. Total paint and primer rust protection: 44 pounds.

Like every Mercedes-Benz, the Diesel bristles with sophisticated, ultra-performance features that are simply unavailable on domestic sedans. *All-independent* suspension. Taut, recirculating-ball-type steering that gives you the "feel" of the road. Massive, racing-type *disc* brakes on all four wheels.

*It steers, maneuvers and stops as if your life depended on it.*

This is one reason why *Car and Driver*, with a world of cars to choose from, concludes that the current Mercedes-Benz line "represents the present pinnacle in safe car engineering."

Many cars are designed to win admiration *for* their owners. Mercedes-Benz cars are designed to win admiration *from* their owners.

Quite a distinction.

# Dear John: I Need Two Vacations Each Year

John F. McInnis, chairman,
Marin County Board of Supervisors,
Civic Center,
San Rafael, Calif.

Dear John:

Will you please be so good as to let me know what job is a v a i l a b l e in county employ that I might be qualified to fill — but not fill very well?

I am asking this not because I am dissatisfied with my present job. But you see, John, I get tired.

My employers h e r e at the Independent-Journal g i v e me only four weeks vacation each year. It makes no difference how good a job I do; I still get four weeks off with pay. And if I do a bad enough job, I will get off permanently — but without pay.

**I UNDERSTAND** i t is different with the county. If one has a job with the county and there are a lot of complaints about the way he does it, he can get more vacation.

None of us around here was aware of this until Dr. Clyde G. M i l l e r showed the way. As I understand it, Dr. Miller had a month's paid vacation. He went to E u r o p e. He overstayed the month, and put in a bill for eight days' additional paid leave. Mike Mitchell, that obstinate Greek that the people of Marin keep e l e c t i n g auditor-controller, refused to h o n o r the claim, and Dr. Miller withdrew it.

**BUT THEN** Dr. Miller figured out the new way to get more paid vacation. He made enough people sore at him so there would be calls for his firing.

So, you people on the board of supervisors held a hearing and suspended Dr. Miller for a month — with pay. This makes two months paid vacation he gets this year, instead of the one month and eight days he would have got if it had not been for that tightfisted Mike Mitchell.

Now, here is what I have in mind, John, and I hope as an old friend you will help me with it:

**I'D LIKE** to have some county job for which I am only partially qualified. I figure that way I could be sure to louse things up enough so there would be complaints and some prominent citizens would ask that I be fired. Then I could get an extra month's vacation.

It wouldn't need to be one of your top paying jobs. We who work for private employers don't expect to start out at $18,000 or $20,000 a year like some of the people you hire at the Civic Center do. But the way salaries are there, surely you must have something around $15,000 or $16,000. (I'd take more if it is necessary under your personnel ordinance, of course.)

**THE ONLY THING** that worries me is this: Even if you gave me a job I didn't know too much about, I might get c a r r i e d away with a lot of old-fashioned ideas of doing my best and fail to louse it up enough. And if that should happen, I wouldn't even be able to get away with an extra eight days vacation, with that Mitchell on the job.

I'm w i l l i n g to take that risk, though. Two months vacation a year looks m i g h t y good. And I've never found it too hard to make a few people sore.

Please let me know what's available, John. I'd like to get going on this so I could maybe go to Hawaii about January. OK?

Regards,
THE EDITOR.

## The Skunk And 'Hair'

We think perhaps the following account of what happened in our back yard this week might have some kind of moral. But we are not quite sure what it is, so we tell it like it was and leave the moralizing to our readers.

For almost a month we have been placing dishes of dog food out in our back garden under lights for the raccoons. Sometimes a skunk comes first. While he is a handsome little fellow, we try to discourage him, for the obvious reason.

But how does one discourage a skunk? It is a delicate job. Especially from an open window scarcely six feet away. We shake our fist, yell, bang the window frame and the skunk ignores us, except to raise its tail an ominous inch higher.

It just so happened that we had a cassette of the musical, "Hair," on our tape recorder. We pushed the play button and the voices of unrestrained, uninhibited youth burst forth.

The skunk stopped eating and turned and marched away in dignity, but double-quick. We wonder if it was trying to tell us something.

# Case Of The Unemployed Actor And The Absent Labor Market

By HENRY C. MacARTHUR

SACRAMENTO (CNS) — A somewhat peculiar "precedent" decision was issued recently by the California Unemployment Insurance Appeals Board.

The board held that in order to be eligible for benefits, a claimant must show that although he is unemployed, that he is attached to a labor market where "there is a reasonable demand for his services."

**THE CASE** was that of an 8-year-old youngster in Hollywood, who in 1968 had only one day of work as a child actor in a television commercial.

Despite the fact that he worked only one day, for which he was paid $120, he received substantial payments for re-runs or re-use of films, which the law c o n s i d e r s wages. Thus, the claimant was eligible, as far as earnings were concerned, to collect insurance.

However, the appeals board held that one day's employment in a year did not show that claimant was attached to any labor market where there was a "reasonable demand" for his services, and denied benefits to the young actor, pointing out that his age had nothing to do with the decision.

**ROBERT W. SIGG,** chairman of the appeals board, said that residual payment for past services constitutes wages, but such residual payments do not establish an attachment to the current labor market.

If the residual payments received by the claimant are considered wages, then the state collects taxes on them from the employer for unemployment insurance benefits, and from the claimant for disability benefits.

But, under the decision, the claimant cannot collect on the insurance he and his former employers have bought and paid for.

The board also said "availa-b i l i t y for work cannot be measured entirely by willingness to work, although willingness is an indispensible factor in determining availability." All of which adds up to the board denying benefits to an individual who was able and available to work in a job he had been on previously and e a r n e d money performing, part of which went to the state to pay for insurance against unemployment.

# WHAT OUR READERS SAY

## No Threat To Child In Sale Of Beer

It was interesting to read the article in the Independent-Journal Sept. 23, "Ross Parents Rip Beer License Plan."

Jean's Kitchen, in Ross, a small eating place trying to participate in the free enterprise system is no doubt experiencing an economic struggle. Jean's Kitchen should be highly commended for the effort and desire to carry on a busi-n e s s with so many odds against her.

The question is not whether Jean's Kitchen secures a beer and wine license, but rather the reasons posed by parents and trustees in opposition to the request for a license. Parents state, to quote, ". . . that the schools proximity of the alcohol would be a detrimental influence on school youngsters." Just how does beer in Jean's Kitchen become detrimental? This is certainly a vague and broad statement. We wonder if the persons opposing and raising objections do shield their children from a l c o h o l i c beverages when these people consume alcoholic beverages in their own homes. Or, is the practice of drinking in the closet more protective? Are the same children shielded from watching crime, murders, and vice on TV and films? Actually, children with good, strong character building in the home need not be concerned with any so-called outside "detrimental" effect.

To my way of thinking, any one who has the courage and desire to operate a little business rather than to be dependent upon public assistance, certainly deserves a world of praise and the full cooperation of the community at large.

## San Rafael High Ranks Among Best

Recently I have had the displeasure of reading a number of headline criticisms of San Rafael High School, it's students and faculty. It is the responsibility of all news media to tell all sides to any story, especially a local paper such as t h e Independent-Journal. While criticisms, both on the editorial page and off, have been trumpeted, replies have either been buried or nonexistent.

I feel that it is time for a reply. Although it is true that some students on our campus don't always act in an exemplary manner, a comment that can be made on all segments of society, it is also true that there are many student such as members of a t h l e t i c squads, the debate team, service clubs, dramatic productions, special interest organizations, and others that are representing San Rafael High School in an outstanding manner.

The comment that stuents are not receiving a satisfactory education because of unqualified or otherwise deficient staff is false. I have had an opportunity to talk to student leaders and faculty members from throughout the country and consistently San Rafael's educational p r o g r a m and faculty level ranks among the best . . .

Student Body President SRHS

## Athletes Support Coach's Policy

In regard to your Thursday (Sept. 25) article about Coach Bob Troppmann resigning as athletic director of Redwood High School I would like to say that I don't think the superintendent of the Tamalpais High School District, Mr. Robert D. Torrey, was right in taking away the right of a coach being able to tell a player to get his hair cut.

I am a junior at Redwood High and play both baseball and basketball and I believe that most of the guys that play for Redwood on a team agree on this. I feel that an athletic team represents the school and I would want my school represented properly. Also, it would probably hurt the team morale if the team was divided because of this issue, besides if a boy really wants to play a sport bad enough he will sacrifice his "Joe Pepitone" or "Joe Namath" look for the team. If you take away this right from a coach, who knows, maybe soon the coach won't even be able to make up his own starting lineup.

I don't b e l i e v e the rule should be made uniform for all three schools because I don't believe that there is such a serious problem at Redwood regarding this issue, but I'm not aware of the situation at the other two schools, Tamalpais and Drake High . . .

# TRY AND STOP ME

An indulgent father treated his 8-year-old son to his first lunch at a fashionable, expensive r e s t a u r a n t. The boy seemed particularly fascinated with the way the waiter filled up his glass as fast as he drank.

On the way home, the father asked if the boy had a good time. "The food was great, dad," conceded the boy, "but they sure serve you a lot of water in that joint! I had a mighty tough time keeping up with it."

The late Sam Rayburn, master politician, had this bit of advice for a young friend just elected for his first public office. "Keep enough balls in the air, my boy, and your constituents just won't notice the misses." Another time, he advised, "Be bold as hell — preferably on a rising tide."

## Democratic Senators Dynamiting Peace For Partisan Purposes

By ROSCOE and GEOFFREY DRUMMOND

WASHINGTON — The leaders of the Democratic Party are playing with political dynamite in trying to force President Nixon to withdraw U.S. troops from Vietnam so rapidly as to throw away all prospect of negotiating a peace.

They may be the ones who get blown out of the water. That's not important.

What is more important is that the U n i t e d States of America would be hurt — grievously hurt — by this shortsighted, reckless, perilous undermining of what the President is doing to end the war by seeking a fair peace.

**NO ONE** is suggesting that those who want peace at any price, those who want to withdraw all American forces immediately, regardless of the consequences, should still their protests.

All the President and others who are earnestly seeking disengagement and a d e c e n t peace are asking is that for a reasonable period congressional critics should stop telling Hanoi that it doesn't need to negotiate, that all it has to do is to wait and they — the congressional critics — will see that the U.S. government accepts a no-peace policy.

**THE VIETNAMESE** war has never been a partisan issue, and attempting to bring it to an end with a fair peace is not a partisan issue.

But leaders of the Democratic Party are now trying to make it so. Sen. Fred R. Harris of Oklahoma, chairman of the Democratic National Committee, disclosed this strategy in a candid remark to the press last week.

"We will," he said, "hold Nixon responsible if he turns South Vietnam over to the Communists."

But simultaneously Senator Harris and Democratic senators like Edward Kennedy, G e o r g e McGovern, Eugene McCarthy, J. W. Fulbright are continuing to demand such a rapid pull-out of U.S. troops that the end result would be to give the Communists control of South Vietnam.

Thus, the national chairman of the Democratic Party is not only acting to make Vietnam a pay-dirt partisan issue but is also seeking to put President Nixon in such a box that no matter what he does he's bound to lose.

**WHAT HE'S UP TO** is now in the open.

He wants to give the Democratic Party all the dividends he can by joining in the pressure on Mr. Nixon to get American troops out of Vietnam fast.

But Harris doesn't intend that the Democratic Party should take any responsibility for an imprudent speed-up of withdrawal. He proposes that if a President gives in to the demand for i m p r u d e n t speed-up he — not the advocates of speed-up — should be held to blame.

In other words, Senator Harris' neat formula is to make Mr. Nixon punishable by the voters if he doesn't yield to pressures to get out quick and also if evil consequences come from yielding to such pressures.

**SENATORS** and congressmen have special responsibility. They know that the Presid e n t has the constitutional duty to conduct foreign policy and that negotiating peace is the most difficult and delicate act of foreign policy. Heckling and harassing the President is delaying the peace, not hastening it.

Have the Democrats forgotten so soon that Richard Nixon is acting to end a war which he inherited from his Democratic predecessor and which they helped to authorize?

Harris and those Democrats he is rallying to put the voice of his party b e h i n d the peace-at-any-price s t u d e n t-faculty protests Oct. 15 are playing with fire. It wouldn't matter, if they weren't also undermining the chances of negotiating a just peace.

# Finch Gets New Rebuff On Funds For Education

By ROBERT S. ALLEN and JOHN A. GOLDSMITH

WASHINGTON — President Nixon's good friend Robert Finch, secretary of health, education and welfare, has apparently lost another decision in President Nixon's White House — this one involving funds for education.

Once again Finch is being a good soldier about it all. He has f o r m a l l y adopted the White House economy position as his own.

Involved here are funds added by the House to the annual HEW appropriations bill. More than $1.1 billion dollars, above and beyond President Nixon's budget, was pumped into education programs in the $17.5 billion bill, which is now awaiting Senate action.

**AFTER THE HOUSE** acted, officials in HEW's office of education, headed by former New York State Education Commissioner James E. Allen Jr., asked Finch to seek approval for some of the funds added by the House. Finch agreed to do that.

When Finch took the matter up with the White House, however, the answer — from Dr. Arthur F. Burns, Nixon's economic adviser — was an unequivocal: No.

So Finch has formally urged the Senate to remove all of the $1.1 billion in additional education money.

**THE WHITE HOUSE** reaction underscores the difficult mandate under which Finch and Allen are trying to upgrade the nation's educational establishment.

They have been told that the White House wants to see some education programs with the "Nixon" brand. They have also been warned, however, that no additional funds can be made available for education programs in the foreseeable future.

The i n f e r e n c e is clear: present programs must be pared down to make room for some clearly identifiable Nixon initiatives.

**ALLEN HAS NOW** announced "the Right to Read" — an initiative designed to assure that every pupil will learn to read properly in every school during the 1970s. No one can take exception to that commendable goal.

For the present, however, Allen envisions the office of education as a clearing house for reading improvement programs in states and in local school districts. Funds, if any, will be requested later — after the local reading returns are in.

Under those circumstances some educators can be excused for feeling that Allen's ballyhooed "Right to Read" has some of the public relations trappings of a ringing endorsement of motherhood and the home.

**ALLEN HAD** acquired a reputation as a strong state e d u c a t i o n boss when he worked for New York Gov. Nelson A. Rockefeller. Things have not been going his way in Washington, however.

The troubles are not all with money. One of Allen's personnel selections encountered difficulties which raised some eyebrows last week.

Allen wants Peter P. Muirhead, a long-time Office of Education official, to serve as his deputy. Muirhead's appointment was not cleared, however, when the White House okayed some other changes in the HEW staff last week.

Before his own appointment was announced, there were reports that Allen's choice was opposed by some White House a i d e s. There is, therefore, some talk about the delay in clearance for his number one assistant.

## Confused Announcements Further Confuse Mental Health Mess

More heat than light was shed on the confused mental health picture during a week of bitter controversy that wound up with a lengthy closed meeting of the county supervisors.

The supervisors' terse public announcement after the closed meeting only added to the puzzle. Added information disclosed since then indicates that the supervisors and/or the county administrator aren't playing fair with the public.

They don't mean what they say, or if they do, they aren't able to convey the true meaning.

**TAKE THE** pronouncement of Sept. 30. All they would disclose after the closed meeting were these three points:

1. "Suspend Dr. Miller for 30 days with pay, effective immediately."

2. Request the Marin Hospital District directors to also suspend Dr. Donald Wilson, director of the mental health center, for 30 days "for an evaluation of his performance."

3. Direct county staff to reappraise the Community Mental Health Center operation under its contract with the county, within this 30-day period.

**THERE CAN BE** only one meaning to point No. 1 — that Dr. Miller won't be working for the county for 30 days, but he will be paid. It's no wonder that other county employees began asking: How can I arrange to get 30 days vacation with pay?

Two days later, County Administrator Alan Bruce comes out with an explanation of point No. 1. It turns out the "suspension" is not a real suspension. Dr. Miller was assigned other county tasks; in fact, he was attending a mental health conference as Marin's representative and would be working on the mental health budget, etc.

If what Bruce says is true, then the supervisors should have announced in the first place that Dr. Miller was suspended only as director but assigned other duties and is still working for the county.

**WHY DIDN'T** they say so?

The answer may be tied in with point No. 2, in which the supervisors asked the hospital directors to suspend Dr. Wilson in the same fashion. They may have wanted to create the impression that since Dr. Miller was relieved of all duties for a month, Dr. Wilson should get the same treatment.

If the hospital board had acted on the supervisors' request, they would have relieved Dr. Wilson of all duties for 30 days, only to find that Dr. Miller was still working for the county.

**AT BEST,** the supervisors and/or the administrator misled the public and the hospital board by withholding relevant information. At worst, they deliberately created an erroneous impression to set the stage for whatever final action (as yet unclear) they hope to take in 30 days after the county staff has "reappraised the Community Mental Health Center operation."

The confusion in mental health land, compounded by the confusion created by the supervisors and/or administrator, leads only to more speculation.

**ALL WE CAN** surmise at this point is this: Apparently the majority of the supervisors back Dr. Miller and hope to keep him. Since he and Dr. Wilson have been at odds, they want to put pressure on the hospital board to get Dr. Wilson to either (1) cooperate fully with Dr. Miller or (2) get out.

Of course, one never knows what will happen in 30 days. If the public pronouncements made by the supervisors don't mean what they say, and if further "explanations and elaborations" keep changing the meaning of the original pronouncements, then anything can happen.

County policy makers and executives keep talking about communicating with the public. Evasive statements and double-talk will only widen the credibility gap.

## We Teach All Sorts Of Things —Except Laws Of Our Society

Now you won't believe this, but last week end I spent at a retreat — the lovely, wooded La Casa de Maria in Montecito, just beyond Santa Barbara.

No telephones, no television — just some books and periodicals I had been promising myself to read since the last monsoon, and where is there a better place to keep such promises than La Casa de Maria?

**I HAD** with me a series of editorials, "Ignorance and the Law", broadcast last June by KFWB of Los Angeles. It's a small pamphlet, only 27 pages, a good warmup I thought, before I got into the serious reading. It turned out to be simple, direct, important and constructive — and well worth passing on.

It had this to say: "The ancients who lived in tribes carefully schooled their children in tribal laws. Their reason: survival. The alternative: death."

The editorial told how our youth "chooses sides for a game of impromptu football, or baseball . . . then follows the rules to the letter . . . and insists that all other players do the same . . .

"Why does he (the student) ignore the law in one area, and insist on it in another?

"The major reason is that he has been taught the rules of football, baseball and volleyball from his earliest school days."

**THE ARTICLE** pointed out: "We require of all persons, that ignorance of the law be no excuse for breaking the law . . . yet we equally demand that our children enter a life for which they have never been taught the legal rules. . . . The specific study of fundamentals of law is not and has never been a major subject in the education system in our country . . ."

Now, the school year has begun with mounting apprehension over the rampaging students on our university, college, and even our high school campuses. This concern is felt at all levels, including the White House, and rightly so.

In addition we have a rocketing crime rate, particularly in the 15 to 25 year age group, increasing many times more rapidly than the population increase rate.

And, as we are all aware, one of the more important issues of our turbulent times is that of "law and order" — and we are fond of telling ourselves that "we are a nation of laws, not men."

**WE SHOULD** be troubled over the antics of our rebellious youth — not because they are dissenting, which is healthy, but because they are taking the law in their own hands. They are in effect saying: "To hell with the law!"

No society has ever permitted such an attitude to prevail — and survived.

Nor will there ever be one.

We have been teaching frills — physical education, personal hygene, driver training — and now we have a tug-of-war on whether or not sex education should be part of the curriculum — though none of these is as important as learning the rules of society. To quote KFWB: "Yet nowhere, except by hearsay, guesswork, intellectual osmosis, or trial and error (and sometimes trial and conviction) do we even try to teach children the most important rules of all . . . the ones by which society demands that they live."

We teach students their rights as citizens — over these they make loud, bombastic noises. But what about the other side of the coin? What do we teach them of their responsibilities as citizens?

## Field Narrowed For Administrator

Four candidates for the post of administrative assistant for the City of Larkspur were interviewed in closed session for seven hours Saturday by the city council.

Kent B. Bathurst, city manager, said he would evaluate the men, who presently live in various parts of the state, and announce his choice at the Oct. 15 meeting.

The four were chosen from about 15 who applied for the job left vacant by the Aug. 7 resignation of Robert C. Bunday.

ed, will be answered and her honor defended. But without any show of aversion, without striking back, without polemics."

**Pope Recalls Own Career**

Beginning his remarks by pointing out that he had an intimate knowledge of how the Curia works because he was a member for more than 30 years, the Pope said he had called his audience together to show his paternal benevolence.

He wished to express his "veneration, gratitude and encouragement," he said, and he asked Curia members to give him "the comfort of their constant solidarity, their filial obedience and their valid collaboration."

"The Roman Curia will not be jealous of temporal prerogatives of time long past, nor of interior forms no longer suitable to express and impress true and lofty religious meanings, nor avaricious of its faculties that, without harming the universal ecclesiastical order, the episcopacy can today exercise better locally and by itself," the Pope said.

Referring to the forthcoming inauguration of the Ecumenical Council, Pope Paul said, "The hour is great and sacred." He spoke in terms of the greatest respect and admiration for Pope John.

"This Second Vatican Council," Paul VI said, "was willed by a Pope to whom the spontaneous acclamation of the public voice attributed the evangelic words that were applied to the precursor of Christ: 'There was a man sent by God whose name was John.'

"We believe that history will repeat these words when it recalls the salutary consequences of the sudden and flashing deliberation of him who called the Catholic world to the Council and opened the door and the heart to the seperated brethren for a loyal reconciliation."

**Reform Need Stressed**

Rome, Sept. 21 (AP) — Discussing his proposal for reform of the Curia, Pope Paul VI said today.

"Various reforms are needed. They certainly will be extensive. They will have no other aim than to let fall whatever is archaic or superfluous in the forms and norms that regulate the Roman Curia and to put into being whatever is vital and healthy."

**Step Implied by Pope John**

Pope Paul's desire to reform the Roman Curia was implicit in his predecessor's calling of the Vatican Council.

Throughout the first session it was apparent that Pope John wished to decentralize the governing arm of the church and to delegate more power to the bishops rather than to confine church policy to the conservative, Italian-dominated Curia.

As the first session progressed it became increasingly evident that the church hierarchy was overwhelmingly in favor of decentralization. In effect, this would mean that papal infallibility would no longer be extended to involve the Pope and his bishops acting in concert.

"The Roman Curia, yet again, will thus feel even more strongly its vocation to give an example to the whole church, and to the secular world.

This is the fatherly exhortation we wish to address to you at the conclusion of our simple words, which to us seem to echo the words of the apostle Saint Paul, addressed precisely to the Roman church: "Your faith shows itself in all the world."

Catholic Rome, the Roman Pontificate, the Roman Curia are being looked at from all sides. The duty of being authentic Christians is here highly committing.

We would recall to you this duty if it were not that we ourselves recall it every day.

Everything at Rome is a school: The letter and the spirit. How one thinks, studies, talks, feels, acts, suffers, prays, serves, loves. Every moment, every aspect of our life was a radiation around us, which can be beneficial if faithful to what Christ wants us, of evil effect, if unfaithful.

That is why we wish that, beyond your specific contribution of qualified service, the Roman Curia, all of you, brothers and children, give to us, or better, to the church, to our Lord Christ, that precious offering of your example of strict selflessness and abnegation, of religious and sincere piety, of loving welcome to those who need your attentive service.

The Roman Curia is not an anonymous body, insensible to the great spiritual problems that automatically dictates laws, but a live body faithful and docile to the head of the church, a body made of grave responsibilities and functions, and imbued with reverence and solicitude to those prelates who "spiritus sanctus posuit episcopos regere ecclesiam dei."

Therefore let the Roman Curia not be a bureaucracy, as some have wrongly judged it, pretentious and apathetic, legalistic and ritualistic, a fighting ground of hidden ambitions and deaf antagonisms, as others accuse it of being.

But let it be a true community of faith and charity, of prayer and action, of brothers and sons of the Pope, who do all to serve him, with a sense of collaboration, in his duty to the brothers and sons of the universal church and all the world.

We know that our wish expresses yours, sincere and good, and that it is this wish that in us and in you makes prayer, so that our Lord Christ, with the intercession of the most Holy Mary and the holy apostles Peter and Paul, will cause this old and ever new Roman Curia to shine like a lantern "ut luceat omnibus qui in domo sunt in domo," that is, in the church of god!

And finally you will not be displeased if we ask you all, ecclesiastics and laity of the Roman Curia, to add to your labors another spontaneous task of Ministry and personal apostolate: help the Pope to evangelize not only the world, but also the city, of which you are the first faithful and he is the Bishop!

Trusting in your goodness, and assuring you that you are all present in our prayers,

# Rural Amador County Survives Rock Festival

IONE (UPI)—Rural Amador County returned to its pastoral pursuits today, relieved that a weekend rock festival invasion by 40,000 youths was far less violent than a Saturday night in a gold rush mining camp.

The sheriff's department reported two youths were arrested for possession of drugs. It said a third had been arrested Friday night for drunk driving en route to the festival.

The only assaults were on the ear drums from the offerings of such rock groups as the Up-and-Coming Santana, Sons of Champlin, Bi Diddly, Ike and Tina Turner, Kaleidoscope and others.

But such things as the "Gold Rush Rock Music Festival" hadn't been witnessed in the Sierra foothills by sparkling Lake Amador since the roistering gold mining days of the 1850s.

Pot-puffing, wine-sipping, skinnydipping youths danced to the music, cavorted in the lake or just listened under a haze of marijuana smoke.

There were some incidents of nude bathing, one girl water skied in the buff and a few more doffed blouses and bras in the Indian summer heat. For those who wore clothes the dress ranged from hippie garb to blue jeans to casual attire that might be seen at a suburban backyard barbecue.

For all the goings-on the younger generation acted just like their parents in trying to beat the traffic home.

"They moved out pretty good," a sheriff's deputy said. "A lot left before the show was over (2 a.m. Saturday)."

Also leaving was festival organizer Doc Davis, a botany instructor at San Joaquin Delta College near Stockton. He left with guards and a three-ton safe crammed with cash. At least 20,000 tickets at $3.50 each were sold ahead of the festival.

## Chest X-Rays To Be Given Oct. 16

Free chest X-rays will be available from 11 a.m. to 7 p.m. Oct. 16 at the Manzanita Center in Marin City.

X-rays will be given to persons 15 years and older, with the exception of pregnant women. The project is sponsored by the Marin Tuberculosis and Respiratory Disease Association and the Marin County Economic Opportunity Council.

## Plans For Rec Center Slated

Revised plans for a new Community Recreation Center will be discussed by the San Rafael Parks and Recreation Commission at 8 p.m. Wednesday in city hall.

The commission offered plans for a $681,000 center last August but the council indicated ti sought a less expensive facility.

The commission will also discuss withdrawal of the San Rafael School District from the recreation program. The school district has been contributing $24,000 annually to the program, but has notified the commission it will withdraw financial support in its next fiscal budget.

## LIKE AN OLD FASHIONED FAIR

For the 70th year Marin families, teen-agers and adults turned out to sample the wares at the Grape Festival, held Saturday at the Northgate Shopping Mall area in Terra Linda. A benefit for the Sunny Hills Home in San Anselmo, the Grape Festival calls upon hundreds of volunteers to make, assemble and sell the specialty wares and foods that are attracting the crowds here. Regional guilds run booths, such as these Belvedere Guilds' booths, from across Marin and community organizations join in. (Independent-Journal photos by Jim Kean)

SUNNY SKIES and a promise of fun things to do made the Grape Festival exciting for such as Andrew Earley, left, as he takes a chance on the grab bag prizes from the Grab Bag Buggy supervised by Dori Niccolls of Ross, from the Katharine Branson School.

## San Domenico's Annual Play Day Attracts 600 Girls

Some 600 students from 11 Bay Area private girls' schools will participate in the San Domenico School's annual play day of sports events on Saturday at the Sleepy Hollow campus.

Registration will begin at 9:30 a.m. for the 36th annual play day with a welcome by student body president, Liz Clark.

Swimming and tennis competition will begin in the morning and continue throughout the day. A complete horse show will be held in the afternoon in the ring, with Western and English mounts entered. Mrs. Donna Long will judge the horse show and Doc Lapkin of Mill Valley will be the announcer. Other events will be officiated by the girls' committees.

Other events will include volleyball, hockey, archery, badminton and table tennis.

The play day began 36 years ago under the guidance of Sister M. Martin, O.P., to promote fellowship and the spirit of sportsmanship among the participating students. It began in 1933 with five local schools gathering for games and luncheon at the barbecue area of Dominican's Forest Meadows in San Rafael, and has continued at the school's new campus in Sleepy Hollow.

This year "Play Day with the Planets" will be the theme and at lunchtime skits from the Zodiac theme will be given by each school.

Schools participating are San Domenico, Katherine Delmar Burke in San Francisco, Katharine Branson in Ross, Castilleja in Palo Alto, Santa Catalina in Monterey, Crystal Springs in Hillsborough, Sarah Dix Hamlin in San Francisco, Anna Head in Oakland, St. Rose Academy in San Francisco and the Convents of the Sacred Heart in San Francisco and Menlo Park.

Competing for San Domenico in swimming will be Guatemalan Olympic star Silvana des Asturias of San Rafael, Cookie Arrighi of San Rafael, a former junior olympics winner in the back stroke, and Nyia Brown of Ross, diving. The San Domenico tennis team, which last week won the Santa Catalina Invitational tennis meet, will compete. Playing Saturday will be Bee Kilgore, Pam Wilson and Darbie Auerbach, all of the Tiburon Peninsula.

Marin students on the hockey team will be Bonnie Coverley of San Rafael, Winnie Hamilton of Ross, Sally Sullivan of Kentfield, Eileen Lennon of San Anselmo and Vinette Pennisi and Nancy Upham of Mill Valley.

In the riding events from Marin will be Odette Solon and Carolyn Connor of Ross, and Nancy Nicolai and Alex Hill of San Anselmo.

Carolyn Knox and Patti Nicolai of San Anselmo will play volleyball, and Carolyn Clifford of San Rafael, and Laura Grandin of Ross will play in the badminton competition.

## Celebrating A 1919 Wedding

Fifty years of marriage is being celebrated by Mr. and Mrs. Ernest Hansen of Novato.

Verna Nelson and Mr. Hansen met while attending Eureka Business College in 1916 and they were married Oct. 2, 1919.

"We had many bloody battles but we won them all," Mrs. Hansen said laughingly, about their years of marriage.

Mrs. Hansen was born in Oakland and Mr. Hansen was born in Wisconsin. He came to California with his parents as an infant and they traveled the last miles from San Francisco to Eureka by steamer.

Before their marriage, Mrs. Hansen lived in Shively, a small town wiped out in the 1964 flood and Mr. Hansen lived in Loleta, a small town in Humboldt County.

They moved to San Anselmo in 1945. He was manager of the Safeway supermarket there until 1954 when he was employed at the Shoreline market in Tamalpais Valley until his retirement in 1962. They moved to Novato in 1963.

The active and attractive couple of Scandinavian decent had two children. Mrs. John W. Bell Jr. and her husband and three children live next door to her parents. Their son Ernest Jr. a pilot in World War II was killed in Holland.

Mrs. Bell held a reception at the Eureka Women's Club Sept. 27 and was assisted by many nieces and nephews of the Hansens.

She held another reception for her parents, inviting their many Marin County friends to the Hansen home on Saturday.

Out of town guests were the Philip Laskes of Santa Ana, William Zlomkes of Klamath Falls and Robert Soehners of Phoenix, Ariz.

Gardening and fishing are the hobbies of Mr. Hansen and Mrs. Hansen says she spends her time "taking care of him." He said of his wife, "She's a good housewife and grandma."

"We're not joiners," she said, but she added that she attends the Novato Presbyterian Church.

LOOKING OVER A display of mementoes including a picture of their "honeymoon hotel" are Mr. and Mrs. Ernest Hansen of Novato. Also included is their wedding picture taken Oct. 2, 1919. Both were attending Eureka Business College at the time. (Independent-Journal photo)

# HELEN HELP US!

By HELEN BOTTEL

## Grandparents Moved In And Ended Up Giving Much More Than Rent

**DEAR HELEN:**

We started out great with our youngsters. When we retired three years ago it was, "Come live with us, Mom and Dad. We have plenty of room and you might as well give us your rent money." And give we did.

While son and daughter-in-law dashed off to have fun after dinner, Grandma did the dishes and put the children to bed. She also did most of the housework and babysitting.

And Gramps? Well, he weeded, mowed and trimmed. He helped with grandson's homework, took the kids on outings which, of course, he enjoyed. Dad is a busy person in his spare time — all that golfing and boating. But just let Gramps correct Junior and Dad's parental pride was hurt.

Then there was the matter of money. Loans big and small, sometimes conveniently forgotten.

Our children couldn't understand why we moved out, choosing a cramped apartment to their spacious home. But now we're really living. Only our closest and dearest friends know where to find us. But my wife reads to the small neighbors and when they raise their small eyes to us and grin, or their parents and big brothers and sisters ask our advice or just sit and air their problems, we know we belong.

At 68, my wife and I are more spry than half the people we know who are under 50. We aren't about to head for a retirement village. We do need more income and we hope someday old age benefits will catch up with the cost of living, but we're busy and contented.

A word to oldsters invited in to live with their children. The cards are stacked against you. Speculation begins. Are the folks unable to care for themselves? Broke perhaps? They are patronized; the children are pitied by their friends. They are never two sides of the situation in the eyes of onlookers.

Live alone, Grandpa and Grandma. — GRAMPS

**DEAR GRAMPS:**

Cheers, Gramps and Grandma. You've transformed the end of living into the living end! — H.

Personal to "Why Do Bachelors Act That Way?" — Because they want to remain bachelors! You asked me to print your letter so he could read it. That's a sure way to lose him. Do your own proposing — much more subtly. — H.

**DEAR HELEN:**

More on "Parking Lot Etiquette." You can get plastic or rubber protectors for your car doors, but that doesn't save your car if the guy next to you doesn't have them. I think they should be standard equipment on all cars. Also, people who give themselves lots of space on the driver's side are asking for scratches on the other side. Make sure to park in the exact center of the space allotted.

Those who lay out parking lots could help, by making spaces less skimpy. Seems to me a supermarket which advertised "Easy, no-nick parking" would prosper, even if it had a few less slots. — F. R. L.

**DEAR F:**

I've got a better idea. How about making cars with sliding doors? Is possible, Detroit? — H.

# 'The Pageant Misses Youth'

By STEPHANIE ROUMELL

ATLANTIC CITY, N.J. (UPI) — The morning after the 1969 Miss America pageant, Judy Mendenhall sat in the lounge of a humming jet.

This Miss Minnesota, 18, earned straight A's her first year at the University of Minnesota. Behind her chiseled features is a disdain for what is shallow and a strong desire to reach out directly, personally.

She said the pageant had been hard for her.

"You shop and shop and clothes don't mean that much to me," she said. "And you have no idea how sick you get of being pointed out."

She entered primarily for the scholarships and then, to her surprise, became carried away in a remarkable experience of togetherness.

"In the end," she said, "you want everyone to win. It's a very good feeling of togetherness."

She is happy the pageant comes on great to children and middle-aged and older persons.

But it bothers her that the Now generation just is not impressed. She says that would not be the case if the pageant itself was more reflective of Now.

"I'm not saying contestants should walk out on stage smoking marijuana, but it should somehow be more geared to youth," she said.

Judy does say neat instead of groovy. She also belongs to a sorority, something the young set now considers square.

But otherwise this stunning blonde girl is together with that group of youth to whom the V-sign signals peace, not victory.

She wears jeans and sweatshirts on campus and pedals her bike in bare feet as long as the weather holds. For the pageant she wore makeup base and learned to use eyeliner. On campus, her face is untouched, her hair hangs long and ramrod straight.

She said she keeps a cool lid on her Miss Minnesota title on campus. "My friends are, uh, not impressed," she said.

On the final night of the pageant, Miss Minnesota found herself among the 10 semi-finalists, and later, among the top five.

Things got very hot for Judy but the crown went to Pamela Ann Eldred, Miss Michigan.

The other girls were released from the stage. Over in the wings, Judy and other finalists hugged.

"I did the very best I could to win for my state," she said. "And had I won, well, fine. But this way is fine, too. In fact, it may be better."

She grinned. To a hovering stewardess she said:

"I think I'll have a gin and tonic."

A chaperon who was having just that put in quickly: "She'll have a diet soda."

## First Presbyterian Church Women Celebrate With Centennian Spirit

IN A centennial spirit, the **United Presbyterian Women of the First Presbyterian Church** of San Rafael will celebrate with a special program and tea at 1 p.m. on Thursday in Canoles Hall at the church. Featured will be a skit written and directed by Mrs. Eleanor Gaustad, developed from material of skits used in the "olden days" which were written by Miss Georgia Wintringham, who was an active member of the church and women's association. Young people of the church will portray these pioneer members in costumes of the era.

# Painting Of Past Restored

By ANNE BARDWELL

An early American primitive oil painting of Forbestown in Northern California, once tattered, cracked and filthy, is now a sparkling addition to the Oakland Art Museum's historical art division following restoration work completed recently by art conservator Frank Dorland of Mill Valley.

The 100-year-old painting, by an unknown artist, is not only an "excellent example" of primitive art — one of the finest I've seen in the Western United States," according to Dorland — but also an interesting visual description of the life style of the era.

**Entitled "A Sunday," and dated July 18, 1869, the painting shows small mining town, located in the High Sierra 50 miles northeast of Nevada City, on its day of rest.**

Despite its mountain locale, some of the painting's scenes could be typical of Marin County at the same time, according to Dorland, particularly the scenes of logging on the hillsides. "In fact, that part of the painting really is very similar to the whole Bolinas scene now," he says.

In the painting, an aerial view of Forbestown, ("The perspective is really quite remarkable for someone untrained," Dorland notes) miners wander down the main street, stopping at the local saloon and on the boardwalk to exchange news on their one day off.

The hotel owner stis on his front porch reading a book while on another street maids air out the empire hall, undoubtedly, after a long, hard party the night before.

**All the stores are closed except for one where a semibare tinsmith works overtime to provide the siding and roofing needed for the construction boom evident elsewhere in the picture.**

Discrimination is seen as Indians peer over a outer fence and an Chinese man rides on the roof of the stagecoach, relegated to the outside along with the cage of chickens.

After studying clues provided by the painting, Dorland believes the artist was a woman, probably the daughter of the innkeeper. Her sex he deduced from such touches as ball fringe on the curtains and details of clothing of the stagecoach travelers; her parentage from the prominence given to the hotel owner in the picture, and from the signs that he is both educated and well-to-do thus able to afford his daughter's hobby.

Work to restore the painting, commissioned by the Oakland Public History Museum, took almost a year, not an unusual time when restoration can take up to two years depending on the extent of retouching required.

Reconstruction included removing the canvas lining, patching the paint, matching colors, retouching and inpainting and applying protective coats of resin.

**Because of the high quality of materials used in the painting the original linen canvas did not have to be replaced as is often the case in neglected paintings.**

"In fact, this painting would have disintegrated by now if it were not for the quality of paints and canvas," Dorland said.

And now, having been conserved and preserved, the painting has been returned to the Oakland museum where it hangs for history buffs, art patrons and the curious to puzzle out the interesting story of Forbestown and California.

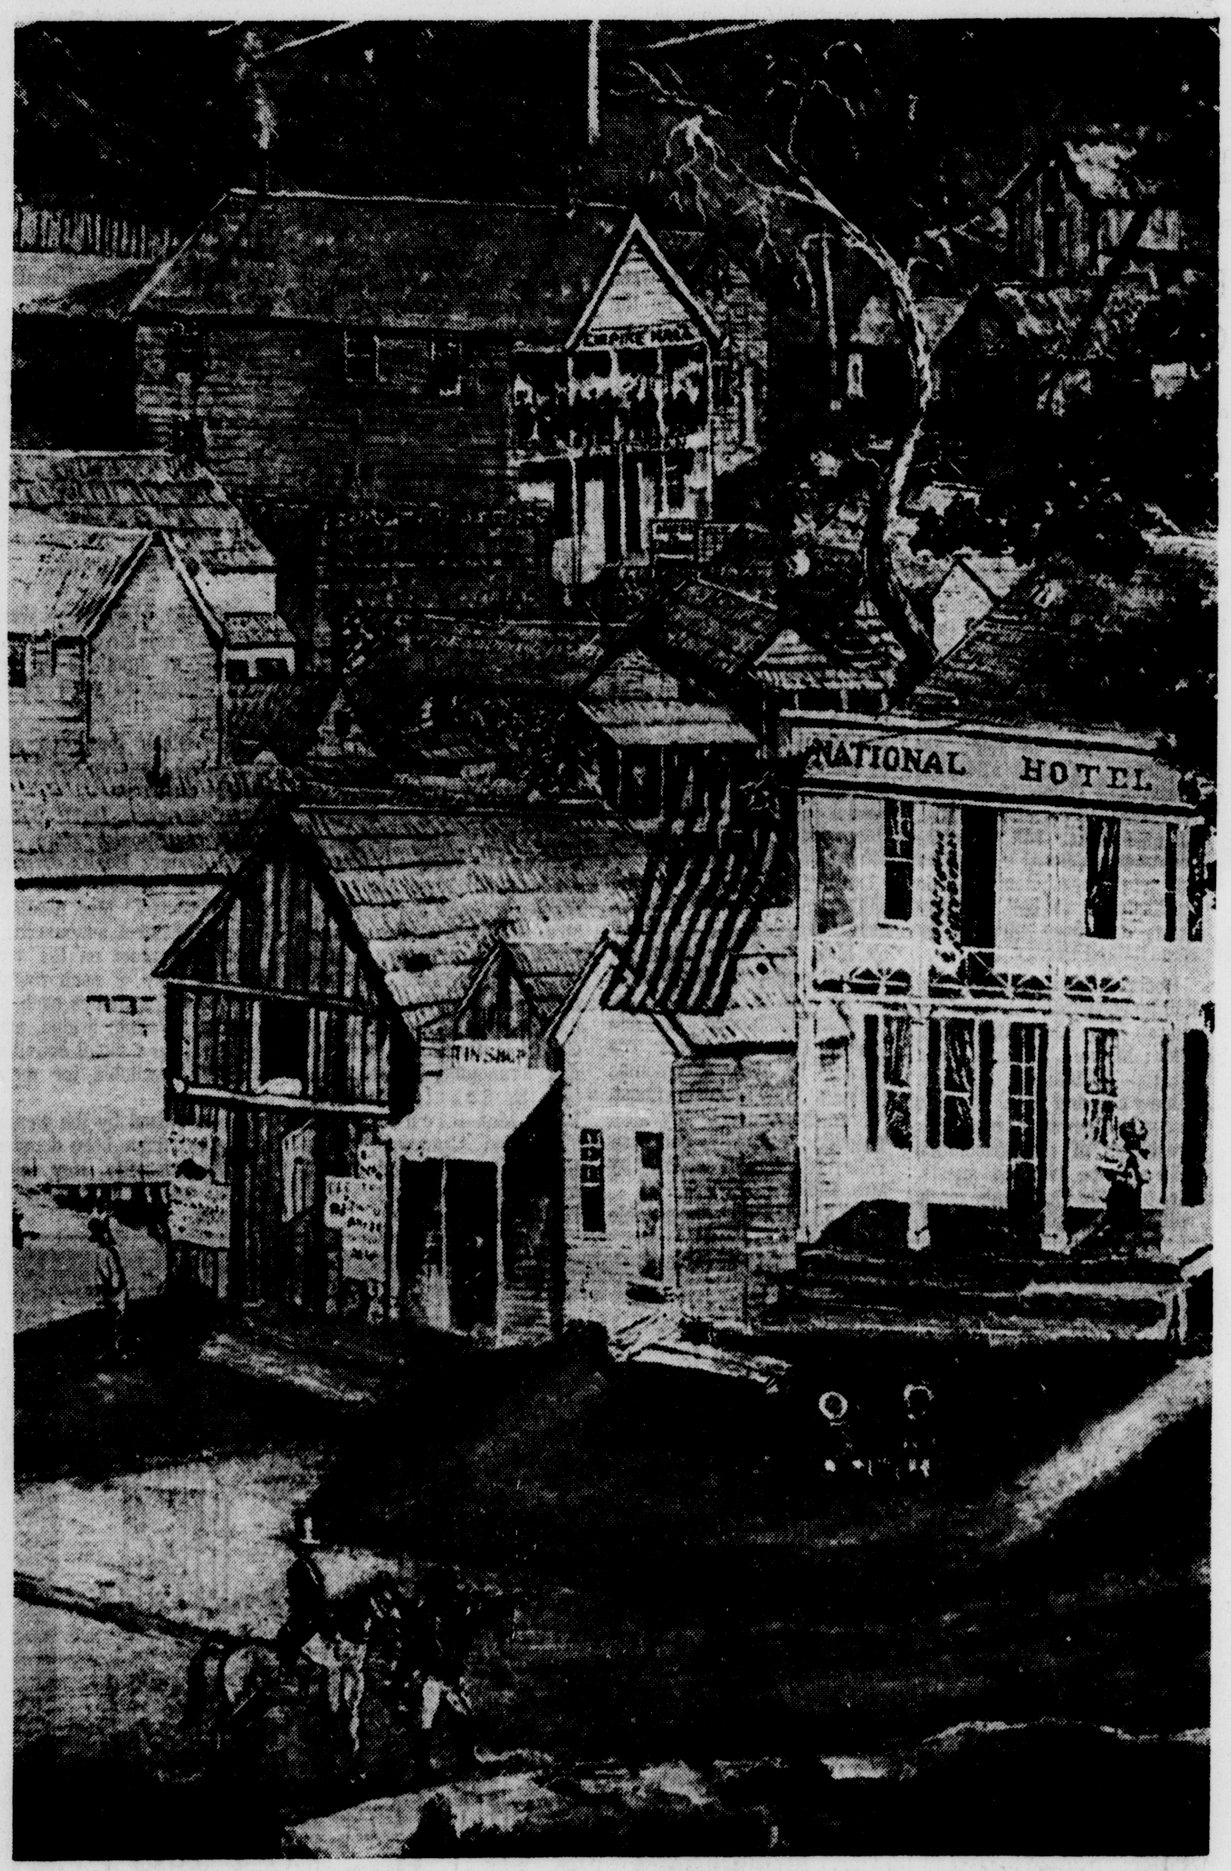
**BOARDWALK** — A board street was laid down on the muddy street to protect ladies' dresses from mud. In the background is the town's waterworks which brought the water from a mountain stream into a covered storage shed for use by town residents.



**STREET SCENE** — The father of the artist reads a Sunday magazine on the front porch of the Empire Hotel while next door the tinsmith works over his hot fire. The flag is transparent because it was added after the picture had been finished and underwent pigment absorption.

OPERA REVIEW

# 'La Traviata' Is A Real Stunner

By MAYBELLE SPECKMANN

SAN FRANCISCO — A scintillating new production of Verdi's "La Traviata," with singers possessing a high order of vocal and dramatic talents, made Saturday night's performance at the opera house a stunning visual experience and a thrilling musical one.

Making his American debut as an opera producer, University of Munich drama professor August Everding, in creating a spectacular work, has had the great advantages of a $43,000 private grant for sets and costumes and the gifts of designers Toni Businger and Davis West in realizing them. I have seldom seen more sumptuous sets than those of the salons of Violetta in Act 1 and Flora in Act 3.

**The only element not too clearly motivated, in my opinion, though it did focus attention, was the dimming of lights at psychologically important points in each of the acts.**

But, after all, what really brings to life a time-worn favorite such as "Traviata" is the quality of the musical performance.

Act 1, I felt, was not up to par, with none of the cast and conductor Guiseppe Patane revealing the capacities later demonstrated, and the singers and orchestra were not always together. The famed "Brindisi," or drinking song, lacked verve.

Greek soprano Jeannette Pilou — who received rave reviews as Zerlina in "Don Giovanni" last year — was competent in her first act aria "Ah, Fors' E Lui" and the following cabaletta "Sempre Libera"and sang agilely succeeding coloratura runs. In the rest of the opera she was most impressive, especially in very delicate pianissimo passages, convincing me that some unfavorable criticism following her opening night of the season in this role was due to "opening night jitters."

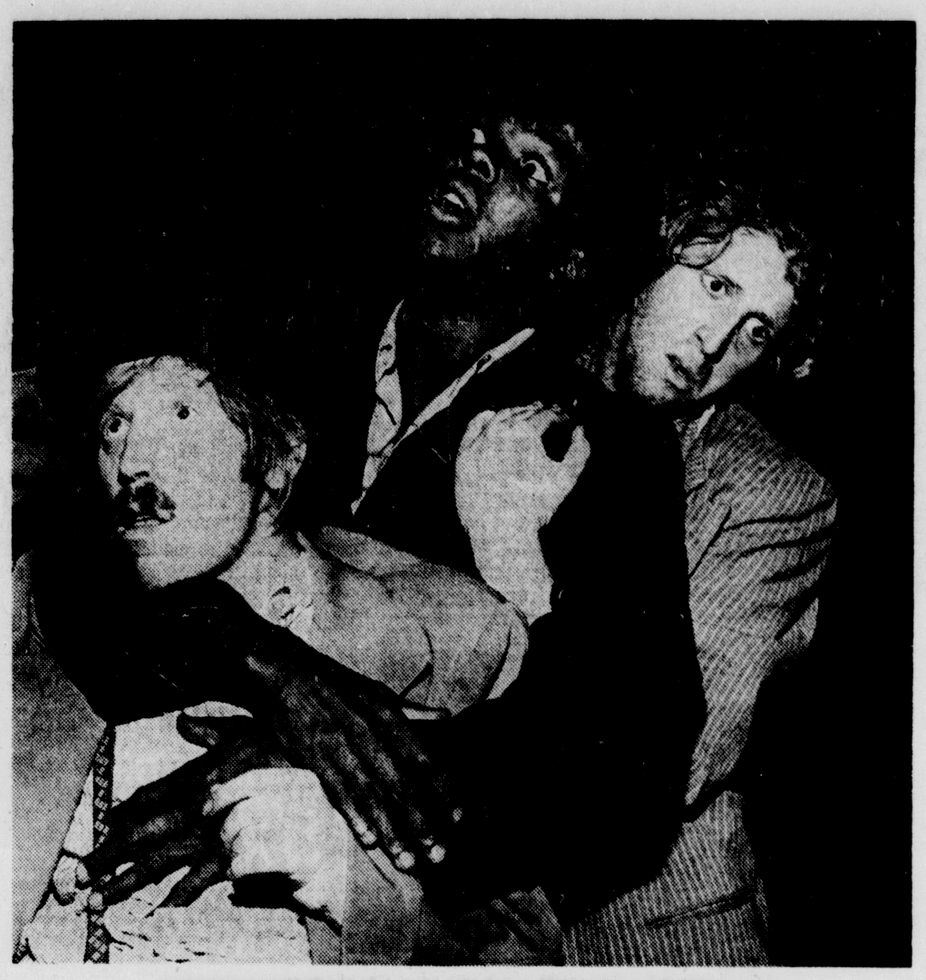
**The two leading male singers were outstanding. Franco Bonisolli was a fiery lover with an enchanting tenor voice as Alfredo, but the major triumph was achieved by that marvelous singing actor Ingvar Wixell. His baritone voice was not exactly mellifluous but was used with powerful effect as Alfredo's father, especially in his big aria "Di Provenza Il Mar."**

A highlight of the final act was Violetta's and Alfredo's beautiful duet "Parigi, O Cara."

That always remarkable singing actress Mezzo soprano Sona Cervena was a properly frivolous Flora, Violetta's friend, but the role provided no opportunities to show her ability such as she has had previously here in "Lulu," "Salome" and "The Barber of Seville."

**Of the secondary roles, most notable were baritone Elfego Esparza as Violetta's patron, Baron Douphel, mezzo soprano Sheila Nadler as her maid Annina and bass Richard J. Clark as Doctor Grenvil.**

The gypsy ballet featuring William Johnson and Judanna Lynn was not particularly distinguished.



## BECKETT PLAY TO OPEN FRIDAY

Robert Deckelman of Novato, (left); Rufus T. Gartrell of San Francisco (center) and Donald Carroll of Larkspur rehearse a scene from Samuel Beckett's "Waiting for Godot." The classic theater of the absurd production will begin a nine-day run Friday at 8:30 p.m. in the College of Marin's Studio Theater. Harvey J. Susser directs the play, which will run through Oct. 19.

## Burning Problem On Hub's Agenda

The effects of the pending backyard burning ban in the Bay Area will go before the San Anselmo City Council at an adjourned meeting at 8 p.m. tomorrow in city hall.

At its last meeting, the council was warned by Wallace S. Myers, attorney for the San Anselmo Garbage Disposal Co., that the company would have to raise rates if it had to start collecting all rubbish that is now burned.

The Bay Area Air Pollution Control Board has placed a ban on all backyard burning in single family dwellings, effective Jan. 1.

## Disciplinary Hearings To Resume Soon

I-J Special Report

SAN FRANCISCO — Disciplinary hearings will resume this month for more than 100 students at San Francisco State College, who were arrested by police during last year's campus strike for an ethnic studies program.

In an attempt to make the proceedings "fairer and less biased," according to Paul Jewel, coordinator of internal affairs for the college, the hearing panels have been reformed to include two students and one faculty member. The earlier panels, which have already passed an array of decisions on most of the 333 arrested students, were composed of three faculty members and no students.

The hearings, which are separate from the legal court trials, consider charges of infractions of college rules. The panels will continue to recommend expulsion, suspension, probation, a letter of reprimand, or an acquital for each charged student, and President S. I. Hayakawa of Mill Valley will make the final decision.

After some 200 cases were decided last spring, the hearings were stopped when school ended in June. Resumption for the remaining 124 cases has been delayed by reorganization of the panels according to the reformed rules.

"There have been very few suspensions," said Jewel, who left the college's business department in August to assume his new administrative post.

DRAMA REVIEW

# Osborne's Latest Is Long, Tedious, Limp

By WILLIAM GLOVER

NEW YORK (AP) — John Osborne's "A Patriot for Me," last night's arrival at the Imperial Theater on Broadway, is much more of a limp drag than its mere homosexual theme might imply.

Quite probably, considering present eagerness of a large segment of the paying public for prurient exotica and sensationalism, the elaborate production contains enough titillation to assure a profitable run. Just don't say you weren't warned.

Osborne dishes up rather than dramatizes the story of a high-ranking officer in the Austro-Hungarian army of 1890-1913, whose preference for muscular youths rather than waitresses or countesses trapped him into treason. All based on historic scandal and examined now by England's ex-angry young man as some kind of a warning about the perils of an overmoralistic society.

### QUICKLY LOST

Such purported purpose, however, quickly gets lost in the yawn- provoking exposition of the long first act, and vanishes utterly during the post-intermission jaunt into the gay world of eccentric pleasures.

Insipid, over-detailed dialogue of ancient gossips and some melodramatic banalities to make us realize that the Russians are out to blackmail nonhero Alfred Redl are the range of dramatic imagination.

The single, genuinely entertaining scene, which opens the second act, is a transvestite ball in old Vienna, with Dennis King hilariously dominant as the queen of queens. Thereafter the play is downhill all the way, unless some glimpses of bare buttocks can turn you on.

### FOCAL ROLE

In the focal role, Maximilian Schell performs with much introverted tension and an accent not helped at all by the elaborate, over-loud amplifier system that the management has questionably laid out. Salome Jens assails the role of a minor-league Mata Hari with fortitude.

Some sort of coding would be needed to sort out who is which in the large cast that takes part in the 60-plus roles provided by Osborne. Peter Glenville's direction fortuitously is unaffected and devoid of campy mannerisms.

Oliver Smith has provided almost three dozen settings which along with Freddy Wittop's costumes adequately establish the Mittel Europa ambiance of long ago.

### BEST WAY

Perhaps the best way to get your money's worth would be to drop in after the intermission.

On the whole, I think I'd rather take a chance on finding some satisfaction in that "exotic fruit and rice salad" which is currently being heralded with placards in the city's bus system as the favorite recipe of the show's producer, David Merrick.

## Meditation Precepts Topic Of Lecturer

The principles and practice of transcendental meditation will be explained at 8 p.m. Oct. 14 in Olney Hall at the College of Marin.

The introductory lecture, sponsored by the Students' International Meditation Society, will be given by a teacher trained in India by Maharishi Mahesh Yogi.

# SPEED

Speed — methamphetamine — is a very dangerous drug. It is named for the speed with which its user rides to supernormal levels of excitability and wakefulness.

Speed is destroying more young minds in California than any other drug. Experts fear the illicit use of this and similar drugs will reach epidemic proportions this year.

If you are a worried parent with questions about the drug subculture, or an open-minded young person taking another look at the facts, read on...

**What is Speed?**

It is such a dangerous drug that the medical profession limits its use to emergencies such as controlling blood pressure during surgery.

When Speed is used indiscriminately, it over-activates the physical and nervous system — with drastic and unpredictable results.

**How does Speed work?**

The hardened Speed user takes his drug the same way as the heroin-user—by injection. He then experiences a "rush" up to a "high"—an euphoric condition that can be maintained for as long as a week by repeated mainlining.

On a "speed binge" the user often stays awake for days. His appetite for food or drink is suppressed. His tolerance to the drug builds rapidly, so from an initially small dose he may shoot from 1000 to 5000 milligrams daily — far greater than a doctor will administer in the operating room.

As his "run" progresses, the speed user becomes more restless and disoriented. He may become uncontrollable and harm himself and others. His brain, heart and liver are all under heavy strain. If he can't take this punishment, he may die from overdosage—or from impurities in the drug itself —or from violence resulting from his psychotic condition.

At an unpredictable point, he stops shooting. This may be because of fatigue, panic, or simply because his supply runs out. The "crash" comes as he drops rapidly from a hyperexcitable state to one of extreme exhaustion. If he's a hard-core addict he may accelerate his crash with "downers"—usually barbiturates which are also frequently addicting. He may sleep for 24 to 48 hours, eat ravenously on awakening, then go into a state of extreme depression. This can be so severe and intolerable that he may take off on another run.

**Why and where do users go for Speed?**

Speed-users generally fall into two categories: experimental and compulsive.

An alarming number of young experimenters graduate to the compulsive use, in contrast to the original Haight-Ashbury hippies who used marijuana and LSD for "creative and religious experiences." Eventually this repeated consumption can lead to drug-dependence.

Speed is being synthesized illegally in black market laboratories and is becoming more readily available through dealers. Often it is "cut" with sugar or in fact any white powder to make the supply stretch, and thus make the sale more profitable to the dealer.

When made by amateurs under unsanitary conditions, contamination is often present, the common side effects being abscesses, blood poisoning and hepatitis from unsterile needles. So the medical profession is faced with both physical and psychiatric problems in treating the "speed freak."

**What can you do about it?**

According to former drug-users who are working with clinical teams to help addicts kick the habit, there are three basic steps one can take in coping with the growing drug problem:

**First:** *Get the facts on what drugs are really doing to people. Facts. Not hearsay.*

**Second:** *Consider the clinical evidence. Then take a stand based on knowledge rather than emotion.*

**Third:** *Involve yourself. Get together with others in your community who are concerned about the drug problem. Groups are forming throughout the state to help young people help themselves.*

If you or someone close to you has a drug problem, write for further information:

## FIRE WRECKS A FAIRFAX LANDMARK

Fire destroys the interior of 55-year-old St. Rita's Parish Hall in Fairfax as youngsters watch firemen pour water on the flames bursting through the roof of the wooden building. Only the outside walls remained after the $30,000 fire, which was reported at 5:43 p. m. Saturday by a neighbor. It took 17 men and two pumpers 30 minutes to contain the blaze, whose cause remained unknown today. The building was erected in 1914 as a mission and was used as the parish church until 1953. # Half A Department Moves To New Hall

The first county department — actually a half a department — to move into the new Hall of Justice began operating in the basement of the new building this morning.

It is the central services department, which is part of the county's purchasing department headed by Doug Edelen.

Central services, with Dolores Miller in charge, handles county printing, duplicating, and storage of small items such as paper, typewriter ribbons, and other office supplies. Edelen, who is still located in the basement of the present administration building, said he hopes to move into the new building on Oct. 20.

The next move will be the cafeteria. Michael A. Chrystal of the administrator's office said he hopes the cafeteria will open for business in the new building next Monday.

County communications, headed by John H. Atkinson, may move in late this month, said Chrystal. The rest of the county departments will start moving when final inspections are completed on the $11.7 million structure and the new building is accepted by the county. He said the major moves are expected to start in November.

## Four Members Of One Family Hurt In Wreck

Four members of a Novato family were injured in a hit-run collision on Highway 101 yesterday which then caused a two-car accident seconds later, the California Highway Patrol said today.

Treated at Kaiser Foundation Hospital in Terra Linda were Helmut Franz Greb, 34, of 2013 Feliz Road, for multiple scrapes; Hedwig Greb, 34, for multiple scrapes and bruises; Udo H. Greb, 11, for a scraped collarbone; and Kerstin A. Greb, 7, for a scraped mouth.

The highway partol said the Greb car hit the rear of the hit-run car when it cut in front of the Novato family's vehicle on northbound Highway 101 near the Corte Madera overpass.

The collision caused the Greb car to spin out and when it came to a stop. It was hit by a car driven by Virginia M. Parker, 19, of 107 Marion Avenue, Sausalito. Her car then caromed into a car driven by James Dillard Wells, 41, of Ukiah, who had stopped because of the first collision, the partol said.

## Boy Treated In In Car Wrecks

A 12-year-old Terra Linda boy was treated at Kaiser Foundation Hospital yesterday after his father's car was involved in a three-car accident on the Manuel T. Freitas Parkway near Del Presidio Boulevard.

Geoffrey J. Mack of 945 Las Avejas, suffered a bump on his head.

The California Highway Patril said a car driven by Joanne Elkin, 20, of 644 Tanbark Terrace, San Rafael, hit the rear of one driven by Julian Williams Mack II, 46, who had stopped for a red light. His car was knocked into one driven by Philip David Harrison of 1147 Butterfield Road, San Anselmo, who also was stopped.

The patrol said Miss Elkin's sandal caught on the accelerator and she was unable to stop.

## Injuries Minor To Driver In Accident

John D. Pantels, 30, of Sonoma, sustained minor injuries about 5:30 a.m. Saturday when his car ran off the roadway and struck a power pole on Highway 37 just north of the Highway 101 intersection.

Pantels, who apparently fell asleep at the wheel according to the California Highway Patrol, was treated at Hillcrest Hospital for cuts on his knee and forehead.

# Cancer Takes Life Of Golfing Great Walter Hagen

TRAVERSE CITY, Mich. (AP) — Charles Walter Hagen, the father of modern professional golf and one of its most colorful stars on and off the course, died of cancer about midnight yesterday. He was 76.

Hagen had been in a coma about 10 days and he died in his estate here.

Hagen underwent throat surgery in January 1967, third such operation since a cancerous larynx was removed in 1964.

One of "the Haig's" last public appearance came in August 1967 when many of the great and near-great of golf gathered in this northwest Michigan resort for a testimonial sponsored by his local friends.

Among them was current star Arnold Palmer who, in a moving tribute to a man he idolized, said, "If it were not for you, Walter, this dinner tonight would be downstairs in the pro shop and not in the ballroom."

"The Haig," as he was reverently known throughout the golf world was one of the first men in sport to earn more than a million dollars, of how he made it—and spent it—are legion.

"I never wanted to be a millionaire. I just wanted to live like one," Hagen wrote in his autobiography.

"He's in golf to live—not make a living," Chick Evans, a former U.S. Open winner, has said.

Just under 6 feet, with weather-beaten features and hair slicked down in the fashion of his era's matinee idols, Hagen won the U.S. Open in 1914, repeated in 1919 and finished in the money until his playing days were over.

He was the only man ever to win the Professional Golfers Association title five times or four times in a row. He won it in 1922, 1924, 1925, 1926, 1927.

In 1922, he became the first American-born pro to win the British Open with a victory that spelled the beginning of the end to British domination of the sport. He won that title four times.

Hagen also whipped the legendary amateur Bobby Jones 12-up and 11-holes-to-play in a 72-hole match. It brought him the biggest purse ever won by a pro until then—$7,800. He bought Jones a $1,000 watch.

Although the triumph seemed to establish "The Haig" as world champion, he shrugged off the label. He said the match showed only that a champion could beat another champion on any given day if one was "up" and the other wasn't.

Hagen was regarded as the best shotmaker in golf and was never happier than when behind and in trouble. It gave him the chance to pull off shots that make a gallery gasp and he revelled in it.

"Hagen led his fellow pros out of bondage," the Detroit News once said. "He won more than 75 tournaments and over a million dollars. He gave his victory medals to friends as sourvenirs and spent his winnings on their entertainment."

Saying, "I just couldn't bear to shoot another 80," Hagen quit competitive golf about 1946.

A son, Walter Jr., of Detroit, survives.

Hagen's body will lie at the Hibbard Funeral Parlor here this afternoon and Tuesday. The body will be taken to the Bell Chapel in Birmingham, Mich., near Detroit, Wednesday and Thursday.

Burial will be held at Holy Cross Cemetery in Southfield, Mich.

# 49ers' Tie Leaves Nolan Somewhat Satisfied

## S.F. Coach Talks Of Good Points

SAN FRANCISCO (AP) — San Francisco 49er Coach Dick Nolan found more to be pleased about in his club's performance against the Washington Redskins yesterday than the fact that, for a change, the 49ers didn't lose.

After eight straight defeats—counting six exhibition games—a 17-17 tie might leave a little to be desired. But on most counts Nolan pronounced himself satisfied with the 49ers performance.

**MOVED BALL**

"We moved the ball well enough," he said. "And I liked the work of the offensive front line. We had them well covered on passes and, except for the penalty situation, there weren't many mistakes."

Pass interference penalties on 49er safety Al Randolph set up Washington's two fourth-quarter touchdowns, the last one coming with just 26 seconds left in the game.

"He collided with me," said Randolph of the play that gave the Redskins the ball on the 49er two-yard line. "He (the Washington receiver) dove across my knee and I threw my arms back to show I didn't push him."

**TIES GAME**

Three plays later, Washington quarterback Sonny Jurgensen hit Jerry Smith in the end zone with a four-yard pass that tied the game.

There was no doubt about Randolph's infraction earlier in the quarter that set up the first Washington touchdown. The 49er defender gave Smith a visible shove and the Skins had the ball at the three.

Charley Harraway carried it over on a play where he fumbled after it appeared the 49ers had stopped him. But the officials ruled Harraway had crossed the goal line.

**16-YARD PASS**

The 49ers scored on a 16-yard pass from John Brodie to Clifton McNeil after a field goal attempt got away from the Redskins in the first period and on a 17-yard run by Doug Cunningham in the fourth quarter.

Jurgensen won the passing war with Brodie, completing 27 of 39 throws for 258 yards to 18 of 29 passes for 149 yards for the 49er quarterback.

Cunningham was the 49ers' top rusher with 71 yards in 15 attempts. Ken Willard picked up 58 yards in 17 carries.

The Washington running attack was stopped with only 54 yards.

## Series Swings To N.Y.

NEW YORK (AP) — The New York Mets were back in their own backyard today, looking to wrap up their National League playoff series with the Atlanta Braves and move on to their first World Series in their almost implausible eight-year history.

The Braves, on the other hand, were looking for a replacement for their unofficial mascot, Chief Noc-A-Homa—perferably someone who could throw-a-ball or catch-a-grounder after two games in which they looked like carbon copies of the old Mets.

**ERRORS**

The new Mets fashioned a 2-0 lead in the best-of-five playoff series during the weekend despite ineffective pitching by aces Tom Seaver and Jerry Koosman, making the most of 23 hits, five Brave errors and several mental mistakes for 9-5 and 11-6 victories.

That put the amazing Mets, who stumbled through seven years of ineptness before starting their rags-to-riches story this season, one step away from the frenzy that is certain to overtake usually staid New York City if the Mets win their first pennant.

Shea Stadium began filling early today with the usual Met fan—the long suffering banner-carrier who suddenly has found he can take pride in the club, and proved it by almost virtually tearing up the place the night the Mets clinched the National League East title.

**TEAR UP FIELD**

The exhilarated fans tore up patches of grass for trophies, took home pieces of the scoreboard as keepsakes and ripped up every base except first in a wild celebration. They probably will make sure they get that, too, if the Mets finish it off today when Gary Gentry (13-12) goes against Pat Jarvis (13-11).

Today is Gentry's 23rd birthday and the 12th day after his pennant-clinching victory for the Mets in the National League East. But whether he would be around at the finish was a big question, considering the pattern of the first two games.

In the first one Saturday, the 25-game winning Seaver was tagged for eight hits, including two homers and four doubles, in seven innings. But the Mets came through with a five-run eighth inning built on four unearned runs to win it.

**CHASED**

Then, yesterday, Koosman was chased in the fifth inning after surrendering seven hits, including a homer and two doubles. But the Mets made the most of 13 hits, three Atlanta errors, an obstructiin call and an uncovered base to put another away.

"If I had been told before the series started we'd get six and five runs off Koosman and Seaver," said Braves' star Hank Aaron, his head shaking from side to side, "I would have thought we'd sweep the series."

Aaron, who has hit 554 homers during regular season, play, in his career has hit one each of the two playoff games so far, giving Chief Noc-A-Homa an opportunity to go into his war dance in front of his teepee in left field.

**WILD THROW**

But more than homer hitters, the Braves need people who can throw the ball accurately and can pick up a grounder.

A wild throw by first baseman Orlando Cepeda let the tie-breaking run score in the eighth inning of Saturday's game and throwing errors were added by Aaron and Cepeda in a three-run second inning and two-run third inning yesterday.

# Marin Tars Whip Sierra J.C.

In a game College of Marin coach Dick Read had labeled a "must win," Marin Tars rolled to a 33-18 victory Saturday over Sierra Junior College of Rocklin.

Read used all 51 players on the Marin roster as the Tars wrapped up their pre-season schedule before some 250 fans at Marin Catholic High School's field in Kentfield.

Displaying a balanced attack that was missing in losses to San Jose and College of the Redwoods (Eureka) the Tars scored twice through the air, and three times on the ground, and racked up more than 400 total yards.

"Either we played extremely well, or they didn't play well at all," said Read. "Our offense was consistent and the defense, especially the interior line, is getting tougher with each game."

Running back Jim Finnegan, who scored twice, on a four-yard run and a 38-yard screen pass from Jim Peters, drew special praise from Read. The other Tar touchdowns came on a two yard plunge by Peters, a three yard run by Keith Stirling, and Kevin ilson's 35 yard aeri al to Mike Biber. Pat Green made good on three of four point-after attempts.

Sierra did not score until the third quarter, when the Tar first string was on the bench.

Marin has a bye this week and then opens the regular season Oct. 18 against West Valley, J.C. Campbell, which came from behind to defeat Cabrillo College of Aptos, 24 to 21 Saturday.

# Two New Champs In Marin Golf

Two new champions were crowned and three other golfers scored holes-in-one over the weekend in a busy day at Marin and Sonoma county golf courses.

Jack Sterley of 20 San Marino Drive, San Rafael, became champion of the Peacock Gap Golf and Country Club, San Rafael, on Saturday by defeating his neighbor, Bob Bond of 74 San Marino Drive, 4 and 3 in their scheduled 36-hole title round. Sterley, sales manager for Reynolds Metals of San Francisco, succeeds 1968 club champ Al Newman who has moved out of the area. Bond is public relations manager for Pacific Telephone.

Meanwhile, 25-year-old Mike Dunham of Tiburon, a new member of the Indian Valley Golf Club in Novato, won the club title yesterday by defeating Greyhound bus driver Bob Hachyer, 46, of Novato on the 19th hole of their scheduled 18-hole playoff.

An employee of Standard Oil Co., Dunham was three holes down after 13 but rallied to win the 14th, 15th and 16th to tie it up. They halved the 17th and 18th and Dunham won it on the 19th with a par while Hachmyer took a bogey.

The new champion, who plays to a three handicap, succeeds George Greenwood who did not enter to defend his title.

MILL VALLEY municipal course was the scene of two holes-in-one yesterday.

Tom Armstrong of 10 Milland Drive, Mill Valley, who has been playing golf for 50 years, scored his ace on the 134-yard fifth hole with a seven iron shot witnessed by Dick and Dorothy Kiechle.

And Frank Long of 1 Arrowhead Lane, Corte Madera, scored a one on the 134-yard seventh hole with an eight iron witnessed by Pete Pantages.

The third ace of the day was by Mrs. F. L. Kurtz of 52 Castlewood Drive, San Rafael on the 150-yard 16th hole at Peacock Gap. Her four-wood shot was witnessed by her husband and Mr. and Mrs. R. L. Sherman.

MAT PALACIO JR. of San Rafael, veteran of many tournament wars, took a giant leap toward his third straight Sonoma National Golf Club title yesterday with a third round par 72 while other contenders wilted at the hot Valley of the Moon course.

# Trevino, Moody Triumph

SINGAPORE (AP) — Unlucky number 13 turned out to be a good omen for Lee Trevino and Orville Moody in the World Cup Golf Tournament here.

Trevino said the turning point was after the 13th hole as the pair won the 17th annual tournament over a field of outstanding world golfers yesterday

"The Taiwanese were playing badly and when we were six up after the 13th, I was sure we had it made," said the gregarious Trevino, who shot a course record 65 yesterday for a nine-under-par 275 on the par 71 Bukit course.

Moody had a final 69 for 277, giving the United States a team total of 552 for 72 holes on the 6,692-yard course.

Surprising Taiwan had held a two-stroke lead over the United States going into the final round under a broiling sun, but wilted under the charge of the tour-tested Americans.

Japan finished second in the team standings at 560, followed by Argentina, 561, with Taiwan—and equally surprising Thailand—tied at 562 for the fourth place.

# Emotion-Packed Playoff Games

MINNEAPOLIS-ST. PAUL (AP) — Embattled Billy Martin, squeezed and pinched into a dark corner in the American League's championship playoffs, called on burly Bob Miller, a refugee from the Minnesota bullpen, to plug the dike today against the irrespressible Baltimore Orioles.

But the Orioles, holding a pat hand following their second sudden-death victory in the best-of-5 series, didn't intend to let Martin's Twins off the hook.

**COME BACK**

"We've been down before and we've come back," Martin said yesterday at Baltimore after the Orioles nipped his club 1-0 in 11 innings on Curt Motton's run-scoring pinch single and the gutsy, three-hit pitching of Dave McNally. "It's been a matter of inches. Who knows? We can still tie it up and win."

The victory, 24 hours after Paul Blair beat Minnesota 4-3 with a 12th inning squeeze bunt, left the Orioles one step from the World Series as the East-West playoff shifted to the Twins' park.

Game three pitted Miller, a National League castoff and one-time relief specialist, with a 5-5 regular season record, against Jim Palmer, who topped a 16-4 comeback for the Orioles by hurling the American Leagues only no-hitter two months ago.

**5 OF 6**

Miller, a 6-foot-1 right-hander, stepped into the breach for the Twins this year when injuries depleted Martin's starting alignment. He won five of six decisions as a starter and hurled the West Division title clincher on Sept. 22.

Palmer, a shutout winner over Sandy Koufax in the 1966 series—when he was just 20 years old—made a remarkable about-face for the runaway East Division kings after a two-year run of arm trouble.

"We're in good shape with Palmer going," Orioles' manager Earl Weaver understated. "He's our best percentage pitcher."

Any more of these cliff-hangers and I'm gonna have myself a heart attack," said big Boog Powell, who chugged home from second on Motton's two-out single in the 11th yesterday, breaking up a brilliant duel between McNally and the Twins' Dave Boswell.

# Redwood Downs Novato Eleven

By GARY TISCHLER

A tremendous time-using Redwood running game and a case of the disappearing Novato passing game helped Redwood High School to a 12-7 victory over Novato at Tamalpais High School Saturday afternoon in the Marin County Athletic League grid opener for both teams, watched by some fairly rabid 1,000 fans.

Redwood, piling up 201 yards rushing, used two second-quarter touchdowns to get all the scoring it needed as a fired-up defense put Novato under wraps in a scoreless second half.

The Giants unveiled a powerful sophomore fullback before MCAL eyes, using big (6-3, 190-pound) (Oh) Jay Lehman extensively for the first time this season. The big soph came through, racking up 87 yards rushing and scoring the Giants game-winning touchdown on an eight-yard power-sweep.

Mike Farley, who gained 57 yards rushing, scored the Giants' first touchdown, a 16-yard blast up the middle.

Novato appeared set to throw the Giants' out of the stadium, as sophomore Marty Moroski led a slick-moving passing game that resulted in the Hornets completing their first five passes for 92 yards and one touchdown, a 19-yarder from Moroski Judnick that gave the Hornets a 7-0 lead.

They never had it that good again. A tough Redwood defense, led by tackles Tom Wickert and Ross Gondak, and defensive halfback Bob Piper and linebacker Rick Puccinelli, shut them out the rest of the way, coming in with three interceptions as Novato finished with a 10-25 showing in the passing department.

The Redwood ground game, although dominating the second half, failed to score, but ate up enough yardage and time to keep Novato from too many opportunities.

The Hornets fell despite a brilliant defensive game by all-league linebacker Dave Perron and Lynn Merritt at defensive end.

## BOWLING TIPS

By DON CARTER

The fingers should be in a position to lift the ball up to the very last instant, so that as you follow-through, the ball will slide off because of the law of gravity. Therefore, be absolutely certain that your thumb is not riding alongside the ball, for that will mean the fingers are doing likewise.

# Terra Linda Crushes Castlemont

Terra Linda High School combined Tom Jackson's pinpoint passing and the all around brilliance of Bob Daniele with a doomsday defense to crush Castlemont High of Oakland, 21 to 0, Saturday night at San Rafael High School's field.

A crowd of nearly 1,000 turned out to see the Trojans in their final pre-league game. They were not dissappointed.

The Trojans got the only necessary touchdown midway through the first quarter, after Daniele returned a punt 26 yards to the Castlemont 43-yard line.

Three running plays gained 17 yards, and then Jackson fired a 20-yard strike to Daniele, good to the Knight's four. From there John Scozzafava took it in.

Jackson, who hit on 7 of 11 attempts for 117 yards, accounted for the final score with touchdown passes of 45 and 26 yards. The long bomb went to Daniele, who caught three passes for 75 yards, ran the ball twice for 18, and in general made the Knights wish they'd stayed in Oakland.

The Terra Linda defense was rock-solid as it held the Knights to only 70 total yards, and did not allow them inside the Trojan 25 yard line.

## MARIN LEAGUE VICTORY

# San Marin Stuns Tamalpais

By DAVE EINSTEIN

The San Marin Mustangs recovered from a slow start to defeat Tamalpais 28-13 Saturday in the opening Marin County Athletic League game for both high school teams.

Behind 13-7 at halftime, the Mustangs dominated the rest of the game, with Steve Lambert scoring three times to give the young school its first victory ever in varsity competition.

The first half belonged to the Indians, who scored the first time they got the ball. The drive took 10 plays and covered 71 yards. Billy Washington got the touchdown on a 38 yard burst through the middle.

Quarterback Ken Gnoss brought the Mustangs right back on a 73-yard scoring march and capped it with a four-yard keeper.

After the ensuing kickoff, Tam went nowhere, but then the Mustangs made a costly mistake. The Indians punted, San Marin touched it unintentionally, and Tam got the ball back on the Mustangs' 21 yard line. Five plays later Mark Costello bulled over from the three to make it 13-7.

That was the ball game for Tam. The Mustangs went ahead early in the third period on Lambert's three-yard run and Urbano Boucsiequez's conversion, his second on a perfect 4 and 4 day. In the final period Lambert ran an instant replay of his first score, and finished up by dashing 45 yards in the last minute and a half.

In the game's final minutes the Indians resorted to a shotgun offense, with Mike Johnson, a guard who happens to be able to throw the ball, taking over at quarterback.

Earlier the San Marin J.V. team shutout Tam 26-0.

# Tomales Triumphs By 34-0

Tomales High School came up with a one-two-three offensive punch and a stifling defense Saturday to smother Emery High School of Emeryville, 34-0, before some 500 fans at San Rafael Military Academy.

The triple offensive threat turned out to be the passing of Dennis Rodoni and the running of Ron Petroni and Axel Anderson.

Rodoni completed seven of 14 passes for 151 yards, and two touchdowns scored once on a seven-yard run and passed for a pair of conversions while Anderson led all rushers with 152 yards in 14 carries. One of his runs went 70 yards for a touchdown.

Petroni rolled up 107 yards in nine carries and scored on a 41-yard screen pass from Rodoni.

Tomales now has a 2-1 season record, winning its second straight game after an opening game one-point loss to El Molino of Forrestville.

# Sonoma State Wins First Football Tilt

There isn't much room in air filled with penalty flags for a quarterback to throw a pass, but Sonoma State College signal caller Bill Cox threaded the Red Cloths perfectly Saturday afternoon as he threw for two touchdowns to lead the Cossacks to the first football win in the school's history, a 21-7 triumph over the Hayward State JV's.

Cox twice hit split end Dave Dohn for touchdowns in a first quarter filled with penalties on both sides. Hayward State had a pair of touchdowns called back because of penalties and the Cossacks lost one when officials said half back Herm Manuel stepped out of bounds midway through a 70-yard scoring sweep.

79-YARDER

Cox hit Dohn for the first time with 6:31 gone in the game on a play that went 79 yards. Tom Hickman booted the extra point.

Hayward took the kickoff and marched 41 yards to the Cossack seven yard line before SSC halfback Bob Sears Novato High School grad, pounced on a fumble to halt the drive.

Sonoma State, playing intercollegiate football for the first year, moved to its 40 before half back Chris Alvarado fumbled it away, but the Cossacks got it back three plays later when Mark Setterland jumped on a Hayward fumble.

14-0 LEAD

This time Dohn grabbed a 25-yard scoring pass from Cox — the entire SSC touchdown drive — the Hickman kicked the PAT for 14-0.

Hayward finally mounted a successful drive late in the first half, scoring on a 23 yard pass from Will Ergas to Wes Jackson.

The second half was a defensive game highlighted by numerous goal lines stands on both sides, with the Cossacks scoring the lone touchdown on Alvarado's one-yard run in the final frame.

Sonoma State was penalized 105 yards in the contest, Hayward 95 yards. Most of the penalties were in Hayward State JV

# Stan Smith Walks Off With Berkeley Net Title

BERKELEY (UPI)—Upsetting Arthur Ashe apparently took a lot out of U.S. Davis Cup player Cliff Richey.

After scrambling to beat the nation's top-ranked tennis player 9-11, 6-4, 6-4 Saturday, Richey was able to offer only token opposition yesterday to Davis Cup teammate Stan Smith of Pasadena. Smith overpowered Richey on serves and at the net to win the singles title of the $20,000 Pacific Coast International Tennis championships 6-2, 6-3.

Smith also teamed with Thomaz Koch of Brazil to defeat Australia's Terry Addison and Ray Keldie 6-1, 6-3 for the doubles crown. That brought Smith a total of $4,600 in prize money.

Richey, the battler from San Angelo, Tex., won $2,000. His stunning victory over the fault-ridden Ashe was his first in seven meetings with the lanky insurance man.

As he came back yesterday to down Koch 8-6 in a pro set and pick up $1,100.

Mrs. Margaret Court of Australia dominated woman's play. She whipped Winnie Shaw of Scotland 6-4, 5-7, 6-0 to take the woman's single and $1,000. Mrs. Court and Leslie Hunt of Australia then defeated Kerry Harris of Australia and Miss Shaw 6-3, 6-4 for the doubles title.

Can religion solve all the problems of the world?

PHOTO BY HAROLD HALMA

Can religion solve any of them?

There are people who say "religion" is as out of touch with the times as the dinosaur. And about as useful.
After all, how has "religion" solved the problems of our cities, the agony of war, our racial strife, the seeming chasm between the young and the old?
Indeed, what *should* we expect "religion" to be able to do in solving the very real problems of our time?
To take just the example of our troubled cities—churches and synagogues have not a fraction of the material resources needed to heal the wounds.
It's as simple as that.
But have they *failed*, if they point the moral way, provide the moral resolve, and, of course, assist materially to the limit of their resources?
"Religion," indeed, cannot fail—nor, for that matter, succeed—because "religion" is merely a word.
What gives "religion" meaning and force is you.
And everyone who cares enough for God to show God's love in the world. Every day. Everywhere.
For the problems that beset our world are not proof that God has failed Man.
But just the opposite.

NFL ROUNDUP

# Cowboys, Rams Stay Unbeaten

By U.P. INTERNATIONAL

The Dallas Cowboys and the Los Angeles Rams won their third National Football League games yesterday without a loss but two other teams fell from the unbeaten ranks.

Craig Morton threw three touchdowns and got magnificent support from rookie back Calvin Hill, who played only in the first half, in leading the Cowboys to a 38-7 late-starting rout of Philadelphia.

Roman Gabriel threw four TD strikes while providing the Rams a 36-17 triumph over New Orleans.

**FIRST LOSS**

The Detroit Lions gave Cleveland its first loss, pinning the Browns, 28-21, and Minnesota upended previously unbeaten Green Bay, 19-7.

In the other NFL games yesterday, Jim Duncan's 92-yard kickoff return inspired the Baltimore Colts to a 21-14 victory over the Atlanta Falcons, Fran Tarkenton threw four touchdown passes in a last-minute 28-24 victory for the New York Giants over the Chicago Bears, the St. Louis Cardinals beat the error-prone Pittsburgh Steelers, 27-14, and Sonny Jurgensen gave the Washington Redskins a 17-17 tie with the San Francisco 49ers by throwing a four-yard TD pass in the last half-minute.

**DALLAS LEADS**

The results left Dallas atop the NFL's Capitol Division with a 3-0 mark, with the Redskins second at 1-1-1. Los Angeles' 3-0 mark heads the Coastal Division, ahead of Atlanta and Baltimore, who are even at 1-2.

Cleveland, St. Louis and New York all are tied for the Century lead with 2-1 marks and Minnesota, Detroit and Green Bay are deadlocked for the Central lead with 2-1 records.

In Dallas' victory, Hill ran 53 yards for one touchdown, added 38 more rushing yards, caught three passes for 71 yards and threw a 42-yard pass—all in the first half, before retiring to the bench with a minor foot bruise. Morton completed 14 of 18 passes for 261 yards.

Three of Gabriel's touchdown tosses were to Jack Snow—from 35, 24 and 74 yards—and the other was to Bill Truax, from one yard away.

# Tie Leaves Raiders On Top In Standings

MIAMI (AP) — The Oakland Raiders have taken sole possession of first place in the American Football League's tightened-up Western Division standings, but their winning streak is ended.

After three straight victories, they were held to a 20-20 tie Saturday night by winless Miami on a 39-yard field goal by the Dolphins' Karl Kremser with 5:41 left in the game.

The Oakland defense tried to help win it as interceptions by George Atkinson and Bill Laskey set up both Raider touchdowns. The first came on a 15-yard pass from Daryle Lamonica to Warren Wells. The second was a seven-yard toss from Lamonica to Fred Biletnikoff.

A missed play in the third quarter became a big factor in retrospect as the Dolphins came from behind for the tie. George Blanda attempted an 18-yard field goal from a difficult angle and the ball hit the right goal post.

Blanda, whose booting has been a big factor in Raider scoring, missed another from 32 yards, but he also made two and the first extended his consecutive scoring string to 46 games—an AFL record.

A surprisingly strong Dolphin defense held the Oakland running game — the league's most productive — to just 74 yards. Charlie Smith gained 50 yards in 11 carries.

In the air, Lamonica completed 19 of 43 passes for 215 yards and had one intercepted.

After Oakland went ahead 3-0 on Blanda's record-making kick Miami scored 10 points in less than three minutes in the first quarter.

The first tally was a 29-yard field goal by Kremser. On the ensuing kickoff, Jackie Allen fumbled and the Dolphins moved close enough for a nine-yard scoring pass from Bob Griese to Karl Noonan.

## Junior Giants Lead Warner Grid League

The Redwood Junior Giants nicked the Drake Pirates, 8-0, Saturday at Redwood High School to vault into the head of the class in the Marin County Pop Warner Football League.

The Giants were just a shade ahead of the San Rafael Junior Bulldogs and the Novato Junior Hornets who battled to a scoreless tie at Novato yesterday.

In another game Saturday, the Terra Linda Junior Trojans bopped the Tamalpais Junior Indians, 26-0.

Redwood, which won the game on Bob Adams' 30-yard scoring run, now has a 2-0 win-loss record. San Rafael and Novato are 1-0-1, Terra Linda is in fourth at 1-1 while Drake and Tamalpais share the cellar with 0-2 records.

PACIFIC-8 FOOTBALL

# USC, Stanford In Biggie

By ASSOCIATED PRESS

A matching of mighty offenses takes place at the Los Angeles Coliseum Saturday night when unbeaten Southern California and Stanford collide in a Pacific 8 Conference football game.

Southern Cal, seeking a fourth Pac-8 crown, won its first conference game at Oregon State 31-7 Saturday, piling up 390 yards. Sophomore Jimmy Jones threw three touchdown passes, and halfback Clarence Davis carried 181 yards in 29 tries.

A one-point setback at Purdue kept Stanford from matching the Trojans' 3-0 record. Mike Phipps hit for five touchdown passes in leading the Boilermakers to a 36-35 victory over the Indians who amassed 586 offensive yards.

UCLA, unbeaten in four outings, travels to Spokane Saturday to meet Washington State, 1-2.

Washington, which has lost all three of its starts, plays at California Saturday afternoon in the conference opener for both.

Oregon State is idle and Oregon is host to San Jose State in a non-conference tilt.

In handing Northwestern a 36-0 drubbing at Evanston Saturday, UCLA showed impressive power. Like Southern Cal and Stanford, UCLA has a 1-0 record in the conference.

Mickey Cureton ran 61 and 75 yards for two of the Bruins' touchdowns, both in the second half. UCLA scored 26 of its points after an intermission scolding by Coach Tommy Prothro.

Ohio State's National champions had too many guns for Washington's Huskies in Seattle Saturday, winning 41-14.

Washington State missed tries for two-point conversions twice in the final quarter Saturday in losing 25-24 to Oregon, which is 1-1 in the Pac-8 and 2-2 over all.

The Ducks moved into a 25-6 lead by the third quarer, with Bobby Moore running two into payoff territory. Then the Cougars came alive, Jack Wigmore scoring twice on short runs in the last eight minutes.

California needed a late rally to overcome Rice 31-21 for the Bears' second victory against one loss.

Steve Curtis, reserve quarterback until this week, lobbed a 19-yard toss to end Jim Calkins in the end zone with 53 seconds left to put the Bears back in the lead. Seconds later, Paul Martyr intercepted a pass by Stahle Vincent and ran 30 yards for the final Cal score.

AFL ROUNDUP

# Namath Even Surprises Weeb

By UP INTERNATIONAL

Joe Namath's heartening deeds sometimes cause cardiac arrest among his coaches.

Namath, one of professional sport's most courageous athletes, pulled a surprise maneuver against the Boston Patriots yesterday which clinched a 23-14 victory for the New York Jets and left head coach Weeb Ewbank in a near state of shock.

**FROM FOUR**

The play occurred in the third quarter with the ball on the Patriots' four-yard line and the Jets leading, 10-7. It was a third and goal situation, and the Patriots were guarding against both a run and a pass. But Namath, ignoring his much-publicized aching knees, rolled to his left and beat a pack of recovering defenders with a headlong dive over the goal line.

Namath, who got into his own touchdown range with his passing, also connected on a 10-yard touchdown pass to Pete Lammons in the second quarter and set up field goals of 17, 24 and 16 yards by Jim Turner. Namath completed 15 of 21 passes for 145 yards in helping the Jets even their record at 2-2.

In other American Football League action yesterday Houston beat Buffalo, 28-14, and Kansas ton beat Buffalo, 28-14, and Kansas City whipped Denver, 26-13. In Saturday night games, San Diego topped Cincinnati, 21-14, and Oakland and Miami played to a 20-20 tie.

The Oilers, who won their third game in four starts, held Buffalo's O. J. Simpson to just 27 yards in 13 carries in handing the Bills their third loss against one victory.

Jan Stenerud booted four field goals and Jim Kearney returned an intercepted pass 60 yards for a touchdown as the Chiefs won for the third time in four outings. Third-string quarterback Mike Livingston, starting in place of the injured Len Dawson and Jacky Lee, turned in a fine game for the Chiefs with 14 completions in 27 attempts for 214 yards.

Fullback Brad Hubbert ran for three touchdowns, the last breaking a fourth quarter tie, as the Chargers knocked the Bengals out of first place in the Western Division Saturday night. Hubbert's one-yard run at 9:55 of the final period proved decisive and came after he had scampered 24 yards on the previous play.

## Wild Time, Seals Lose

BUFFALO, N.Y. (AP) — The Buffalo Bisons of the American Hockey League defeated the Oakland Seals of the National League 5-1 yesterday in an exhibition game marred by a disturbance among spectators.

Fans tried to grab Fred Glover, Oakland coach, as he walked to his team's room between the second and third periods. In the resulting commotion, a spectator was injured. He was treated on the scene by the Buffalo team physician and sent to a local hospital.

**TO DUMMY KING**

West's club lead went to dummy's king, and Mrs. Blumeofe led the ten of spades from dummy for a finesse. West won with the queen of spades and returned the deuce of clubs to dummy's ace. It was now clear that West had started with a five-card club suit.

Declarer won a finesse with the nine of spades and took two more spade tricks. West and dummy discarded diamonds, and East threw the deuce of hearts.

**SPLIT ACES**

By this time it was fairly clear that the red aces were split. If Mrs. Blumeofe went after the hearts first, she would eventually have to lead clubs or diamonds from her own hand with very unthrifty results. She therefore tackled the diamonds first, aiming to exhaust West's diamonds and force him to lead clubs at the end of the hand.

Declarer led a low diamond to dummy's queen, and East took the ace of diamonds and returned a diamond to the king. South led a low heart to dummy's queen and returned a heart for a finesse with the ten.

**FRUGAL PLAY**

West could take the ace and jack of hearts but then had to lead clubs from the queen-ten, allowing declarer to take her eighth trick with the jack of clubs. The whole performance — the cautious contract and the frugal play — were a credit to her father's teaching.

## SUCCESSFUL INVESTING

## Speculative Interest In Pioneer's Uranium Holdings

By ROGER E. SPEAR

**Q. I would like to average down the cost of my shares of Pioneer Natural Gas. Shares are almost 10 points below my cost after a drop in earnings resulting from unfavorable weather conditions. Would my plan be prudent? — J. H.**

A. Aside from natural-gas sales which contributed 88 per cent of 1968's revenues, Pioneer has branched out into a number of other potentially profitable areas. Two subsidiaries, Amarillo Oil and Pioneer Production, are active in exploration, drilling and production of oil and gas.

These subsidiaries successfully brought in 11 oil wells and 10 gas wells during the first six months of 1969. The company produces about 20 per cent of its own natural gas requirements. Perhaps the most interesting aspect of Pioneer's operations is its uranium exploration program.

Lease-hold interest is held in about 400,000 acres in Texas, Colorado, New Mexico, Utah and Wyoming. Ore reserves are estimated to contain over 4 million pounds of uranium oxide but only 15 per cent of company-held acreage has been thoroughly explored.

Pioneer, with a partner, is planning the construction of a 1,000-ton-per-day uranium mill. Demand for uranium is expected to grow rapidly after 1972 when several nuclear-fueled power generators go on stream. Earnings recovery should be more apparent in 1970, when benefits from rate increases and several new industrial customers will be fully realized. Averaging down in this issue is warranted.

**Q. I am interested in a mutual fund for income and safety. Looking over comparative data it seems to me that Puritan Fund fits my objectives. Do you have any comments? — M. B.**

A. In addition to meeting your stated goals, Puritan Fund has performed well in the five years ending 1968, moving ahead an adequate 82 per cent. In the first seven months this year net asset value had declined slightly more than the Dow average. Holdings include bonds and preferreds, 24 per cent, and common stock, 69 per cent. Puritan yielding more than 4.5 per cent at recent depressed levels is in an excellent buy range.

Listen to this — full charge, work in Marin County, make to $600 to start—prestige firm — nice people — much opportunity — no commute — no smog — nice and warm. Call Pat Kelly.

EXECUTIVE SECRETARY. Typing — shorthand — organizing things — scheduling appointments—generally act like and be a big shot. $500.

# HOW TO KEEP WELL

By DR. THEODORE R. VAN DELLEN

## *Tracheotomy Sometimes Needed To Prevent Fatal Strangling*

VAN DELLEN

Several years ago a physician attending a convention went to bed early because of a chest cold. The thick sputum was tenacious and difficult to bring up. He coughed and a large piece of mucus lodged in his throat.

Within a few moments, the man became desperate because he could not get air into his lungs to force out the plug of mucus. The doctor was about to strangulate.

**HE DECIDED** that his only chance was to make an opening in the windpipe (tracheotomy) just below the Adam's apple. As he reached for his pocket knife on the dresser, the plug moved and he was able to get enough air into his lungs to expel it.

Another minute and he would have lost consciousness and died.

**TRACHEOTOMY** is indicated whenever there is an obstruction in the windpipe at or above the level of the voice box. For example, when a large piece of meat or a foreign body is stuck in the back of the throat and cannot be dislodged.

Following the procedure the victim breathes as usual except that the air enters via a hole in the neck instead of through the nose and mouth. During an emergency, it is done with make-shift equipment.

Most tracheotomies are done in the operating room to circumvent an obstruction due to cancer of the larynx or the swelling from an allergy, infection, or injury. A special curved tracheal tube is inserted into the windpipe and strapped in place.

**THE OPERATION** also is done when, for one reason or another, the individual cannot raise secretions from the lungs. It provides an easy way to suck mucas from the lungs.

Some of these persons cannot cough because of a paralysis of the diaphragm and chest muscles. Unless the material is removed via tracheotomy, the individual virtually drowns in his own secretions.

**(Questions on medical topics will be answered by mail if stamped, self-addressed envelope accompanies request to the I-J.)**

**CRACKED TOES**

B. B. writes: I was shocked when I recently noticed that my 15-year-old son's big toes are bent in middle. The toes do not lie flat and the joint seems to be sticking up too high. Is this hammertoe?

REPLY

Hammertoe usually involves the second digit altho any toe can be affected. Take the young man to your physician who will make the diagnosis.

**LOCKJAW PROTECTION**

B. I. writes: Why do pediatricians give infants shots against tetanus?

REPLY

Tetanus toxoid is administered during infancy to build up immunity against a disease that is not common but is most serious when it occurs. Children are exposed to the infection more often than adults because of the numerous cuts and bruises they sustain during play. Lockjaw can be contracted in other ways besides stepping on a rusty nail.

**LUMINOUS DIAL**

K. S. writes: Does wearing a watch with a radium dial harm the wrist?

REPLY

No. The amount of radiation given off is infinitesimal, altho it is said to be variable. The only objection is that it adds to the small amounts of radiation received from natural sources in soil and in the air.

**SEPARATION NAUSEA**

Mrs. J. S. writes: Why does a healthy 5-year-old girl become nauseated riding in the bus to school but not on the return trip?

REPLY

Because of anxiety caused by being separated from her mother.

**Today's Health Hint** — Foot pain may be relieved by wearing corrective shoes.

The first American-built automobile, made by Charles Duryea, was known as a "buggy-aut."

## TELEVISION IN REVIEW

# Gleason Returns Stronger Than Ever

By RICK DU BROW

HOLLYWOOD (UPI)—Jackie Gleason's weekend CBS-TV series is operating at maximum efficiency—with high-powered attractions—in facing the new head-on competition of NBC-TV's Andy Williams.

NBC-TV's intention with Williams was to try to knock off the great Gleason, who has owned the early Saturday night audience for some time. And although it is still early in the season, the indications are that Gleason's popularity is still as strong as ever—maybe stronger.

Not only is Art Carney back with Gleason as they continue to be the best comedy team in American show business today, but their adventures in "The Honeymooners" sketches—now expanded to full musical hours—have been given a fresh location after their fictitious winning of a trip to Hollywood.

Furthermore, the Gleason camp, perhaps because of the Williams competition, has muscled up on major guest stars for "The Honeymooners"—with Bing Crosby and Maureen O'Hara participating this past weekend, and Carol Lawrence and the Baja Marimba Band appearing this coming Sunday in an episode set in Mexico.

On top of all this, Gleason startled his season premier audience several weekends ago by showing up minus much of that excess weight he used to carry around. He may have to sacrifice the fat jokes, and we may be a little nostalgic for that lovable rotund character we once knew—but he looks smashing, his comedy certainly hasn't suffered any, and those of us who have grown fond of him will certainly be happy that he is surely healthier.

On his season premier, Gleason outpointed Williams, who had a week head start on him, by a tremendous margin in the ratings. This was not exactly a fair assessment of their relative strength, because apparently one quarter of Williams' show was obliterated from Boston to Denver by the latter part of an NBC-TV baseball game between the Los Angeles Dodgers and San Francisco Giants. Nevertheless, Gleason figures to remain a ratings power.

And, in his competition with Williams, he has a singular unspoken asset guaranteed to aid these ratings. This asset, put simply, is the affection of Gleason's audience for him. And the reason for this audience feeling is that when we watch Gleason, we know exactly who he is, what he stands for—and how honest he is in his approach to what he thinks entertainment ought to be.

It is one thing to be admired. A lot of performers are admired. But when a performer has earned affection as well as audience admiration, he is at the top of the game.

## Center Plans Park, Area For Children

New projects are in the offing for the Corte Madera Shopping Center, according to Hollie Smith, manager of the center's merchants' council.

Plans are underfoot to add some greenbelt to the center, through the cooperative efforts of Walter Schorenstein, owner of the center; Al Czyzewski, leasing agent of Milton Meyer Co., and Richard G. Burns, president of the council.

Smith says that a vacant lot at the center complex is due to be turned into a park-like area with grass, shrubbery, benches, and some play equipment.

Another, small enclosed area will be renovated to become a Kiddie Korral, where parents can leave small children under supervised care.

The plans are being made by center officials to offer Marin shoppers a more pleasant atmosphere as they take advantage of the services and facilities provided by the Corte Madera Shopping Center.

## Texas Crane Toll

SAN ANGELO, Tex. (UPI)—Hunters killed an estimated 1,339 sandhill cranes in Texas during the 1968-69 season, according to the state Parks and Wildlife Department. The state's sandhill crane population is estimated at 280,000.

## TOMORROW NIGHT IS MOONLIGHT MADNESS

Moonlight Madness will hit the Corte Madera Shopping Center tomorrow, as all merchants join together to offer fabulous buys during the big October sale.

This lunar lunacy that strikes the center each year affects the merchants with give-away instincts. The participating stores' employees will don night caps, night shirts, and slippers to add a touch of silliness to the atmosphere.

It's one of the center's largest sales, with once a-year savings for shopper's families and homes.

Special store hours are scheduled for the event. All stores will be closed from 5:30 to 7 p.m., when they will reopen until 9 p.m.

# Aquanauts Eager To Try Larger Sea Tests

NEW YORK (UPI)—While millions of Americans are gazing upwards toward the moon, where such a short time ago man took his "one small step," a group of marine scientists has its sights set in the opposite direction—toward the depths of the ocean.

The aquanauts who surfaced last April 15 after a 60-day sojourn under Caribbean waters are ready to submerge again. The target date: January or February, 1970.

### NOT ENOUGH

"Sixty days is simply not enough," insisted Richard A. Waller, the intense, compact oceanographer who headed that "Project Tektite I" in Beehive Cove, Port Lameshur Bay, off the U.S. Virgin Islands last spring.

"That 60 days living and experimenting under water was simply a one-shot deal, and scientific research is not conducted like that," he told UPI on a recent rushed visit to New York.

So Waller, a scientist with the Department of Interior, is heading up an inter-agency task force that will study the cost of a second Tektite project with the hopes of winning a go-ahead signal for it, possibly this month.

Represented on the task force are the Department of Interior, the National Aeronautics and Space Administration (NASA), the Navy, the Smithsonian Institution and the National Sciences Foundation.

They are scheduled to report on their findings to the inter-agency steering committee on Sept. 12. "And if the price is right, it looks like we'll get approval to start the project in early 1970," Waller said.

### SEVERAL TEAMS

The scientist estimates the project—planned to last six months this time—will cost about $2.5 million in all.

Unlike Tektite I, which set a record for living underwater, Tektite II will employ six or seven teams of a total of 40 to 45 marine scientists who will conduct their experiments underwater for from two to four weeks at a time, Waller said.

The inter-department cooperation is a key to the success of the continued underwater research project, he emphasized, since unlike the space program Tektite will probably not make banner headlines.

"There probably won't be a dramatic breakthrough in oceanography like there was in the space program," he said. "It's a building block type of thing . . . just continually adding to what we think we already know and finally reaching some level of proficiency where we can make some predictions."

Tektite I was financed by the Office of Naval Planning, with the help of the Department of Interior, NASA and the General Electric Company. And while Waller thinks the Navy did "a very good job," it's his own department, Interior, he is counting on to provide the biggest support.

### NAVY NOT ENOUGH

"Lots of people think the Navy is going to develop all the technology necessary to do scientific research on the continental shelf and deeper. It's simply not going to happen . . . it's fantasy to think we are going to get what we need from the Navy's efforts," he said.

It was the Navy that invested $10 million in the ill-fated Sealab project on the West Coast, which was halted abruptly after the mysterious death of an aquanaut in February and a series of problems with the capsule in which the aquanaut was to have lived with eight other Marines 600 feet under Pacific waters.

The Department of Interior's interest in marine research was evidenced by Secretary Walter J. Hickel.

"I think their accomplishment is ample proof that Interior is serious about developing the resources of the ocean floor; that this is not a conservative, old line department which has no interest in new ideas and techniques as some people have said in the past," Hickel said at the ceremonies before Vice President Spiro T. Agnew.

**AN OCTOBER TRADITION**

The hills of Brown County in Indiana present a rustic autumn setting for the area's traditional October activity — making sorghum. As old Dobbin patiently plods in wooden harness, sugar cane stacked in foreground is fed into the press. The resulting sap runs through underground pipes to boiling vats at the Wayne White sorghum mill. (UPI Telephoto)

# River Kwai Span Almost Forgotten

KANCHANABURI, Thailand (UPI)—A few miles west of this peaceful province capital in central Thailand lies the scene of one of the most dramatic stories to come out of World War II, the infamous bridge across the River Kwai.

There isn't much left there today to mark the savagery and heroism of the 125,000 or more allied prisoners and coolie laborers who slaved to build Japan's "Death Railway" to Burma.

All that remains is a cemetery with 7,000 graves, and a Japanese monument exhorting the "Men of Southeast Asia" to "strive together to throw off the yoke of white imperialist devils" and build a new life for themselves by winning the war.

**HAUNTING MEMORIES**

In the bed of the stream you can still see the concrete pilings of the original River Kwai bridge.It was bombed into oblivion by Allied planes shortly after the railway was completed in 1944.

The new bridge, several hundred yards upstream, is a cement-and-iron trestle that spans the stream and shoots a pair of rusty iron tracks off into the dense rain forest on the other side.

The original Kwai bridge, immortalized in a book by Pierre Boulle and a movie that starred Alec Guinness as a hard-nosed British colonel, served the same rail line.

**JAPANESE PROJECT**

The Japanese wanted a route by which they would be able to supply their Burma fighting front from their relatively secure bases in Thailand. They chose to build a railway up the Kwai Valley and across the Three Pagodas Pass on the mountainous border, thence down to Moulmein.

To build it, they mobilized an estimated 25,000 British, Australian, Dutch and American prisoners of war, and about 100,000 coolies.

Although prisoners of war cannot legally be required to work on enemy construction projects, the Japanese ignored the conventions and turned the railway into a massive slave labor project.

By the time the railway was finished, 16,000 allied prisoners and something like 100,000 coolies had died, from malnutrition, overwork, disease and Japanese bullets.

Today there is only the cemetery to remember them by. It is neat and well-tended with row on row of gravestones.

## Noisy Dog's Owner Gets Stiff Lesson

BALTIMORE (UPI)—Baltimore police take barking dog complaints seriously. After a number of calls from neighbors about a woman who let her dog bark, police zipped out to her house, arrested her, fingerprinted her and then locked her up for 12 hours. County official protested the action, but police said the woman had been warned several times about her noisy dog.

## Early College

LEXINGTON, Ky. (UPI)—Transylvania College, established in 1788, was the first institution of higher learning west of the Allegheny Mountains. It is now a university.

# Aerobatic Artist Lives In A Upside-Down World

RUBIDOUX (UPI) — The world of pilot Art Scholl is so topsy turvy he has lines on his cockpit canopy to tell up from down.

It is a world of G-forces equivalent to those experienced by astronauts during liftoff, and of trick flying at 200 miles an hour as low as five feet above the ground.

Is he concerned about his safety? "I'm very careful," Scholl replies. Does he wear a parachute? "Yes, but I fly too low to use it."

Art Scholl is one of the world's top acrobatic flyers. He competed for the U.S. Aerobatic Team in world competition in Moscow in 1966 and in East Germany in 1968. He plans on winning the national competition this fall in Fort Worth,

**GREAT CASUAL COMPANION**

Ready for comfort in the casual scene is this fall footwear style — a slightly square-toed slip-on with high-riding tongue and wide strap. It's smooth calfskin in a wide range of colors, punched with bold perfs and an antiqued metal buckle. It's available at Kramar's Shoes in the Corte Madera Center.

# Buckles and Boots — High Style For Women and Men

Buckles and boots are the fashion word in shoewear for men and women, according to Roger Green, new manager of the Thom McAn shoe store at the Corte Madera Shopping Center.

Color still keynotes fashion footwear for women, while mens' shoes are trending toward antique finishes, including gold.

"Thom McAn, a nation-wide shoe firm with a long deserved reputation for style and excellence, offers the discriminating shopper a fine selection of shoes for men, women and children — and at moderate prices for the budget conscious homemaker," Green says.

Attractive accessories available at the Corte Madera store include hosiery for all members of the family, slippers, and the latest styles in hand-bags.

Green, manager of the store since the middle of September, has been with the firm in Sacramento and Fresno, and has had prior experience with other shoe stores. A native of Ohio, he resided in Santa Rosa until he and his wife, Rosalie, established their home in Fairfax recently.

Butte County is his destination for recreational activities of hunting and fishing.

# Aerobatic Artist Lives In A Upside-Down World

Continued from Page S10

Tex., and hopes for a world title in England in 1970.

On the side, Scholl flies in about 50 air shows a year, many of which he organizes. He also runs an aerobatic school, films television commercials and teaches aeronautics at San Bernardino Valley College.

He flies out of a dusty, littie field in this Southern California community 100 miles east of Los Angeles. There is no control tower to harangue him if he buzzes the landing strip at 150 miles an hour.

At age 37, the thin (5-feet-11, 150 pound), bespectacled pilot is no Red Baron, although he has flown the World War I German Fokker D7 in a number of films.

His tastes lean more toward white turtleneck sweaters and nylon windbreakers than to flying scarfs and leather jackets and to prescription sunglasses (no, they do not fall off when he flies upside down) instead of goggles. He has earned a master's degree and, during more than 4,000 hours of flying, has chalked up licenses for multi-engine, glider and instrument piloting, has beeen checked out in a Boing 707 jetliner.

Besides his anonymous work in movies and television, he was featured in a half-hour TV "The Crowd Above; The Sky Below."

If all this seems like a frenetic pace even for an "aerobat," it is. Scholl plows back nearly everything he makes into his red, white and blue "superchipmunk," modified and rebuilt at a cost of $40,000 from a DeHavilland "Chipmunk" trainer used by the Royal Canadian Air Force during World War II. He frankly admits he would like another $6,000 to buy a new Lycoming engine to replace the one he converted from a World War II target drone, purchased for $300.

There would have been little room for Scholl and his type of flying a decade ago in the United States. Competitive flying, particularly air racing, had a bad name as the result of a number of tragic accidents shortly after World War II in which pilots, spectators and others not involved in any way with the event were killed. But in the past several years, there has been a sharp growth in the general interest in stunt and race flying.

## NO AGE LIMIT—NO MEDICAL EXAMINATION REQUIRED. NO SALESMAN WILL CALL.

### Here is good news for folks who *don't drink!*

No longer need you pay the same rates for health insurance as those who *do* drink.

As everyone knows, abstainers are apt to have *fewer* accidents and illnesses. Why then should you, as a non-drinker, have to help pay the bills of those who *do* drink? We believe that this is unfair . . . and by offering the Gold Star $400.00-a-month Hospital Plan only to non-drinkers, we are able to pass the savings on to you!

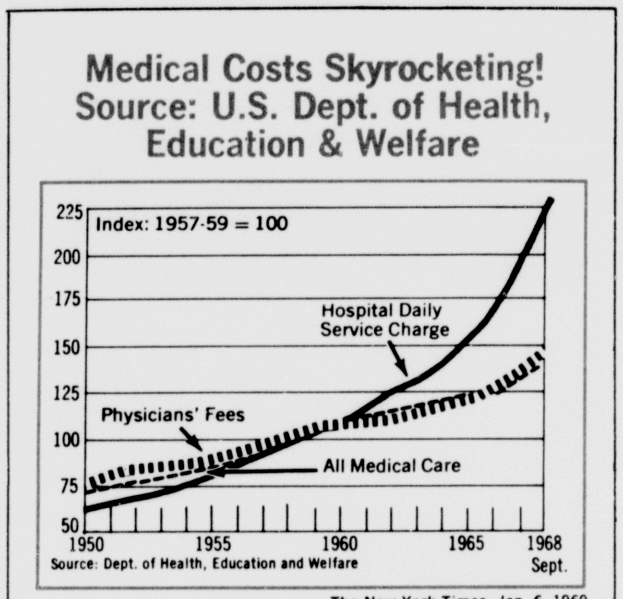
### The wonderful Gold Star Plan . . .

pays you $400.00-A-MONTH extra income whenever you are hospitalized—TO A MAXIMUM of $19,200.00 CASH. What a blessing it is when you know you have an extra $400.00 cash coming in every month — beginning the very first day you enter the hospital.

Now, Gold Star's low-cost plan for non-drinkers enables you to enjoy this protection at once. Because it will NOT cost you $20.00. It will NOT cost you $10.00—or even $5.00. Your low price is just $1 for the first month's coverage for your entire family.

After the first month, you may continue as long as you wish — your protection can never be cancelled no matter how old you become or how many claims you have! And that's not all. This Gold Star Total Abstainers Plan . . .

pays you $400.00-A-MONTH extra cash for a Registered Nurse at home—TO A MAXIMUM OF $4,800.00 CASH.



Govt. figures reveal your present health protection **. . . may no longer protect you against today's rising medical costs!** Don't leave your loved ones defenseless! Act at once to add up to $19,200.00 to your health protection for only $1 for entire family.

Yes, in addition to the $400.00 monthly checks we send you during your hospital stay, we pay you an extra $400.00 a month if the doctor has you employ a full-time Registered Nurse to take care of you at home.

How comforting it is to know that—after your stay in the hospital, if you've been there five days or more, you can return home to recuperate and yet not be a burden to your loved ones. Yes, if your doctor has you employ a full-time Registered Nurse within 5 days after you come home, we'll send you checks for $400.00 a month during employment of the nurse—for as long as you were hospitalized —even for as long as 12 months. It's like having an extra cash reserve of $4,800.00 cash to draw on when you need it. Another exceptional feature you have with Gold Star...

### Pays you $400.00-A-MONTH extra cash Maternity Benefits for *each* hospital stay!

Now, if both husband and wife are insured for the entire period of the pregnancy, you get extra cash to use any way you want. If a pregnancy, childbirth or even miscarriage puts the wife in the hospital for one day, five days—as long as necessary—you collect at the rate of $400.00 a month for every day of the confinement. In addition to all this, the Gold Star Plan . . .

### Pays you $240.00 A MONTH each time your child is hospitalized — AS MUCH AS $11,520.00 CASH!

If you choose to have your children covered too, (for only $1.90 more a month) Gold Star will pay you to a maximum of $11,520.00 at the rate of $240.00 a month any time one of your youngsters goes to the hospital...for removal of tonsils, appendix, or any other illness or injury! Yes, you will receive $240.00 cash, month after month—for as many as 48 months, if necessary. This $11,520.00 extra cash benefit will apply to any future dependent children you may have, too — without any additional charge!

### Plus All These Added Cash Benefits.

**Added cash benefit:** To a maximum of $5,000.00 cash for loss of limbs or eyesight, when the loss results any time within 90 days of the accident.

**Added cash benefit:** Gold Star pays DOUBLE CASH when both husband and wife are hospitalized at same time for accidental injury. You receive not $400.00, but $800.00 a month. Your wife receives not $400.00, but $800.00 a month. That's $1,600.00 *in all, in cash payments for you and your spouse every month* while you both remain in the hospital...up to a maximum of $76,800.00 CASH over 48 full months.

### We pay your premiums when you are not able.

If you (the "main insured") are hospitalized just 6 weeks or more, all premiums that

come due while you are still in the hospital after this period will be paid by Gold Star. And your protection continues as if you were paying the premiums yourself — FOR AS LONG AS 48 MONTHS per confinement! This means you pay no premiums that come due after six weeks in the hospital, yet your protection remains in force — *you still collect as much as $19,200 for each confinement!*

**THIS LIMITED ENROLLMENT OFFER ENDS SOON.**

**Only $1 for first month for entire family.**

You can now have your first month's protection for your entire family for only $1. But your request for this wonderful Extra Cash Plan must be mailed in the enclosed airmail reply envelope NOT LATER THAN MIDNIGHT of the date in the Enrollment Form on the back of this announcement. (That's just a few days from today!)

This midnight expiration hour cannot be extended. If your Form is mailed later, it cannot be accepted.

### Extra broad coverage with ONLY these exclusions.

Your Gold Star Policy covers every conceivable kind of sickness or accident except, of course, hospitalization caused by use of narcotics; any mental disease or disorder; act of war; where care is in a U.S. Government hospital; pregnancy, except as provided under the Maternity Benefit provision; or expenses resulting from any sickness or injury you had before the Effective Date of your Policy *(first 2 years only)*.

The last item is a real help if you *already* have a health problem. If you are sick *before* you take out this Policy you will be covered for a continuation of that condition after the Policy has been in effect for only 2 years.

### How can $1 buy so much?

You can buy ordinary insurance at any time and pay the regular rates if you wish. But Gold Star can now provide you with *$400.00-a-month tax-free income protection* for just $1 the first month for TWO big reasons: 1) We absolutely *refuse* to enroll folks who drink, because they are higher insurance risks! 2) We cut costs to the bone by enrolling a large number of non-drinkers, like yourself, at one time, *direct by mail*—and the savings are passed on to you!

### 65 or Over?

**You collect in addition to Medicare —EVEN AS MUCH AS $18,840.00 cash!**

Even though Medicare is a great boon to folks 65 or over, it will not pay *all* the bills that quickly pile up as a result of illness or accident. Gold Star has designed this Plan as the important addition to whatever is paid by Medicare.

Regardless of how much is taken care of by Medicare and all other health insurance you have, Gold Star pays you cash benefits beginning at the rate of $280.00 A MONTH for the first 3 months and, during continuous hospitalization thereafter a full $400.00 A MONTH...EVEN FOR AS LONG AS 48 MONTHS, if necessary. *You can receive as much as $18,840.00 for each illness or injury when hospitalized!*

### Imagine what a sudden illness, accident or operation could do to your life's savings!

One out of every two families will have someone in the hospital this year! It could be you —or some beloved member of your family tomorrow . . . next week . . . next month. Sad to say, very few families have anywhere near enough coverage to meet today's soaring hospital costs. These costs have doubled in just a few short years. They are expected to double again in the few years ahead.

Stop for a moment. Think how much a long stay in the hospital will cost you or a loved one. How would you ever pay for costly, but necessary, X-rays, doctor bills, drugs, medicines? What would you do if your pay check stopped, but living expenses kept going on the same as ever? The same rent, food, phone, all the day-to-day expenses that never stop. The financial burdens of sickness, accidents and hospitalization have cost many people their life's savings, their cars, even their homes. And no one knows whose turn it will be next.

Don't take chances. Now YOU can enjoy the added protection, the peace of mind, the freedom from worry that this new Gold Star Plan LE 45-1068-CAL. offers.

### The most coverage for the least cost.

It would open your eyes to compare Gold Star's benefits and low rates with those of ANY other insurance plan. You will find that dime for dime, dollar for dollar, *Gold Star does indeed give you the most coverage for the least cost!*

Isn't this the kind of "preferred treatment" which you, as a non-drinker are ENTITLED TO? Of course, it is! And this, in a nutshell, is the basic principle that makes possible The Gold Star Plan . . . "Special Protection for Special People". . . insurance FOR abstainers at savings too substantial to miss.

### Money-Back Guarantee — in case you change your mind.

When your Policy arrives, examine it carefully. It's a very short document. There is NO FINE PRINT. Then show it, if you wish, to someone you trust. Perhaps your lawyer, accountant or pastor. Better still—show it to your own insurance man. (We're proud to report that among our policyowners are insurance agents and brokers throughout America — all NON-DRINKERS who realize that even the companies they represent cannot match Gold Star's low rates!)

If you are not 100% satisfied, return the Policy within 15 days of the day you receive it, and we will REFUND YOUR MONEY. But meanwhile, your entire family will be protected by $400.00-A-MONTH extra cash benefits just as if you had already said "yes"! That's right, you will be fully covered all this time even if you finall turn the Policy. And, if you c tinue this wonderful $400.00- tra Cash Plan, you may do s rate shown below. *23 IMPORTANT QUESTIONS ANSWERED ON NEXT PA*
*SEE BACK PAGE FOR $1 ENROLLMENT FORM*

# THESE 23 QUESTIONS AND ANSWERS...

1. **How much will my Policy pay me when I am hospitalized?**
   You are paid $400.00-A-MONTH cash every single month. And it starts the *very first day* you are in the hospital. (If you are 65 or over, you are paid $280.00 a month for the first 3 months, and a full $400.00 a month during continuous hospitalization thereafter, in addition to anything paid by Medicare). You are paid $240.00 A MONTH every time a covered child is hospitalized.
2. **Will I be paid if I am hospitalized for less than a full month?**
   You certainly will. This new plan (LE 45-1068) pays you whether you are in the hospital for only a day, or a week, or a month, or a year or *even as long as 48 months!*
3. **Does this Plan pay me from the first day of hospitalization?**
   Yes! There are no long "waiting periods." You receive full cash benefits of $400.00 A MONTH starting the very first day you enter the hospital. Coverage begins the same day we accept your completed Enrollment Form and first month's premium.
4. **How long will I continue to receive hospitalization benefits?**
   Gold Star will continue to pay $400.00-a-month extra cash benefits even if you are confined to a hospital for as long as 48 months—a total of $19,200.00 over this four-year period!
5. **How much do I receive for a Registered Nurse at home?**
   $400.00 A MONTH to a maximum of $4,800.00 after you have been hospitalized for 5 days or more, and your doctor has you employ a full-time Registered Nurse within 5 days after you leave the hospital. Benefits continue during employment of the nurse for as long as you were hospitalized, even to a maximum of one full year.
6. **Will I be paid extra if I lose a limb or eyesight?**
   Yes. Gold Star pays $2,500.00 for complete accidental loss of one hand or one foot or sight of one eye; $5,000.00 for loss of both hands or both feet or sight of both eyes . . . when dismemberment results any time within 90 days of the accident.
7. **Suppose I am paid benefits for any sickness or accident. What happens if I am again hospitalized for the same condition?**
   Don't worry! You still collect $400.00 A MONTH for a total of 48 months. And if you have already resumed full normal activities for just 3 months, it's considered a new confinement, and you can collect again to the maximum of 48 months. Of course, any new condition is covered immediately for a full 48 months.
8. **What benefits do my eligible, dependent children get?**
   If you choose to include your dependent children (age 1 month to 19 years) under this Plan, you collect $240.00 A MONTH to a maximum of 48 months confinement for each child hospitalized.
9. **Are there times I might collect as much as $19,200.00...as much as $76,800.00?**
   **There are! Because we pay cash not just for you, but for every covered member of your family. And if you and your wife are hospitalized at the same time by an accident, you collect Double-Cash Benefits In other words, you receive not $400.00 but $800.00 a month. And your wife receives Double-Cash Benefits, too. She collects not $400.00 but $800.00 A MONTH. So you end up collecting *$1,600.00-a-month extra cash benefits in all* during the time you are both simultaneously confined, for as long as 48 months! We hope accidents don't strike in your home—but should something happen, isn't it reassuring to know you're so well protected?**
10. **How may I use these benefit payments?**
    **You may use them in any way you wish—for hospital and doctor bills, rent, food, household expenses, to replace savings or anything else. This is entirely up to you.**
11. **May I apply if I am 65 or over?**
    Yes, you may. Folks any age are welcome to apply—there is no age limit! Members 65 or over are paid $280.00 a month for the first 3 months of each hospital confinement and, while hospitalized thereafter, a full $400.00 a month.
12. **Can I collect from Gold Star even if I carry other insurance?**
    Of course. This Plan will pay you in addition to whatever you may receive from any other policies you may have with other companies, including Medicare for folks 65 or over.
13. **Why do I need this Gold Star Plan in addition to my other hospital and health insurance?**
    While hospital costs have doubled in recent years, very few people have doubled their insurance. The chances are one in seven that you will have to go to the hospital this year. You will need money not only to pay hospital bills, but also to meet ordinary living expenses that never stop. And if you have another hospitalization policy that's more than 2 years old you have already lost ⅓ of the benefits DUE TO SKYROCKETING MEDICAL COSTS!
14. **May I add future dependent children to my Policy after it is in force?**
    Yes, indeed, if you choose to include children's coverage under this Plan. When any future children are 1 month old they are automatically covered without any additional charge!
15. **Will my protection be cancelled because I have too many claims?**
    No, definitely not! Gold Star guarantees never to cancel your protection for any reason whatsoever! (Of course, if deception is used in making application, the Policy may be ineffective.)
16. **Will my rates be raised as I grow older or if I have too many claims?**
    No matter how many claims you have, or regardless of how long you keep your Policy, your rate will remain the same as it was for your age when you enrolled, unless there is a general rate adjustment, up or down, on all policies of this type in your entire state.
17. **What is not covered by this Policy?**
    The only conditions not covered are those caused by: the use of narcotics; any mental disease or disorder; expenses resulting from any sickness or injury you had before the Policy Effective Date (during the first 2 years only); act of war; or where care is in a U.S. Government hospital. EVERYTHING ELSE IS COVERED—including pregnancy, childbirth or miscarriage if both husband and wife have been enrolled in the Plan (with Maternity Benefits) for the entire period of pregnancy.
18. **What are the requirements to enroll in this Gold Star plan?**
    You must not drink alcoholic beverages; you must not have been refused or had cancelled any health, hospital or life insurance for reasons of health; and to qualify during this Enrollment Period, you must enroll before midnight of the date in the Enrollment Form.

# Tell you how Gold Star's $400.00-A-MONTH Extra Cash Plan gives you the protection you need—at amazingly low cost!

19. **Why is this offer good for a limited time only?**
    **Because by enrolling a large number of people at the same time, underwriting, processing and policy issuance costs can be kept at a minimum—and we can pass these savings on to you.**
20. **Besides the savings, are there other advantages of joining Gold Star during this enrollment period?**
    **Yes, there certainly are. A very important one is that you do not need to complete a regular application—just the brief form on the back of this announcement. Also, During this Enrollment Period, there are no other requirements for eligibility—and no "waivers" or restrictive endorsements can be put on your Policy!**
21. **Can other members of my family take advantage of this offer?**
    Yes, as long as they meet the few requirements under Question 18.
22. **How does this Money-Back Guarantee work?**
    Examine your Policy in the privacy of your own home. If for *any* reason you are not completely satisfied, return it within fifteen days of the date you receive it, and we will promptly refund your money. Meanwhile *you will* be fully protected while making your decision?
23. **How do I join?**

## Outstanding Americans Like These Recommend Gold Star

**GEN. W. K. HARRISON, U.S. Army (Retired): "In my long experience in the Army I have sadly observed the deadly effect of the use of liquor. I see no reason why non-drinkers should help pay the high costs of insurance due to liquor. After examination of the Gold Star Plan and its operation, I am convinced that it is effectively achieving its objectives."**

**JEROME HINES, leading bass with the Metropolitan Opera Company: "The non-drinker is a better risk and should be entitled to a better insurance rate. Having known Art DeMoss for a long time, I am most happy to recommend his low-cost Gold Star Policies."**

**DR. FRANK C. LAUBACH, author, preacher and internationally known authority on literacy: "This Gold Star Total Abstainer's Policy seems to be exactly what people who do not drink ought to have."**

**ROBERT R. DAVISON, Harrisburg, PENNSYLVANIA: "It is hard to express my gratitude for the kind and efficient handling of my recent claim I was a subscriber in your plan for only two and one-half months when I was quite unexpectedly hospitalized for surgery. I was confined for two weeks and when I submitted the requested proof of my illness, it was only a short time until my check was received from you."**
